Using the Audio CDs and Blackline Masters

SPECIAL FEATURES OF THE SERIES

Audio CDs
Each level has 2 audio CDs—CD A and CD B—that are organized into tracks. Each track has a number (e.g., CD A12) to help the teacher easily find it on a CD player. The audio CDs have a variety of songs, chants, and stories in both child and adult voices.

Blackline Masters
Many of the blackline masters (BLMs) are picture word cards that the teacher can print out and use when teaching a lesson. Some BLMs are used for games or workbook activities, and they can be printed or photocopied multiple times.

Assessment
Each lesson includes a checklist featuring both focus and review vocabulary and key language structures. Teachers can add student names and use a simple marking system to record the progress of each student.
