

Accounting Manager w/ HR Experience

An expanding national software firm with local roots has a professional opportunity for a detail oriented and task driven individual who can provide exceptional Client service experiences and project management. The company focuses on making lives easier through technology and education. Its culture thrives through the success of others, individual's integrity, and an easy-going environment. Requirements:

Ideal candidate should be able to improve processes, create checklists, have exposure to HRIS and payroll systems, be familiar with SaaS metrics. Applicants should have a bachelor's degree along with 3-7 years of accounting experience as well as experience handling HR coordination and on-boarding.

Attractive salary, retirement plan, health contribution, and flexible time off for family are good reasons to work here, but our people make it great. Growth and advancement opportunities are available for engaged employees.

If you are just as passionate about creating new possibilities through technology, send cover letter & resume to:
