3. Wait until all players have made their selections and are ready to play.
4. One player counts till 10 while all players scatter. Try to stake out a good shooting spot.
5. Ready, set, go! It's time to wipe the enemy out!
6. Take aim and shoot the opposing team on target to take their lives, while trying to defend yourself from being hit.
7. Make sure to reload ⑦ your weapon as needed.

9. When all 9 lives are taken, you are out of the game and must step off the playing field.
10. The team that stays on the field last wins!

Optional: You may play the game without the vests, by using guns only, as the target. Ensure your RECEIVER switch ⑥ is turned to ON.

The LIVES INDICATOR light ⑧ on your gun will activate and display the number of lives remaining.
