

Because It Only Takes a Second to Change a Life Forever...

Please Don't Text & Drive.

Text messaging while driving increases your risk of a car crash or near-crash by 23 times*, and the five seconds it takes to send or read a text message takes your eyes off the road long enough to cover the distance of a football field when driving at 55 miles per hour.**

Protect your own life and the lives of others by making a pledge to never text or talk on the phone while driving. If you are in the car with a distracted driver, let them know it bothers you and encourage them to drive phone-free.

These community sponsors urge you to drive phone-free and responsibly:
