

Conservation District Manager

Columbia County Conservation District is accepting applications for a full-time District Manager. The District Manager is responsible for management, administration, guidance and supervision of District programs, personnel, and operations. Must be a service-oriented leader with excellent interpersonal, intrapersonal, communication and organizational skills. Should have knowledge of natural resource issues, practices and programs. Position requires ability to traverse rough terrain and work in inclement weather conditions.

BS in natural resource management, environmental sciences, agricultural sciences or a related science field with demonstrated experience of at least 2 years or any equivalent combination of training and experience providing skills required. Personnel management and business skills a plus. Valid PA driver's license and background checks are required.
