*AN OFFICIAL JOURNAL, PUBLISHED MONTHLY BY THE
AMERICAN KENNEL CLUB.*

Vol. XXV.—No. 12

DECEMBER 31, 1913.

Price { \$2.00 per annum
20c. single number

SPRATT'S DOG CAKES

THERE IS NOTHING QUITE SO IMPORTANT in keeping a dog fit as the matter of his diet. Study his diet and you study his health. Health depends upon Digestion; Digestion upon Mastication; Mastication upon the food given; and for all these the dog depends upon YOU.

SPRATT'S PUPPY BISCUITS

Are just the thing to make sinew and bone in the little fellows; no more bowel or stomach troubles, for they are the proper diet.

Wash your dog with SPRATT'S DOG SOAP

Write for samples and send 2c. stamp for "Dog Culture," which contains valuable information on the feeding, kenneling and general management of dogs.

SPRATT'S BENCHING AND PENNING OUTFIT IS FULLY EQUIPPED TO TAKE CARE OF ALL SHOWS — both large and small. Secretaries are invited to write to us for prices.

SPRATT'S PATENT, Ltd.

Factory and Chief Offices at NEWARK, N. J. Depots at San Francisco, Cal.; St. Louis, Mo.; Cleveland, Ohio; Montreal, Can. New England Agency, Boston, Mass. Factories also in England and Germany.

THE AMERICAN KENNEL GAZETTE

PUBLISHED BY

THE AMERICAN KENNEL CLUB,

1 Liberty St., New York.

P. O. Box No. 2048.

Subscription two dollars per annum; Single copies twenty cents. For sale by Newsdealers.

Notices.

All checks, drafts, money-orders and express-orders should be made payable to the order of the American Kennel Club.

As we are charged exchange on all checks drawn on banks outside of New York City, persons sending money are requested to remit by draft on New York Postoffice, or express-orders, or by registered letter.

When postage stamps are sent in payment of fees, only those of the denomination of two cents will be accepted.

Secretaries of Clubs are requested to forward to the Secretary of the American Kennel Club notices of the election of officers and other club proceedings.

To prevent the duplication of names in the same breed, the Stud Book Committee reserves the right to register with a prefix, or number.

Pacific French Bulldog Club—T. M. Turner.

Devon Dog Show Association—John Sinnott.

Poodle Club—Wm. W. MacLeod.

International Toy Poodle Club — Thomas Hartman.

The secretary read his quarterly report as follows:

New York, Dec. 15, 1913.

To the Delegates of the American Kennel Club.

Gentlemen: I beg to report that I have received four (4) applications for Active Membership and credentials from twelve (12) Clubs appointing delegates to represent them in the American Kennel Club. These papers have been turned over to the Membership Committee which will report its recommendations at this meeting.

I beg to call your attention to Article XXIII, Section 1, of the By-Laws, which reads as follows:

"The Constitution or By-Laws may be amended at the annual meeting of the Club only, and notice of any proposed amendment must be filed sixty days prior thereto. The proposed amendment with report of the Rules Committee to which it must be referred, shall be published in the Gazette at least two weeks prior to the annual meeting."

The following amendment to the by-laws and recommended by the Rules Committee at the quarterly meeting held September 16, 1913, and was illegally adopted at said meeting. Action should therefore be taken at this meeting to rectify the error made at the September meeting.

The report of the Rules Committee was read as follows:

The meeting of the Rules Committee was held July 2, 1913. Present: H. H. Hunnewell, Walter S. Gurnee, Jr., B. S. Smith and J. E. De Mund. The following amendment proposed by Mr. Willets was approved:

Article VI, Section 1, of the By-Laws.

Amend by inserting between the words, "elect and thirty," the words "from their own number," so the section shall read "the Club shall be governed by a Board of Directors of thirty members. The Incorporators shall constitute the Board of Directors until the annual meeting in 1909 or until their successors are elected. At

the annual meeting in 1909 or any adjournment thereof the delegates shall elect from their own number, thirty directors, six of whom shall hold office until the annual meeting in 1910, six of whom shall hold office until 1911, six of whom shall hold office until 1912, six of whom shall hold office until 1913, six of whom shall hold office until 1914, and at each annual meeting thereafter, the delegates shall elect six directors to hold office for five years, or until their successors are appointed and elected. A director who shall cease to be a delegate, shall thereby cease to be a director.

Dr. De Mund: I move its adoption. Seconded and carried.

Rescind Article VI, Sec. 5, By-Laws.

Rescind Article XIV, By-Laws (Referring to P. A. Committee).

I beg to report that Mr. Howard Ehrich has filed his resignation as the delegate from the Airedale Terrier Club of New York.

At a meeting of the Membership Committee, held November 25, 1913, said committee recommended as a Nominating Committee for Directors, in place of the expiring class of 1914, the following: George Greer, Chairman, A. C. Wilmerding, William Rauch, A. G. Hooley and Ralph C. Stewart.

Respectfully submitted,

A. P. VREDENBURGH,
Secretary.

On motion the same was accepted and placed on file.

The Chairman: I want to state to you that Mr. Vredenburg asked me whether he should include in his report any reference to the reciprocity agreement, so-called. An analysis of the constitution seems to show that the Kennel Club decided to put in the hands of the Board of Directors the government of the Kennel Club in the interim, but it failed to treat the Board of Directors as a standing committee; that is to say, to cover the Kennel Club in the interim and not clothe it with the power to act independently, but oblige it to have its acts confirmed at a meeting of the delegates. They did not do that at all. Therefore, no acts of the Board of Directors are really reviewable by the delegates as far as I can see. I presume you could criticise their acts, but not review them. For that reason this subject is not touched upon at all. It is for you to decide. I think, before you go very far in your course hereafter, you should take some steps, some action, as to what class of subjects you propose to keep under your own control. The Board of Directors acted on the subject of a reciprocity agreement with the English Kennel Club. What occurred was that a committee was appointed to take up the subject and report to the Board. It

did that and did report to the Board, and the Board approved of its actions. It was not approved as a complete document, or treated as a contract. It was not viewed apparently as a contract. It was approved simply, and such portions of the agreement as had been mutually agreed upon were put in force by the officers of the club, and the agreement, as far as it had gone, was signed by the secretary and by myself as president, believing that to be ample authority. That subject is either reviewable by the Board or by the delegates. There are certain gentlemen who have taken exception to the action of the officers on the ground that it belonged to the Rules Committee to pass upon and report and be treated as a change in the rules. The agreement made no change in the rules as applied in this country by the American Kennel Club at all, but it is an open question whether that is a correct version to place upon it. Whether that is a correct proceeding or not, I do not know, but so far as I can see, it has no place, under the constitution, before the delegates unless it is to be treated as a change of a rule, in which case it should have then been referred to the Rules Committee and brought finally for ratification to the delegates. It however was taken up by the Board of Directors. It was studied and reported on by a committee. Its action was ratified at a subsequent meeting of the Board of Directors. There is no provision under which the acts of the Board of Directors are reviewable by you. That is the situation. It has caused a great deal of comment. It has caused a great deal of unfavorable criticism, and as soon as you have finished such business as you feel you must pass upon, I shall ask the privilege of taking up that question on the floor.

Mr. Willets: There is one subject I would ask permission to bring before the delegates. It has been customary to publish our minutes in the Gazette, and there have been quite a number of criticisms as to what had been published, and I would like to bring the matter up here for discussion and action as to what should be published and what should not be published of our transactions here. It has also been the habit of the stenographer to furnish reports to the sporting papers of such parts of our transactions as are proper, and there has also been a question raised about that, and I would like to bring that matter up also. I have no recommendations to make.

The Chairman: For the information of the delegates, I desire to say that there appears no resolution at all in the minutes of last meeting of the Board of Directors specifically disposing of that subject. At the same meeting there was considerable discussion on this very point, but no

action was taken. The impression intended to be left with the secretary was that he should omit general remarks and whatever took place outside of actual voting on the various subjects that came up. That was not made a matter of specific direction so far as I can ascertain.

Dr. De Mund: I beg to state that at a meeting of the Executive Committee a year ago last summer it was passed that nothing but the actual results be published in the Gazette, and that was ratified afterwards at the meeting of the directors.

The Secretary: I could not find any record in the meetings of the directors or the delegates to that effect. I have been over it very carefully, but I could not find any such record. I knew there was such an understanding.

Dr. De Mund: That was passed at the same time that the Investigating Committee was appointed.

The Secretary: The first time that that matter was mentioned was immediately after the Stewart case, when I was directed to edit the minutes so that nothing actionable might appear in those minutes, and after that, about a year, I should imagine, I understood that there was an understanding between the directors and the secretary that nothing should be published except the resolutions and the results.

Dr. De Mund: May I ask the secretary to get the minutes of the Executive Committee meeting that was held at that time which appointed the Investigating Committee?

The Secretary: August, 1912, I think.

(At this point Chairman Belmont resigns the chair to Mr. Hunnewell.)

Dr. De Mund: The president rather anticipated me in bringing up the question in regard to reciprocity, and I would like to bring that up now. I know something about it, being a member of the committee. The committee was appointed by the Board of Directors to take up this question of reciprocity with a similar committee of the English Kennel Club. It did so and arrived at a satisfactory conclusion with that committee. The understanding was that they were to report back to the English Kennel Club, and we would report back to the American Kennel Club. Last December we reported back to the Board of Directors, which created us, and they confirmed our action. The understanding then was at a later date to report to the Rules Committee, and the Rules Committee would report to the delegates, to put the rules into effect, as it practically amounted to a new rule. Since that time the rule has been put into effect that any dog imported from England cannot be registered in this country except by using the English name. That is entirely a new rule, and I would ask for a

ruling of the Chair how that can be made a rule without coming before the delegates under Articles XVII and XXIII. The former rule was that any dog could be registered by complying with the rules that were in force at that time—that rule has been changed now so that a man cannot register a dog that is registered in England, except under the English name. It seems to me, that is a distinct change in the rule and therefore could not be legally adopted except by the delegates of the American Kennel Club.

Chairman Hunnewell: I think while the president is here, he should rule on that, as he knows more about that than I do.

Mr. Belmont: I desired, inasmuch as this matter surrounds the action of myself as president and Mr. Vredenburg as secretary, so far as the signing of it is concerned, the privilege of taking part in the discussion. I do not think the Chair would be competent to rule on this question. The very language used by Dr. De Mund is that it is equivalent to a change of rule. Inasmuch as I do not quite agree with that, to rule on a subject of that kind would not be proper. It is not a question of fact; it is a question of interpretation. There are certain acts of the Stud Book Committee which do not go to the Rules Committee. I think that the secretary, or the chairman of the Stud Book Committee, on that question, is probably more competent than I to state as to the latitude they have in deciding questions of registration. It is for the delegates at large to interpret, whether that is a change of rule. A dog comes out here with a certain name. It possesses that name. There is no rule on the subject at all, but for the purpose of identity it is certainly very important that a change of name should not take place. Therefore, the Stud Book Committee, I understand, decided that question. I will ask the Chair to ask the secretary to report as to that.

The Chairman: My memory is entirely different from Dr. De Mund's. I understood that we handed that one point over to the Stud Book Committee. We considered that that was a part of their duty. It was a registration and nothing to do with the rules and that is my impression of the way it was done.

Mr. Smith: Mr. Vredenburg, who was also a member of that committee, was out of the room when Dr. De Mund was speaking. I understood Dr. De Mund to say at one of our meetings, that is, a meeting of this Reciprocity Committee of Three, Mr. Vredenburg, Dr. De Mund and myself, it was held that after we came to our conclusion we were to hand this over to the Rules Committee. I do not remember any such agreement, and I would like to ask Mr. Vredenburg if he understood it in that way.

The Secretary: This is the first I ever heard of such an agreement.

Dr. De Mund: I did not state that there has been any such agreement. I said it was understood, and when I recalled to Mr. Vredenburg's mind how it was understood I spoke to him about the matter, and he himself suggested that it not come up for the present, as we should wait until the English Kennel Club had adopted the matter, because they had backed out of a former agreement, and I knew nothing about that because it was before I was connected with the American Kennel Club, and he told me that he was one of the committee that entered into a former agreement with the English Kennel Club, and they had backed down, and it would be as well to wait until they had adopted the proposed agreement.

The Secretary: The reciprocity agreement is not an addition, an amendment, or taken from any rule in our book of rules, either governing clubs or governing shows, nor does it affect anything in our by-laws. The rules governing registration were made by the Stud Book Committee, and that Stud Book Committee referred the rules that they had made for approval. They were approved, and the only place that you will find the rules governing registration is on the registration blank. Therefore, it is not necessary for this agreement to come before the Rules Committee, because that committee had nothing whatever to do with it. It ought to be satisfactory, however, to the Stud Book Committee. The reciprocity agreement was brought up by me at the Board of Directors meeting on the 17th of December, 1912, at which all members of the Reciprocity Committee were present. That agreement was unanimously approved at that meeting by the directors. After the meeting, in correspondence with the English Club, they agreed to everything but the mode of procedure in the third article. They agreed to the facts, but how should we get at them. The Committee changed the articles so that it said we would not act upon kennel names until after the 20th day of the month, which the English Kennel Club agreed to. After that was agreed to, I notified them of the unanimous approval of our directors. They sent me word to prepare the agreement and send it to them for signature. I had the agreement engrossed, took it to the president, who signed it, and I signed it, and sent both copies to the English Kennel Club. At the same time I sent a communication asking them to designate the month when they would publish this agreement in their Gazette so that we could publish it in our Gazette simultaneously with them. At the same time I also sent a list of our persons not in good standing. I received a cablegram asking us to defer publication. When I received their letter they questioned the disqualification of six Canadians and asked for an ex-

planation. I sent them an explanation of the six, and they withdrew their objection to five and said that they wanted to further investigate one. After the investigation they determined that they could not agree to that particular article referring to disqualified persons for the reason that the person in question was Dr. Boulbee, who had charges preferred against him by Dr. De Mund because he would not furnish affidavits to support the allegations that he made in the public press. The Trial Board disqualified him. Dr. Boulbee is the Secretary of the Canadian Kennel Club, which is an affiliated club with the English Kennel Club, and therefore the English club was not prepared to disqualify an officer of one of their affiliated clubs. Mr. Smith, a member of the committee, and myself during Dr. De Mund's absence in California, discussed this matter after we had received these communications, and we determined for the general benefit of the dog public in America that it would be advisable to put in force two articles of that agreement, namely, that a registered dog in the English Stud Book, if imported here and applied here for registration in the American Book, it had to be registered in the identical name that it was registered in in the English Stud Book, with the letters Eng. in parentheses after it, to show it was an English registration. The other article which we determined to put in force was that we would not grant a kennel name which conflicted with a kennel name that had already been granted by the English Kennel Club. The English Kennel Club evidently thought as we did, because they put in operation one of the articles. I had been directed by the Trial Board in case of an Englishman who had been before this Board two or three times, to inquire from the English Kennel Club certain matters relating to his standing on the other side. The English Kennel Club positively declined to furnish me with that information, and when Mr. Walter Glynn, who suggested this reciprocity agreement, was here last, he told me that they did not dare to send us the information we wanted, because there was no agreement between the two clubs; but after this agreement went to them, they did send me a confidential communication referring to a man who was coming out here to take charge of a very large kennels who had been ruled off by the English Kennel Club for life. On the return of Dr. De Mund from the West, I told him exactly what had happened, and he then suggested this way out of it, to get Dr. Boulbee to simply send a letter expressing regret at what had happened, and it would be a very easy thing then to reinstate Dr. Boulbee when the objection to that clause will be removed. Dr. Ford was asked to see Dr. Boulbee to see if he would do it, and Dr. De Mund asked me

several times if we had heard what Dr. Ford had done. All I can say in conclusion is this, that there was no objection made whatever to the action of the Reciprocity Committee. There was no objection made to the question of the approval of that reciprocity agreement last December, until this fall.

Dr. De Mund: I do not see what all this has to do with it. It has nothing to do with the question whatever. No rule can be changed except by the delegates. Mr. Vredenburg referred to the Stud Book Committee. Since the incorporation of the American Kennel Club the various committees have made rules. You, as a member of the Rules Committee, probably will recollect that every rule that the committee made was referred to the Rules Committee and then reported to the delegates. At our last meeting the License Committee made a number of rules which were referred to the Rules Committee and reported to the delegates, and the delegates turned them down. No rule has ever gone through this club since the incorporation of any committee that has not been referred to the delegates. The Stud Book Committee rules originally were referred to the delegates and passed on some six years ago when they were first made, and this is a change in a rule, it seems to me. I may be wrong, and I ask the expression of the delegates.

Mr. Cutler: It does not seem to me that this is a rule at all. If it is in force, it get its force from the fact that there is an agreement between the American Kennel Club and the English Kennel Club. That is very different from a rule made by this club. This agreement, as you call it, will be binding on both parties. The term which you have designated it by, a reciprocal agreement shows that there are two parties, and that each party is conceding certain things and giving certain things, and it gets its force from that fact that it is an agreement. In my opinion this matter belongs to the Board of Directors under their general power as the governing body of this corporation. I am well aware that it is no ordinary branch of the law of corporations that a corporation in one country will have power to make laws for a corporation in another country, but two corporations may agree. Two corporations may enter into one of those understandings, agreements, which we hear now so much about in the public press. If it takes place between two nations then it is called a treaty; if it takes place between two public service corporations, it is called by various ugly sounding names, sometimes a gentleman's agreement. As I look upon this transaction it is one of those understandings which takes place between two great organizations, and each is bound to respect that agreement, and what we call in law giving due faith

and credence between two States, or comities between two nations, renders it necessary for each to respect the agreements and understandings which they have entered into, and any part of that agreement will be enforced with as much sanction as a law, contract, rule or a by-law; but it is not a rule or a by-law. Perhaps I am taking this too seriously, but I think it is one of the greatest questions that we have ever had before us. I did happen to be a delegate, and I begin to feel as if I was one of the old-timers when I realize that I was a delegate when this reciprocal agreement fell through some years ago which has been referred to. I felt then that I hoped I would remain a delegate of this club until a successful reciprocal agreement should be perfected between these two great kennel clubs, and that this kennel club's functions and powers would not be limited by this convenience, but that it might be a world power, and I believe that today we are on the verge of making this agreement which will make the dog fancy on both sides of the Atlantic one governed to a very great extent by the reciprocal understanding agreement between the two great parties. We would call them high contracting parties if we were dealing in the language of diplomacy. I have tried to make my point plain because I recognize that it is perhaps a little subtle, but I hope we will not get mixed up with any question of changing rules. It transcends rules. We could not make any agreement which would be a violation of our constitution, but I take it we can make any agreement which we can carry out which is not in contravention of the constitution, even though it is in contravention of a rule.

Mr. Collins: I have heard this matter spoken of as a reciprocal agreement, but I think that name is wrongly used in connection therewith. In the first place, the English Kennel Club simply accepted what they saw fit to accept and rejected what they did not want. So far as the kennel club is concerned, and so far as registering a dog under the same name here as in England, that would affect the English about as much as chicken people here in this country would be affected, because dogs are never exported from this country to England because of the rules of the English Kennel Club. It seems to me that the original makers of the constitution had the right idea in mind when they put the clause in to the effect that the delegates shall have supervision over the changing of the rules. If you are going to continue with the technical ideas of what rules are and what they are not, it will not be very long before it will not be necessary to have a delegates meeting, because the Board of Directors can meet once or twice a year or month, as they please, and do as they please. It seems to

me that the delegates should have something to say about this matter as to whether it is a rule or not. Suppose we take this reciprocal agreement unto ourselves and agree to it. Suppose I have a kennel name registered and paid for in this country. I buy a dog on the other side and I am precluded from the benefit of using my kennel name in connection with that dog. On the other hand, you say, according to this agreement, that we cannot use the kennel names of England. Then, if I import a dog with a kennel name or a prefix of an English kennel, how can I register that name here under that kennel prefix or kennel name? I buy a dog from Mr. Smith whose prefix or kennel name is registered. Your rule says I must name that dog over here a certain name, and yet your rule also says I cannot because I cannot use that kennel name. I think it is a good idea since I have every confidence in your Rules Committee and in your various small committees, but there are a great many people in this club, members of the Board of Directors, and so forth, who are not exhibitors at the present time, and who, through not being closely connected with the dog matters and the shows and so forth, lack light on those small matters, and it is only fair when you bring a matter as important as this is up for consideration that you should give the delegates who represent the clubs in this country, an opportunity to have a voice in such a matter.

Mr. Lederer: I had intended originally to rise and ask the question for my own enlightenment as to what this reciprocity agreement really is. The Chair remarked in the first place that it is not a rule, and then observed that it could not be an agreement because every term of it was not agreed upon. But it was the speaker before the last one who really suggested to my mind what this reciprocity agreement is, and to my mind it is nothing short of this: It is an agreement to make a rule. The American Kennel Club proposes to agree with the English Kennel Club to make a rule affecting registrations. It seems to me then that whether it is to be looked upon as a rule or as an agreement is not the question before us, because it seems to me very clear that this is an agreement to make a rule, and that in that respect it is too large a subject for any committee to deal with alone, in that it is a question involving an act of the delegates in making a rule. It looks to the making of a rule.

Mr. Belmont: We are playing upon words calling a Stud Book regulation a rule, because the Stud Book Committee has made regulations with regard to registrations which do not appear in the rules, have never been required to appear in the rules. They have a certain latitude with regard to that. Other minds than those of the speaker consider that they were acting

fully within their province when they adopted this portion of the agreement as a part of their regulations. If we use the word "Rule," then what this speaker said might be so, but it is not a rule any more than any of the other regulations of the Stud Book Committee, and that is the way it was accepted by us. The whole difficulty is this: The Board of Directors were either, for the sake of promoting the good government of this Association, clothed with powers for that purpose, or they were not, one of the two. The Kennel Club had grown so large that when we incorporated and a new constitution was adopted, the idea was to make the government as effective as possible, and that to govern through delegates, as in former years, was not possible. Therefore, they appointed a Board of Directors, and clothed them with certain powers. I was not on the committee which framed this constitution, but Dr. De Mund, I believe, was, and there are a great many delegates present, I believe, who had to do with the framing of that constitution. The framers went so far as not to provide a confirmation of the acts of the directors; either the Board of Directors was empowered under the constitution to act in this matter, or it was not. If it was, there is no review, apparently. That is where we stand, and it is for you to say now whether you consider any regulations, or this particular regulation of the Stud Book Committee, such as should have been reported to the Rules Committee, and should have taken its course as a change of a rule. As a matter of definition I do not mean to say that it was not a change of rule. I mean to say this, however, that there is precedent for the Stud Book Committee making such changes as that and such regulations as that, without calling them rules, in accordance with their own regulations or rules of registration, if you like; not rules of the American Kennel Club, but rules of registration; they considered that that committee had entire charge of the supervision of that subject without any necessity of having them go through the form prescribed by the constitution for change of rule. Unfortunately, the trouble with this whole question is that it revolves around personalities, and that is why I want to speak to you today. We are all the time getting into trouble. When you come to these meetings you are not called upon half the time to act upon questions which really concern the welfare of the American Kennel Club, but you are asked to act upon things that concern the personal relations of your members, of your committeemen, of your officers, or something of that kind. This very question of Dr. Boulton—he has not offended against the rules of the Kennel Club. He has not done anything that would bring him under the rules of our Club or the Canadian Kennel

Club or the English Kennel Club. He has done nothing in violation of the rules. What he did was to give currency to certain talk about a member of one of your committees, an officer we will say, not one of your executive officers but practically one, because I want to say that he practically exercises the functions of an executive officer most of the time. I do not mean to say that he exercises them technically under the constitution, but he exercises them really in that he succeeds in centering upon himself every complaint, every question that is to come up for your decision. Dr. Boulton's case resolves itself simply into the liberty that one man took to speak of another's personal affair. What has that to do with the rules of the American Kennel Club? In his capacity as an officer he prepared the case. Had he been an associate member, had he been an ordinary member, that action against Dr. Boulton would never have carried weight anywhere. It was brought up as an offence and then the discipline of the American Kennel Club was applied to Dr. Boulton. This immediately brought us into conflict with the feelings and the opinions of the English Kennel Club. It is not necessary for me to go through the details of that; but that is the fact, and then, mind you, a proposed rectification of this trouble is not that Dr. Boulton shall come to the American Kennel Club to make reparation for breach of the rules as would be necessary with anybody who committed a fraud, say in registration, or breach of the rules which rendered them liable for discipline. No, he does not do that. This officer of the American Kennel Club sends somebody to tell Dr. Boulton that if he apologized to him, the officer, it would be all right. Is that the way to administer the rules and the government of the American Kennel Club? It is unthinkable. The difficulty is that we are surrounded with that sort of thing at every step. You have seen in the kennel press things that you ought never to have seen. You have seen in the kennel press references to this reciprocity agreement, whereas, we have had meetings of the directors, we have had meetings of the delegates, but this particular question was never raised until when? Now. And how? Not on this floor; not at all. It was raised on the floors of dog shows among the exhibitors, among the delegates, among the reporters, among the editors of the different kennel journals, who then published articles on the subject, although at that time we had taken no action; had not reviewed the acts of Mr. Vredenburg or myself, the action of the directors, the action of the committee, or anything of that kind. I am prepared to come here and to have my doings reviewed if I have done anything wrong, but here only, or before the Board of Directors; not

among the exhibitors, not on the outside. We do not propose to go to the press to discuss beforehand the affairs of the American Kennel Club. But that is what has taken place. Besides all that, there has been in the atmosphere talk about an investigation. Who has mentioned an investigation? Have the delegates mentioned an investigation? Has the Board of Directors? Has any committee? I know of none at all. I have been spoken to by outsiders about it. Such knowledge as I had on the subject I kept fully to myself and consulted those who are in authority and those whom I thought I was not only justified in consulting but whom I ought to consult. I was asked by Dr. De Mund to take steps to have the office of the Kennel Club investigated. I submit to you whether I would have had a right even if I had found the contention of Dr. De Mund absolutely correct and supported in every particular, to proceed with him, or to proceed at his request to order an investigation of this office. I would not be justified in taking a step of that kind unless I was backed up by much more than the request of one gentleman, whether he were a simple member or whether he were next to me in authority. I would have felt that I must establish thoroughly to my own satisfaction first that these charges, whatever they might be, had a correct foundation. I would then have felt that it was my duty to bring the subject before the Executive Committee.

It was too serious; because charges against the office are serious. I felt I should bring them before the Executive Committee perhaps in special session, lay them before it, or if a meeting of the directors was going to take place shortly, not too far in the future so as to make of it a waste of time, I should bring it before it; or if the delegates were going to meet I should bring it before them. Instead of that, I have read in the papers about it. Insinuations have been such that you could tell exactly what they meant, but you all knew that something was impending.

I too have been criticized by one of the papers. Suppose that I took the same course that has been pursued here before with regard to foregoing matters and requested you to call to account some writer because he happened to abuse me improperly. Supposing I did that? Yet that is just what has been done. You remember we had a meeting here once—or was that the directors—the Executive Board will recollect that we came near having a lawsuit again because a journalist was called to account for criticizing the judges. Why shouldn't he criticize them? Of course he can criticize them. The American Kennel Club has nothing to do with the question of whether he criticizes the judges in a manner that is detrimental

to a particular show, or anything of that kind. We must have freedom of discussion. You cannot undertake to muzzle the press. In the first place, it would not be desirable, besides you would fail to succeed if you tried it. Every time that a personal matter comes into our kennel life—I am going to be open, Dr. De Mund—every time something wrong comes to the attention of the American Kennel Club, you try to reach the person concerned through the American Kennel Club machinery. That is what has happened.

Now, I am going to read to you the correspondence I had with Dr. De Mund, and after that correspondence I had a conference with Mr. Gurnee, Dr. De Mund, and certain portions of it were explained. I will paint you the picture and you can judge for yourselves as to that. Listen to the language of it; then listen to the results and determine whether that language in a letter addressed to me is justified or not. If it is justified, this kennel club is in a rotten condition, and if it is not justified then I submit to you that we must begin to arrange our affairs so that this sort of thing cannot happen again; because if they do, there is but one thing, a constant turmoil, if not the disruption of the club. It is powerful enough, but you are contributing to the machinations of anybody who wants to disrupt the club, or who wants to share with you the very well earned authority which you have here in the United States. Mind you, gentlemen, I have no personal feeling or axe to grind in connection with Dr. De Mund. He has done yoeman work for the Kennel Club, but it is my duty, even if I were an intimate friend, to save him as well as the kennel club from going to a point where we really might come to a serious disagreement.

I want to say, in connection with some part of this correspondence, by way of parenthesis, that I see no difference between a paid employee and any of your officers. The fact that a man receives a salary makes no difference. The duties are just the same to the Kennel Club. You may not demand all his time, but you have just as much right to criticize anybody and call anybody to account who occupies an office, whether he is paid or not, and I wish to subject myself to that class.

(Copy)

December 8, 1913.

Dr. J. E. De Mund,
8731 Bay Parkway,
Brooklyn, N. Y.

Dear Sir: I have not heard from you since our interview at my office on November 25th, when I believed it was understood between us, that I would hear from you again and that you would lay before me some documentary evidence to sustain your

charges against the office of the American Kennel Club, which you requested me to order an investigation of, in a letter addressed to me on October 21st.

I now ask you formally and officially, to lay before me at my office, 43 Exchange Place, New York, the proof asked, either on Wednesday, the 10th instant, or Thursday the 11th, at the latest.

When you have done this I will proceed forthwith to officially take the necessary steps to bring about what you demand, if the evidence warrants it.

In order that there may be no misunderstanding between us as to what has taken place in the time intervening—between the receipt by me on October 24th, of your letter of October 21st and the present time, including our conference on November 25th—I have prepared the subjoined statement reviewing certain facts and my understanding of them in the hope that they will accord with yours and your understanding of them as well.

Should, however, any statement I make differ from your conception of the facts and my expression of them to you, I will be glad to readjust them, so that there will be no question between us as to the correctness of what I am stating.

Your letter of October 21st, which I quote herewith, calls upon me to join with you in causing an investigation to be made of the office of the American Kennel Club. This request is based upon most sweeping charges, without, however, any specifications:

October 21, 1913.

August Belmont, Esq.

President American Kennel Club,
43 Exchange Place, New York.

Dear Sir: Having of late read the criticism by the entire kennel press of the country and also of two of the large daily papers directed against the office of the A. K. C., also being in receipt of a great number of complaints officially laid before me by directors, delegates, exhibitors, dog fanciers and others from all sections of the country against certain paid employees of the American Kennel Club, in regard to interference with committees, trial boards, directors and delegates, the usurpation of powers of committees, officers and delegates, the defiance of the rules and resolutions of the A. K. C. by certain paid employees, the arbitrary and contradictory letters written to exhibitors and fanciers. I deem it my duty to bring these matters before you. I view with alarm the widespread and rapidly growing dissatisfaction of fanciers of the whole United States and the distrust manifested by them of the A. K. C. due to mistakes and carelessness in the office. Knowing personally that many of the criticisms are only too well founded I ask you to join with me to devise

some method to investigate the office and paid employees and try to restore the A. K. C. to the confidence and respect of the American fancier and place it back on the plane where it belongs.

Yours very truly,

(Signed) J. E. DE MUND,
Chairman of the Board of Directors
of the American Kennel Club.

To this I replied to you on October 31st as follows holding myself in readiness for a conference at which you could lay before me proofs, which, from your letter I presumed would not only be documentary, but voluminous. I was prepared to give you the necessary time and go over the matter thoroughly.

October 31, 1913.

Dr. J. E. De Mund,
8731 Bay Parkway,
Brooklyn, N. Y.

Dear Sir: Press of business has prevented my answering sooner your letter of October 21st.

I will be greatly obliged to you if you will place before me the criticism by the "entire kennel press of the country" and also those of the two "large daily papers" which you state you have read, directed against the office of the American Kennel Club.

You have, as I understand, in your possession, a great number of complaints "officially laid before you by directors, delegates, exhibitors, dog fanciers, against certain paid employees of the American Kennel Club in regard to interference with Committees, Trial Boards, Directors and Delegates, the usurpation of powers of committees, officers and delegates, the defiance of the rules and resolutions of the American Kennel Club."

You ask for an opportunity to lay these matters before me.

I am prepared by appointment at a mutually suitable hour and place, to meet you and review this subject with you.

I regret that I am in ignorance of this widespread dissatisfaction so far as it has been in any way conveyed to me as president of the American Kennel Club. I would have expected, unless the criticism is levelled at me as well, that such communications should at least in part have been addressed to the executive officer of the club. I remain,

Yours truly,

(Signed) AUGUST BELMONT,
President American Kennel Club.

Three days elapsed before receiving your reply, which I herewith quote:

November 3, 1913.

Mr. August Belmont, President,
American Kennel Club,
43 Exchange Place, New York.

Dear Sir: I am leaving today and will return on the 10th, and will be pleased to meet you at any time con-

venient to you and place before you the matters contained in my letter of October 21st.

I have not heard criticism levelled at you, but possibly the reason that communications have not been addressed to you is because of the belief among fanciers that any letter concerning A. K. C. matters are forwarded by you to the secretary. I remain,

Your very truly,

(Signed) J. E. DE MUND,
Chairman Board of Directors.

and on November 13th, I received another communication from you under date of November 12th, as follows:

November 12, 1913.

Mr. August Belmont,

Dear Mr. Belmont: I am at your service in the matters concerning the A. K. C. this week or Monday, November 17th, after that will be free at any time after November 23rd.

Yours sincerely,

(Signed) J. E. DE MUND.

I was unable to reach you over the telephone, but on November 24th secured your attention with the following letter proposing a conference:

November 24, 1913.

My dear Dr. De Mund: I tried to get hold of you on Tuesday, November 18th, and it was said from your home that you had gone to the Kennel Club. I left word there to put yourself in communication with me. Later in the afternoon your office stated that you would be away until Saturday.

I presume you were informed that I was trying to get hold of you to make an appointment.

Can you meet me tomorrow at 11.30 a. m.?

I am trying to get you on the telephone at this time of writing, hoping to settle definitely on a time and place when we can meet and go over the matter of the Kennel Club promptly.

This letter is written to you in case I am unable to reach you on the telephone. I remain,

Yours truly,

(Signed) AUGUST BELMONT.

You came to my office on November 25th. You did not bring with you a single scrap of paper of any kind, or even a prepared statement reciting specific instances in support of the allegations contained in your letter of October 21st.

I listened to your complaint, which was entirely verbal, couched as before, in general terms only.

You stated to me that you had no clippings of newspapers and were not prepared to support your statements as to the publications referred to in your letter of October 21st, with clippings or excerpts of such publications. Furthermore, you told me that the

complaints, in the main, came to you verbally; some were in writing, but you had not brought any of the letters with you. I drew from you, however, that the major portion of the complaints were from exhibitors, judges, and people interested in dog shows, conveyed to you verbally at dog shows.

I called to your attention the necessity of your substantiating your charges and insisted that you carry them to the American Kennel Club at the next meeting of the delegates, or place them before me to be brought to the attention of the meeting of the Board of Directors on December 16th.

In reply to a request for specific charges, you mentioned the reciprocity agreement, in connection with which you claimed that Mr. Vredenburg has acted in an unauthorized manner, which included as well, my signature to the reciprocity agreement between the English Kennel Club and the American Kennel Club.

I drew your attention to a letter which you had written to the "American Fancier and Stockkeeper" in reply to one addressed to you on the same subject. I stated to you that I considered your doing this an improper method of securing both attention to and correction of the action of Mr. Vredenburg and myself, and that matters of this sort should be first threshed out within the walls of the Kennel Club itself. You said that you had not considered that view of it, but you upon reflection, realized that I was right and expressed yourself as sorry that you had been led to answer the letter of the "American Fancier and Stockkeeper."

Another definite charge was the part taken by Mr. Vredenburg and his office in giving currency or making statements, with regard to some alleged personal relations of yours, which you very much resented.

The third definite complaint was your reference to the verbatim publication in the Kennel Gazette by the secretary of the American Kennel Club, of the discussions which take place at our meetings, and which at a meeting of the Board on May 20, 1913, had by resolution been ordered discontinued.

The proper place for the correction of a violation of instructions of this kind is at succeeding meetings of the directors, and in default of this, of the delegates.

Touching again upon the reciprocity agreement, I gave you to understand that I had been satisfied with the authority from the American Kennel Club for the signature attached to it by the proper officers but that the subject could well be brought before the Kennel Club and it alone would decide as to that question.

With regard to the second subject; I stated to you that it could not be made an American Kennel Club matter; that it was purely personal and

had nothing to with the business of the Kennel Club.

You conveyed to me no other specific charges outside of the above three.

With regard to my course respecting your letter of October 21st, I stated to you that I had immediately written the following letter to the gentlemen whose names are given below:

October 31, 1913.

Dear Sir: Very serious complaints have been brought to my attention as having been addressed to certain officials of the American Kennel Club touching upon the usurpation of the powers of "committees, officers and delegates" and the "defiance of the rules of the American Kennel Club by certain paid employees."

As president of the club I have received no direct complaint of this nature and as chairman of the..... committee I will thank you very much to communicate with me as to whether you have been the recipient of any such complaints."

I remain

Yours very truly,

(Signed) AUGUST BELMONT,
President American Kennel Club.

H. H. Hunnewell, 1st Vice-President, Boston, Mass.

H. K. Bloodgood, 2nd Vice-President, New York.

Wm. G. Rockefeller, Chairman, Finance Committee, New York.

Jas. W. Appleton, Chairman, Stud Book Committee, Ipswich, Mass.

Chetwood Smith, Chairman, Field Trial Committee, Worcester, Mass.

A. G. Hooley, Chairman, License Committee, New York.

R. P. Keasbey, Chairman, Publication Committee, New York.

Ralph C. Stewart, Chairman, Law Committee, Philadelphia, Pa.

B. S. Smith, Chairman, New York Trial Board, New York.

Dr. F. G. Osgood, Chairman, Boston Trial Board, Boston, Mass.

W. L. Barclay, Chairman, Philadelphia Trial Board, Philadelphia, Pa.

Howard Willets, Chairman, Membership Committee, New York.

The answers were varying, but in every instance there was a distinct denial that complaints of the nature you state had been brought to their attention.

I went on to tell you that the act ratifying the reciprocity agreement had been committed in the spring of the current year and as you had taken no steps with regard to it in the intervening period such as you were taking today, when the time is short and just as we are approaching the mid-winter meeting and our annual meeting, I stated to you frankly that it bore the earmarks of a purpose to create confusion and dissatisfaction as the time of the election drew near.

I now learn that instead of your proceeding to put me in possession of

the facts with regard to your accusations against the office of the American Kennel Club you have been instrumental in circulating a petition for signatures among dog fanciers, exhibitors and others associated with the dog world, demanding an investigation of the offices of the American Kennel Club.

Such demand could only be made as a result of statements by you to them of conditions warranting an investigation. Unless these statements which you are making to them are better founded than those which you made to me, your seeking their signatures is unjustifiable and in my opinion, violation of your assurances to me.

Such a petition could only be calculated to stir up hostility and feeling against the management of the American Kennel Club. I cannot but draw from it the natural conclusion, after reviewing the letters from the chairmen of the various committees and the responses to my inquiries at the office of the club, that the wide dissatisfaction which you claim exists does not emanate from what the various committees and officers of the Kennel Club have done, but what you have evidently taken great pains to instill in their minds.

Let me say to you in conclusion, that if you carry out your intention to resign at the present time, and fail to push to a finish before the Board of Directors and Delegates, this effort of yours to cause an investigation of the office of the American Kennel Club, it will be impossible for anybody conversant with all the facts, not to question the sincerity of your motives.

Ever since you have been connected with the Kennel Club officially, you have never found the door closed to any effort on your part to bring questions you desired before the Club or its officers, and that door is quite open now. I remain,

Yours truly,

(Signed) AUGUST BELMONT,
President American Kennel Club.

That statement I will continue to make until I have proof that this is not the fact. I cannot find from this gentleman where this dissatisfaction comes from. I take this simple question of reciprocity agreement. It has been put in a wrong light. So far as the action of the officers are concerned, it looks exactly as if we had taken a step which was absolutely unwarranted. There is no mention of the Board of Directors. They certainly have some powers, and we thought we had received them properly from that Board. If we have not, it is essential that we should. At all events I have found no one who is more responsible for the spread of this matter than Dr. De Mund.

Gentlemen, I have not had another word since with Dr. De Mund. He

emphasizes the statements that there is general dissatisfaction with the office. Mr. Vredenburg, he claims takes it upon himself to decide questions and do things, but when it came down to when and how this was started, why, Dr. De Mund conveyed to me that everything was all right up to a year ago. I submit to you, if everything has gone all right up to within a year—I do not know if you are all satisfied that there has been a great change in this office since then)—that matters are now conducted differently than they have been for the last twenty-five years, let us have it out. If you want an investigation of the office of the Kennel Club, of course it should be had. I did not feel justified in ordering it, and I want to say that when Mr. Vredenburg came to me to request it, I said that I would not do it until I had brought the subject before the American Kennel Club. I thank you for your patience in listening to me.

Dr. De Mund: I think that as the president has very cleverly turned this into an attack on me and put me on the defensive, although I decline to take that position because he has made a personal matter of it, I wish to say a few words in my defense. I ought to call the attention of Mr. Belmont to certain matters which a great many delegates sitting here know to be true. I do not think there is any question in the minds of a great many of you, particularly those who are familiar with the past, that there is a great deal of dissatisfaction among the dog public at present with the American Kennel Club as it is conducted. The interview as read by Mr. Belmont, is substantially correct. There are a few matters there that I do not quite accord with, but they are immaterial. One of the principal things, though, Mr. Belmont did not state that I told him that I could not furnish evidence to him, but that I would furnish evidence of the matters with which I was personally acquainted before a committee at any time, and I stood ready to do so. He has passed the matter over to the secretary and myself having some personal differences. I have no personal differences with the secretary of the American Kennel Club, and as a man I like the secretary, but I do not approve of his actions in a great many respects as secretary. The matter that I referred to Mr. Belmont was not a personal one, but when an attack was made on me by two members of this club, which was afterwards proven to be absolutely false, I had to demand an investigation to get them to bring their charges. They did bring their charges and they were tried by the Executive Committee, and the Executive Committee found that they were absolutely unfounded. At that time I was not allowed to testify, but I had proof of several directors of the American Kennel

Club that those charges, if not actually instigated, were aided and abetted by the secretary of the American Kennel Club. I did not make it a personal matter, but I made it a matter of an attack of the secretary of the American Kennel Club on an official, and I claimed to Mr. Belmont that it was unwarranted. It was not to the best interests of the American Kennel Club for the secretary to ally himself against any director of the club. It was not a personal view at all of that. I did mention one or two other matters to Mr. Belmont that I said I could furnish proof of. Of course I am at a disadvantage. Mr. Belmont had a typewritten copy, and I did not expect—in the first place, I always intended to bring this matter up before the delegates. I did tell Mr. Belmont that I had contemplated resigning for sometime and I had intended to do so because I was not in accord with certain matters. I came to Mr. Belmont as an official of the American Kennel Club for the good of the American Kennel Club. There was nothing personal in the matter at all. I simply asked an investigation of these reports that are all over the country, and they are all over the country. Mr. Belmont says they are not true. An investigation would settle it. I did not consider it then the time nor the place to furnish the proof, and in my letter I merely stated that some of them I knew to be true, and those I still know and still stand ready to furnish the proof of. The others are a great deal of them hearsay, a great many of them complaints, but I can furnish the names of the complainants to any committee. I told Mr. Belmont at the time that I did not propose to act as prosecuting officer but I would merely testify and bring forth the proof.

Mr. Belmont: I do not think that Dr. De Mund can divest himself of the prosecuting officer's mantle. He makes statements of this kind, and they must be substantiated, it seems to me. It is not right to set an investigation in motion and then withdraw it and allow all the odium of an investigation to rest on the accused under such general charges. If you will take my word for it, everyone of these so-called complaints are trifling compared with the mass of really good work that is being done, not only by the office of the American Kennel Club, but by every committee connected with it. There is a tremendous amount of it. That there should be things done that are open to criticism, yes, of course; that Mr. Vredenburg is not the most amiable person at times, yes, of course. We went all through that once before. I think that he might not be willing to deny that himself. I am no saint myself if a man comes in accusing me of improper conduct. I know of one instance, the addressing of a letter by

Mr. Vredenburg to somebody who took exception to something. He wrote in very curt language that the American Kennel Club ordered him, and he obeyed the orders of the American Kennel Club. It was not particularly polite, perhaps; it was perhaps unnecessary; it was referred to Mr. Bloodgood. It was not considered wise by Mr. Bloodgood to make that statement. If it was not a polite statement, if it was not diplomatic, if its tone was not in the line of treatment which you think people should receive, it certainly was not out of line with your general wishes. Mr. Vredenburg considers the orders of the American Kennel Club paramount to any opinion of his own. I do not think that is much to find fault with. There was another question of complaint; about the rule with regard to exhibitors judging. I would rather Mr. Vredenburg should make his own statement about that. I do not see very much in it. * * * * *

Of course, the dog fanciers all over the country, if they are told that the American Kennel Club's office is badly managed can finally be made to think so. The few who want to spread dissatisfaction can do ten times more damage than those who wish to progress the interests of the American Kennel Club, not by constantly calling attention to its faults, but by speaking about the good that it does, to improve its authority. I hope that Mr. Vredenburg will ask for an investigation because I think in view of his long service it is much better that you should grant him an investigation than that you should accept general statements and order one as a reflection upon him. In the same way I ask you for an investigation of this matter of reciprocity—not perhaps an investigation strictly speaking, because that is not necessary, but I ask you to consider as to whether this Stud Committee action with regard to English nomenclature should be considered a rule or one of their regulations and a subject to be referred to the delegates as claimed by Dr. De Mund. Such a course would dispose of that subject. As to the confirmation or otherwise of the reciprocity agreement, I do not know how you are going to reach the question itself unless you pass a resolution requesting a report from the Board of Directors. I have no doubt that if you find that there is general dissatisfaction on the subject the Board of Directors would order at their next meeting a report to be made.

As to any disposition on the part of one committee to override the other, or one board to override the other, or the Board of Directors to override the delegates, or anything of that kind. I do not think that it exists at all, and if we cannot manage our affairs in an amicable way, and in a regular and orderly way, at our

meetings, why really, then it is time for us to give place to somebody who can, because I can see no real difficulty about it. It simply needs a disposition to do it. If my conclusions are correct, all this trouble is because there has been a falling out. Do men have a falling out because of great differences of policy? It has not been my experience. My experience of fallings out is that they usually result from something personal. If these gentlemen who have heretofore agreed in the management of the American Kennel Club, as a sort of a voluntary committee, you might call them, who have been in the habit of helping Mr. Vredenburg, and who suddenly stopped last spring, you will find something more than a mere disagreement as to policies and as to enforcement of the rules to have been the cause. It is a question usually about somebody's authority, perhaps, not being observed quite as it should be. Dr. De Mund has occupied several positions of authority in this club. As the result of the revision of the constitution the various committees were given more and more power, step by step. The powers of the committees with which he has been associated have been increased, and what has it been for? I repeat precisely what I said in my letter, that if all these complaints were lodged in Dr. De Mund's hands and were given to him and to nobody else, then it must be that a substantial part of the kennel world considered him the proper person to whom to go. It must be so. There is no other rational interpretation of it, and if that is the case, then it is he who has taken upon himself, and not the individuals and chairmen of the various committees or anybody else, the powers and the authority of the American Kennel Club itself. If there is anybody in this room who can reply to that letter to me of Dr. De Mund and say yes, I have been overridden, I think it is time for him to say so.

The Secretary: If I am permitted to speak, I want to answer Dr. De Mund as to one single matter. He said that I aided and abetted Mr. Smith and Mr. Palmer in formulating charges against him. I deny that absolutely. On the contrary I worked against it. I heard that there was something like that going to happen, and I advised Mr. Smith over the telephone not to create a scandal in the American Kennel Club, and not to bring the matter up. His reply was: I have taken your advice ever since I have been in the American Kennel Club, and you have always given me good advice, but this time I am going it alone. The night before the meeting he showed me for the first time the statement that he read at the same meeting, and I advised him strongly not to do it. Mr. Palmer was present and can corroborate what I say. Nevertheless, he

read it, and when he was directed to prefer charges against Dr. De Mund, and the copies of the charges came to me, one for the Kennel Club and one to send to Dr. De Mund, I then told Mr. Smith that he had made a great mistake in preferring these charges; that he did not have a leg to stand on. If in that way I aided and abetted Mr. Smith in the formulation of his charges then I must have done so. After that time Dr. De Mund and myself had a conversation, and he said: "I am going to refer to this matter for the last time; after that it will be a closed book." We talked it over and I then told him that I had advised Mr. Smith not to read that statement; that is the only answer I have to make at present, but I would like to say before I sit down that nobody craves a more thorough investigation of the management of the American Kennel Club so far as this relates to me, than I do. I have asked Mr. Belmont to order such an investigation. I asked him if he would not appoint such men on the committee as that the result of their labors would be taken by the entire dog community as truth. I now request a most thorough investigation of the way the secretary has managed the American Kennel Club for the last twenty-eight years. There has been no change whatever, and up to last April Dr. De Mund and myself had almost daily intercourse. We conferred together and everything that was done had his sanction, and I was not aware that there was any feeling existing between Dr. De Mund and myself until I was informed of his letter to the president and to the vice-president, demanding an investigation of this office.

Mr. Palmer: Last March, upon my return from Chicago, Mr. Vredenburg, Mr. Smith, Dr. De Mund and myself were present here. Dr. De Mund asked me how I found conditions in the Middle West. I told him: "They are rotten." He said: "What do you mean?" I said: "The sentiment is entirely against the American Kennel Club, entirely against you, and the impression is that there is too much big stick being swung by one man." To which he replied that I was entirely wrong; that he had just followed me the week after to Chicago, where everything was for the American Kennel Club; he had come from the far West and everything was for the American Kennel Club. Now, gentlemen, that goes back to last March, when everything was, according to Dr. De Mund, for the American Kennel Club. Today we have the statement from Dr. De Mund that there is a great feeling against the American Kennel Club, against the officers of the American Kennel Club and against the committees of the American Kennel Club, and I ask you how and when and why did it start?

Now? Just as soon as I gave Dr. De Mund advice that he did not want to take; just as soon as anyone opposed Dr. De Mund in anything he wanted to put through. Such person must be wrong. At that time Dr. De Mund asked me why I had made this a personal attack. I assured him it was not. He did not believe me. I said: "I have a suggestion to make to you and the best thing you can do is to go away back and sit down," and I think the time has come when I may repeat that request.

Dr. De Mund: First, I wish to state that Mr. Palmer's account is entirely erroneous, absolutely false, in other words, and that if I had been allowed to produce my witnesses when I was being investigated on charges, I would have proved that anything against me in the West was carried there by Mr. Palmer. I had plenty of witnesses to prove it.

Mr. Palmer: Is Mr. Wood in the room? I am sorry he is not. If what I have started is false, I ask Mr. Vredenburg, who was in the room at the time when I passed that remark to Dr. De Mund, also Mr. Smith, as to whether I have stated accurately what I said.

Mr. Belmont: I move that in order to test the question as to the validity of the action of the Stud Book Committee, that the delegates consider by vote whether the regulation of the Stud Book Committee with regard to the registration of foreign dogs, viz., that they should be registered with the same kennel names which they have borne on the other side, is to be considered by the delegates to be a change in the rules of the American Kennel Club.

The Secretary: I would like to state before that motion is put, that I have the minutes here from the Stud Book Committee which touches on that subject. They recommend that as part of the rules governing the Stud Book.

Mr. Appleton: Then I was chairman of the Stud Book Committee. The Stud Book Committee made their own rules with regard to registrations and kennel names. I think under the old club a rule was made that we should not accept the names of cities, states or universities. That is the only rule I ever heard of that was passed by the directors or delegates or anything governing the registration of kennel names. The committee has always made its own regulations, and has done what it could to keep the names from interfering with each other, and have changed those regulations from time to time without authority. If we have done wrong, it has been because we had a wrong precedent set for us.

Mr. Belmont: Then I withdraw my previous motion and move that the action of the Stud Book Committee in putting into effect that regulation is approved and is not considered by

the delegates as a change of the American Kennel Club rules.

Mr. Barnard: I want to know if this reciprocity agreement had anything in it besides the registration of dogs.

The Secretary: That is the particular article that is held in abeyance on account of the disqualification by us of Dr. Boulton.

Mr. Ritchie: The point on which I ask information on behalf of the club which I represent, is, as we understand, that there was an agreement, or as it appears to me, certain resolutions taken up and forwarded to the English Kennel Club for their approval, and they picked out one section that they were willing to accept.

The Chairman: Just the reverse.

Mr. Ritchie: The next point is, not knowing any of the members of the Stud Book Committee by name or from memory, does the passage of a resolution of this kind bring about a conflict with the Rules Committee? The point I want to make clear is this, that it is all right to cooperate with the English Kennel Club, or with anything else that promotes the interests of the dog as long as we cooperate within ourselves first, but if we have a conflict within the American Kennel Club and its officers, wouldn't it be better to have a report from the Rules Committee?

The Chairman: The Rules Committee have nothing whatever to do with the Stud Book. The Rules Committee have no right whatsoever to do anything that pertains to the Stud Book on the question of registration.

Mr. Ritchie: Is that rule determined by our by-laws?

The Chairman: Yes. There might be a question, as Mr. Belmont said, as to whether the Rules Committee might have something to say about the clause that the English Kennel Club will not ratify.

Mr. Ritchie: On the general report then, would there be any reason why the Rules Committee should conflict with the Stud Book Committee?

The Chairman: The president took the stand that the Rules Committee had nothing to do with this agreement because it was not a change of the rules. It had nothing to do with the rules; it was an agreement between the American Kennel Club and the English Kennel Club.

Mr. Ritchie: I would like to know if there is harmony among ourselves as to the approval of that sort of thing.

The Chairman: I should not consider that we had any jurisdiction of it. It is an agreement between the American Kennel Club and the English Kennel Club. It does not affect our by-laws; it does not affect our rules.

Mr. Ritchie: Do we get any benefit in return?

The Secretary: The benefit is mostly ours.

Mr. Sawyer: May I ask what was the date of the recommendations of the Stud Book Committee just read?

The Secretary: The day before yesterday; it was the first meeting of the Stud Book Committee in over a year.

Dr. De Mund: I would like to ask if the Stud Book Committee only recommended that day before yesterday, why the secretary has put it in force since the 12th of last March?

Mr. Appleton: The Stud Book Committee have merely brought this up for the information of the directors. We put those rules into effect ourselves. We did it for the protection, as we thought, of the American Kennel Club rules.

Dr. De Mund: Mr. Appleton states they have put those rules into effect. Every rule that the Stud Book Committee or any other committee has put into effect has been passed upon by the delegates originally.

Mr. Belmont: It resolves itself into this with regard to rules. I said to these gentlemen when we met, that there are three authorities that the dog man is afraid of. The Stud Book Committee is one, the Trial Board is another and the Committee on Rules still another. They are the principal ones. Now, as a matter of fact, the Rules Committee, Trial Board and Stud Book Committee have managed to put into effect a method which makes the Rules Committee paramount to almost anything else; I mean in discipline. I do not understand that the Rules Committee was intended originally to do anything more than to revise rules and present recommendations for their change to the American Kennel Club, but it finally and practically holds a veto power over almost everything that the American Kennel Club does. Everybody will have to run to the Rules Committee or to the Trial Board to do anything. An investigation is to be referred to the Trial Board. The Rules Committee is to take every question that concerns the registration of the dog. You then concentrate into a few hands the whole government of the club.

The secretary then read Article VIII of the By-Laws.

Dr. De Mund: This bears out my contention. I do not claim that the Rules Committee has any authority or any power whatever. I have not claimed so. I merely claim that to change or alter a rule of this club it must be submitted to the Rules Committee.

Mr. Sawyer: Do I understand that the Stud Book Committee had not passed on this matter or determined this matter, which is a question of registration, as referred to in the by-laws just read? Until day before yesterday they had no meeting?

The Chairman: Mr. Appleton told you that it had been in force for the past eight months.

Mr. Sawyer: My question was whether the Stud Book Committee

had as a committee passed on this question, or determined it, before the day before yesterday, or whatever date that was.

Mr. Appleton: The chairman has acted on it in the absence of the members, as has always been the custom. The other members have agreed with me since then.

Mr. Belmont: The objection is raised in connection with the reciprocity agreement, the very subject that is before us now. That is to say, it is claimed that the reciprocity agreement is not in force because a particular feature—this registration question—should have been referred to the Rules Committee and therefore it is not in force. My resolution disposes of that.

Mr. Lederer: Has the reciprocity agreement been signed by the other side?

The Secretary: It has not, although they are acting under it.

Mr. Lederer: What is the conception of the officers of the club as to the reciprocity agreement? Is it a contract between the American Kennel Club and the English Kennel Club, or what? I think we should know that before we vote on this motion.

Mr. Belmont: No, it is not a contract. There were certain instructions to formulate a method of co-operation, to enforce certain regulations, and they agreed by letter to enforce certain ones, and the English Kennel Club has been enforcing certain portions of that agreement, and we have been doing the same, but the agreement as a whole has not been signed by both parties; that is to say, I signed our part of it because we had agreed to everything. They did not sign it, but put into operation those portions which they considered they were prepared to.

Mr. Sawyer: Do I understand that the question at issue is the one that covers disqualification?

Mr. Belmont: That turns on Dr. Boulton. He was disqualified for making a personal attack upon Dr. De Mund. That is the difficulty of the whole thing, and that only, so far as I can see.

Dr. De Mund: May I correct you there. The president is misinformed. Dr. Boulton did not make a personal attack on me. Dr. Boulton made an attack in the papers that he could not substantiate, upon two directors of this club, another gentlemen and myself, and we demanded an investigation the same as Mr. Bloodgood demanded an investigation when an attack was made upon him. He set the precedent for it. We were investigated by the Trial Board, and the Trial Board found there was absolutely nothing in that attack; that it was unwarranted and unfounded. We then preferred charges against Dr. Boulton before the Trial Board and the Trial Board disqualified him.

The Secretary: He did not come before the Trial Board.

Dr. De Mund: No, he refused to come. He said he would send affidavits, and then refused to send any affidavit, and he refused to come unless his expenses were paid, an exorbitant sum, with his informant, were the words he used. The question of the personal attack of Dr. Boulton on me has nothing to do with the case. Dr. Boulton was disciplined for refusing to come before the American Kennel Club and make good.

Mr. Belmont: I ask for information as to that attack. What was the subject of it?

The Secretary: I would like to correct Dr. De Mund. An editorial in the Canadian Kennel Gazette stated that Dr. Boulton was ready to make affidavit to his published statement. I wrote to Dr. Boulton and the first communication I had from him was, "I positively and absolutely refuse to send affidavits." That was the investigation, not a trial, and then when the charges were preferred by Mr. Albright and Dr. De Mund, they called upon Dr. Boulton to send affidavits in which he said that he repeated what he said in his letter, that he declined, but he would come here to the office at our convenience with his informant and testify, if we would pay his expenses, and then he enumerated what the expenses would be. It was thought to be excessive, and further than that, there is only one body in the American Kennel Club that can appropriate money to bring witnesses here, and that is the Executive Committee on appeal, and they declined to pay the \$105 for two men to come on here from Toronto, and then they disqualified Dr. Boulton because he refused to furnish affidavits.

Dr. De Mund: If there was any attack, it was on the Trial Board that investigated it and disqualified Dr. Boulton. They had all the evidence before them, and they are the ones who are responsible. I am not responsible in the matter in any way, shape or manner.

Mr. Belmont: I ask again what was the nature of those attacks.

Mr. Sawyer: I rise to a point of order that we are now digressing from the question before the house.

At this point Mr. Belmont's motion was carried.

Mr. Belmont: I move that Mr. Vredenburg's request for an investigation be granted, and that the chair (H. H. Hunnewell) appoint three members of the Kennel Club in his discretion to investigate Mr. Vredenburg's actions and report on the same at the annual meeting.

Motion seconded and carried.

Mr. Mortimer: As it seems a very important thing that we should have Dr. Boulton's evidence in order to procure perfect reciprocity, would I

be out of order in moving that the case of Dr. Boulton be re-opened and he be sent for?

Dr. De Mund: I rise to a point of order. The By-Laws prescribe how a case can be re-opened.

The Secretary: It prescribes how an appeal can be made.

Motion seconded and carried.

The Secretary: I should like to say if it would be necessary for Dr. Boulton to come here that the American Kennel Club should defray his expenses, and there is no authority other than the authority that you may give at this meeting to appropriate the proper amount of money to pay those expenses.

Mr. Mortimer: I move that the American Kennel Club pay the expenses. It does not seem so very extravagant, \$105, for two men to come from Toronto.

Dr. Osgood: I second the motion. Carried.

Chairman H. H. Hunnewell appointed Messrs. H. K. Bloodgood, Howard Willets and Ralph Stewart as a committee to investigate Mr. Vredenburg's actions in the management of the American Kennel Club.

The Secretary: The only business of importance is the question of the illegal adoption of an amendment to the by-laws at the September meeting. That should be corrected in some way by this meeting. It can only be acted upon next February. Under the by-laws no amendment to the by-laws can be adopted or acted upon except at the annual meeting which is held in February.

The Chairman: This makes this agreement partly inoperative until the February meeting. You can take no action in confirmation of it. If your action was contrary to the provisions of the constitution at the outset, you cannot correct it by rescinding it or otherwise.

The Secretary: Ought it not to come up at the annual meeting for re-adoption?

The Chairman: Yes, certainly. Unless something of that kind were done it would fall by the wayside. It would be in order to move that the Rules Committee recommends that it be referred to the annual meeting for adoption.

Mr. Sawyer: I move that the action taken at the September meeting be considered as null and void, and that it be brought up again at the annual meeting in February.

Mr. Holton: Do I understand that it is necessary to take notice of the provisions just sixty days in advance?

The Secretary: The notice was properly given in the Gazette.

Mr. Holton: I second the motion. Carried.

The Secretary: The Membership Committee, in conformity with the by-laws, met on November 25th, and they recommend the following nomi-

nating committee to name and nominate directors to fill the expiring class for 1914: George Greer, Chairman; A. C. Wilmerding, William Rauch, A. G. Hooley and Ralph C. Stewart. They are nominated now for election.

Mr. Gurnee: I move that the secretary be empowered to cast one vote for the election of the gentlemen named.

Motion seconded and carried.

The secretary stated that he had cast a ballot for Messrs. Greer, Wilmerding, Rauch, Hooley and Stewart as a Nominating Committee of the Class of 1914.

The Secretary: I submit the resignation of Mr. Howard Ehrich as a delegate representing the Airedale Terrier Club of New York.

Mr. Stewart: I move his resignation be accepted with regret.

Motion seconded and carried.

On motion the meeting then adjourned.

A. P. VREDENBURGH,
Secretary.

MEETING OF THE BOARD OF DIRECTORS OF THE AMERICAN KENNEL CLUB

Held at its offices No. 1 Liberty St., New York City, Tuesday, December 16, 1913

President, August Belmont, in the chair.

Present:

Rowland P. Keasbey, Ralph C. Stewart, Alfred B. Maclay, M. Mowbray Palmer, Tyler Morse, Hollis H. Hunnewell, William G. Rockefeller, W. L. Barclay, Howard Willets, A. G. Hooley, A. Clinton Wilmerding, August Belmont, John G. Bates, F. H. Osgood.

On motion the reading of the minutes of the last meeting was dispensed with, and they were accepted as published in the Gazette.

The secretary read his report to the Board of Directors. It is as follows:

New York, December 15, 1913.

To the Board of Directors of the American Kennel Club.

Gentlemen: The following Standing Committees have handed in their reports which will be presented to you at this meeting. Membership Committee, License Committee, Publication Committee, and Stud Book Committee.

There is a vacancy on the San Francisco Trial Board, and Mr. J. P. Norman, our Western Agent, recommends the appointment of Mr. E. C. Rand, who is president of the Sonoma County Kennel Club, which is one of the members of the A. K. C.

I have bills for disbursements by our Western Agent amounting to \$34.15 which covers from the date of his appointment up to and including

December 8th. Under date of October 27th, Mr. Norman presented a bill for \$14.25, and I assumed the responsibility of sending him a check for that amount rather than deprive him of the money that he had already advanced so that he would not be compelled to wait an additional two months for your approval. This will make our present indebtedness \$19.90.

I beg to recommend the payment of this bill and to ask your approval of my first payment of October 27th amounting to \$14.25.

I have a communication from the Kodak City Kennel Club, a member of the A. K. C. and the Genesee Valley Kennel Club, setting forth a resolution that was made and passed by a vote of 71 in favor and 26 against. To wit:

"That the Kodak City Kennel Club instructs the A. K. C. to transfer its franchise and membership to the Genesee Valley K. C. in consideration of which the Genesee Valley Kennel Club agrees to assume and pay all indebtedness of the Kodak City Kennel Club up to and not exceeding the amount of \$250.00, and that the receipt of these bills be sent to the treasurer, Mrs. C. E. Lamouree. Also the following bill of sale was drawn up at said meeting:

"October 27, 1913.

"In consideration of the amount of \$1.00, the Kodak City Kennel Club relinquishes and surrenders to the Genesee Valley Kennel Club its Membership in the A. K. C. by a regular motion adopted at a Special Meeting held for that purpose, Received \$1.00. (Signed) Mrs. C. E. Lamouree."

This communication is signed by the president, first vice-president, secretary, and treasurer, and acknowledged before a notary public.

Referring to the gift to the A. K. C. by James Watson of his sporting library, the same having been left to Mr. Belmont, president of the A. K. C., for his approval, I beg to report that I will read the correspondence on the subject.

Under date of November 10, 1913, the American Field asked for Volumes VII to XVI inclusive, of the Stud Book, and inquired the best price that we could make on these volumes. I had no authority to give a better discount than 25 per cent., and I therefore promised to present this communication to this meeting. In the meantime, I shipped the books leaving the amount to be paid therefore in abeyance.

At the late show of the Kennel Club of Philadelphia, held at Byberry, September 20, 1913, the English Setter, Roger's Kelly, was marked in the catalogue and judge's book as first limit, Medford Rex, second limit, and Sporting Extra, third limit. Mr. J. C. Weiler, the owner of Sporting Extra, who also showed Roger's Kelly for its owner, Mr. William Zeigler, claims that he received the blue rib-

bon for Sporting Extra from Mr. G. Muss-Arnolt the judge, who confirms same at the bottom of our letter to Mr. Weiler. On account of this win of Roger's Kelly as given in the catalogue and judge's book at Byberry, the first limit win at Danbury has been cancelled. The question is, can the catalogue and judge's book be changed.

I have a communication from Jas. Watson in reference to the judging at the Bulldog Show, November 4th, which I will read for your information.

It is with deep sorrow and regret that I have to report the death of Mr. Edward Brooks on December 4, 1913. Mr. Brooks has served us as vice-president, delegate, director, and chairman of the Rules Committee for many years.

The following directors have filed excuses and regrets for inability to attend this meeting: Chetwood Smith, William Rauch.

I would respectfully recommend that the Stud Book Committee be requested to consider the advisability of adopting a regulation to the effect that on and after January 1, 1916, the Stud Book shall be closed to all American-bred dogs that are not the progeny of registered parents.

Respectfully submitted,
A. P. VREDENBURGH,
Secretary.

On motion the same was accepted and placed on file.

The treasurer's report was read, as follows:

New York, Dec. 15, 1913.]	
To the Board of Directors of the American Kennel Club.	
Gentlemen: I beg to submit the quarterly Financial Report from Jan. 1, 1913 to date.	
Balance on hand.....	\$24,462.14
Receipts to date.....	28,775.75
Total	\$53,237.89
Disbursements	33,508.20

Balance on hand.....\$19,729.69

I also report that all bills for Active Dues for 1914, for Associate Subscription for 1914, and for Advertising for 1914 were mailed on November 29, 1913.

Respectfully submitted,
A. P. VREDENBURGH,
Secretary.

On motion the same was accepted and placed on file.

The report of the Membership Committee was read and is as follows:

October 28, 1913.
MEMBERSHIP COMMITTEE MEETING

Present: Howard Willets, Chairman; H. K. Bloodgood, B. S. Smith.

Moved and seconded: That all Associate Subscribers who failed to pay dues on or before January 10th, and

who have since paid their subscription for 1913, be and hereby are reinstated in accordance with Article XVIII, Section 2. Carried. Mr. Smith excused from voting.

HOWARD WILLETS, Chairman.
H. K. BLOODGOOD.

On motion the same was accepted and placed on file.

The report of the License Committee was read, as follows:

LICENSE COMMITTEE MEETING

Held October 21, 1913.

Moved and seconded that the entire matter of the International Dog Show at the Panama Exposition be referred to the president, Mr. Belmont, with all the correspondence for his opinion on the question. We feel as a committee that if the sanction of the American Kennel Club is wanted by the Panama Exposition authorities, that the show must be given under the rules of the American Kennel Club, and that these rules must be lived up to, as the American Kennel Club is the recognized dog club in the United States.

A. G. HOOLEY, Chairman.
RALPH C. STEWART.

On motion the same was accepted and placed on file.

The report of the Stud Book Committee was read, as follows:

To the Board of Directors of the American Kennel Club:

This Committee reports that imported dogs registered in English Kennel Club Stud Book are now accepted for registration in our stud book under the English registered name only, with the affix (Eng.).

The committee proposes to allow a kennel name registered with us to be used in connection with the English registered name and asks the opinion of the directors on this point. The committee reports also that no kennel name identical with one registered in the Kennel Club Stud Book is now accepted for registration.

In the matter of the breeding of the Chihuahua dog, Concourse Decoration, referred to the Stud Book Committee by the New York Trial Board, your Committee reports as follows:

We have carefully considered the evidence submitted, and find nothing connecting the dog, Concourse Decoration, with Black and Tan Terrier parentage, or with any former owner who knew said dog as a Black and Tan Terrier. All evidence submitted has to do with the appearance of the dog and his dam, Mamby Bonita.

Mrs. Owens, the exhibitor of the dog, claims that the dam, Mamby Bonita, pedigree unknown, was imported by William Artz from Mexico. The bitch was black and tan in color

and was bred to Mr. Stevenson's Chihuahua dog, Don Pedro, and Concourse Decoration was the result of this mating.

Concourse Decoration has to his credit first prize in Winners classes at Brighton Beach, Mineola, Newark; 1st open at Sheepshead Bay, and Reserve winners at Devon, Long Beach and Islip Kennel Club, 1913.

Rule XVIII of the Rules Governing Shows make the appointed judges' decision in all matters regarding the merits of the dogs final, and we, therefore, cannot go back to their decisions in any matter affecting only the appearance of the dog.

We have testimony from one of the judges that these dogs do not breed true, and that specimens black and tan in color are occasionally met with. No new evidence has been furnished to your committee other than that considered by the New York Trial Board, and we therefore accept Mrs. Owen's statement that the dog, Concourse Decoration is by a Chihuahua dog out of her Chihuahua bitch, imported from Mexico.

We therefore recognize this dog as a specimen of the breed Chihuahua until proof of Black and Tan Terrier parentage of the bitch, Mamby Bonita, is produced.

In the matter of the application for classification of Dutch Sheepdogs, your committee finds that there are not more than one or two representatives of this breed in this country. We therefore recommend that the matter be laid upon the table until such time as the breed shall be more fully represented.

The protest of the win of the bitch Ella, shown in the Islip Show as a Belgian Sheepdog, claiming that this bitch is a German Sheepdog.

The owner of the dog now states that she entered this dog in this class believing it to be a Belgian Sheepdog, and before she had received the pedigree of the dog. She is now satisfied that the dog is a German Sheepdog and so states.

The bitch won in the class for Belgian Sheepdogs at the Islip Show, and we recommend that this win be cancelled on the ground that Ella was not eligible for the classes in which she competed.

In view of the fact that kindred breeds are all known as Sheepdogs, and that this breed is called German Sheepdog in de Bylandt's Book, we do not think best to make the change requested.

In the matter of the Boston Terrier, Rex G. II, we find that the pedigree and the name of the breeder given by R. T. Graff, who registered the dog, is incorrect, and the registration has been cancelled.

We recommend that the matter be referred to a Trial Board for investigation.

On motion the same was accepted

and the recommendation to allow a kennel registered with the American Club to be used in connection with the English name was adopted.

The Secretary: There is a vacancy on the San Francisco Trial Board, and our Western Agent suggests Mr. E. C. Rand for that position.

On motion Mr. E. C. Rand was elected to fill said vacancy.

On motion the bill of \$34.15 for disbursements of our Western Agent was ordered paid.

The Secretary: The Kodak City Kennel Club, a member in good standing of the American Kennel Club, has sold out to the Genesee Valley Kennel Club, the last mentioned club taking over their debts not to exceed \$250. The Genesee Valley Kennel Club is composed of business men of Rochester. They ask that the membership of the Kodak Club be transferred to the Genesee Valley Kennel Club. They have already applied for and been granted a license to hold a show in the spring, but they want to show in the autumn as a member instead of under license.

It was moved and seconded that said application be approved. Carried.

The Secretary: The American Field sent this communication to me:

"Our copies of your Stud Book for the years 1890 to 1899 inclusive, are the worse for wear, and we wish to inquire what price you can make us on these volumes."

In consideration of the fact that on our request the American Field furnished us with an entire file of their Stud Book, and presented it to us, I did not feel like requesting 25 per cent. discount, which is the trade discount, but I sent to them the books and informed them that I had no authority to give a greater discount than 25 per cent. I feel, however, that the Kennel Club should determine the cost, if any, for these books.

Mr. Palmer: I move the books requested be presented to them.

Motion seconded and carried.

The secretary submitted the correspondence in connection with the gift by James Watson of his sporting library to the American Kennel Club.

Mr. Willets: I move that the treasurer be authorized to accept the gift of books from Mr. Watson, and that \$50 be appropriated as requested.

Motion seconded and carried.

Regarding the late show of the Kennel Club of Philadelphia, held at Byberry on September 20, 1913, at which the English Setters Roger's Kelly was marked as first limit in the catalogue and judge's book, Medford Rex, second limit and Sporting Extra third limit, in connection with which the question arises, can the catalogue and judge's book be changed? Mr. Hunnewell moved that in consideration of the length of time that has elapsed between the date of the show

and the time when the consideration of the American Kennel Club is asked, that the award stands as recorded in the judge's book.

Seconded and carried.

The secretary submitted a communication from Mr. James Watson in reference to the judging at the Bulldog Show held November 4th.

On motion the same was laid on the table.

On motion the excuses filed by Messrs. Chetwood Smith and William Rauch for not being able to attend this meeting, were accepted.

The Secretary: I submit the following recommendation: That the Stud Book Committee be requested to consider the advisability of adopting a regulation to the effect that on and after January 1, 1916, the Stud Book shall be closed to all American-bred dogs that are not the progeny of registered parents.

Mr. Stewart: I move that it be referred to the Stud Book Committee.

Motion seconded and carried.

The death of Mr. Edward Brooks was reported.

Mr. Hunnewell moved that suitable resolutions be drawn up and sent to his family by the secretary.

Motion seconded and carried.

The Secretary: At the last meeting of the Executive Committee it recommended to the Board of Directors to strike from the records of the American Kennel Club the fifth paragraph of the Investigating Committee's report of last August.

Mr. Hunnewell: I move that the recommendation of the Investigating Committee be adopted and said paragraph be stricken from the records.

Motion seconded and carried.

The secretary submitted the resignation of Messrs. A. D. Gillette, W. H. Sawyer, W. S. Gurnee, Jr., and J. E. De Mund as Directors of the American Kennel Club.

Mr. Willets: I move that the resignations as directors be accepted.

Motion seconded and carried.

On motion Mr. Belmont was requested to submit the correspondence which he had with Dr. De Mund, and which he read at the delegates meeting to this board. After discussion it was resolved that Mr. Belmont be requested to permit the publication of the same in the American Kennel Gazette, with the exception of such parts to which Dr. De Mund excepted.

The report of the Publication Committee was read as follows:

MEETING OF THE PUBLICATION COMMITTEE

Held at No. 1 Liberty St., November 24, 1913

Present: Rowland P. Keasbey in Chair; M. Mowbray Palmer, A. Clinton Wilmerding.

The matter of the form in which the Stud Book for 1913 shall appear was taken up, and after going into the matter carefully, on motion of Mr.

Wilmerding, seconded by Mr. Palmer, it was resolved to return to the former style of 1909, i. e., the book to appear in one volume and not in sections, as printed last year.

Moved and seconded that the secretary American Kennel Club be instructed to prepare specifications and invite sealed bids from various printers for the Stud Book for 1913 and the Gazette for 1914 and submit same to the Publication Committee at its next meeting. Carried.

A. CLINTON WILMERDING,
Secretary pro tem.

On motion the same was accepted and placed on file.

On motion the meeting then adjourned.

A. P. VREDENBURGH,
Secretary.

PUBLICATION COMMITTEE REPORT

The Publication Committee begs leave to report that at a meeting held on December 19, 1913, sealed bids for the printing of the Stud Book of 1913 and the American Kennel Gazette for the year 1914, were opened by the Committee, and on motions.

IT WAS RESOLVED, to award the contract for the printing of the Stud Book to James Watson and the contract for printing the Gazette to the Patten Press.

Respectfully submitted,
(Signed) R. P. KEASBEY,
Chairman.

ANOTHER VIEW OF THE MATTER

The following letter among others was received by Mr. Vredenburg this week. It shows that everybody is not in accord with the so-called "Reformers."

I will take advantage of this opportunity, as the largest breeder of English Bulldogs in America, to express to you my sincere appreciation of the conduct of the affairs of your office during about ten years I have been dealing with it. And I think this is the sentiment of every bona fide breeder and lover of the dog in the country. This incessant claptrap one hears in the kennel papers, inspired by politicians, is getting on the nerves of the legitimate breeder, and we are getting very tired of it. I think it should be shown that it does not come from the class the A. K. C. was created to serve, but from an alien class which has attached itself to the dog game; a class which neither "sows nor reaps" in the interest of the dog, and as such has no legitimate position which is worthy of consideration. I think I can safely say that the decent element in the dog game in America will trust themselves to the protection

of the A. K. C. as at present constituted rather than take a risk with the reformers (?) whose interests and aims are only too obvious.

Give us a business administration; an equal enforcement of the laws of the game; look carefully into the motives of those bringing charges against individuals and weigh well the evidence, and you will be subserving the ends of the organization.

DEATH OF MR. EDWARD BROOKS

An important and well known member of the American Kennel Club has passed away in the person of Mr. Edward Brooks, delegate and director almost continuously since 1891, when he became an Associate Member. He was elected delegate for the New England Kennel Club on October 20, 1892, and was made one of the Committee on Constitution and Rules in February 1893. In February, 1894, he was elected vice-president of the Associated Members and also one of the Advisory Committee. In December, 1895, he was elected vice-president of the club, which office he held for many years. Mr. Brooks resigned in 1902, on account of business engagements, but returned as delegate for the Ladies' Kennel Association of Massachusetts in May, 1905, and has been a director till the present date. At the annual meeting in February, 1906, he was elected chairman of the Committee on Constitution and Rules. Mr. Brooks was a conservative and consistent upholder of the American Kennel Club and its principles, and as his associates welcomed him on his return from the short absence made necessary by his resignation for business affairs, so they will now deplore his final absence from which unfortunately there can be no return.

The following is printed by request of the writer:

Absence caused the announcement of the death of Edward Brooks to reach me too late to note in any of the publications I write for. I therefore crave your indulgence to lay upon his bier my modest tribute of regard. "HE WAS A MAN." A stalwart minded citizen who could see but one thing—always the right thing. When your cause was just Edward Brooks was the man to go to. Otherwise not. I will never forget how he once, unknown to me till later, befriended me against the attacks of a subsequently discredited man. From that day I always had for him more than the ordinary man's regard for even his closest friend. His death is a loss, because he stood only for the best elements in dogdom.

JAS. WATSON.

THE FRONTISPIECE

Mr. Thomas E. Hunter's Collie Knockklayde King Hector is the subject of the frontispiece, and a very worthy one. Collie lovers will recognize the beauty of the coat, expression, and ear carriage. The former Weardale Lord has won as follows, and under his new name will have many more to his credit:

Byberry Pa.—Winners—Best collie in the show. Best non-sporting dog in the show.

Trenton, N. J.—Winners—Best collie in the show. Best dog in the show.

Richmond, Va.—Winners—Best collie in the show.

Albany, N. Y.—Winners—Best collie in the show.

STUD BOOK OF THE MASTER OF HARRIERS AND BEAGLES.

We have received from Mr. A. L. Mercer, the honorary secretary, the Kennel Stud Book of this Association for 1913. The frontispiece is a portrait of Mr. James Russell, President. There are also good pictures of the stallion hounds, The Downham Sampler (Harrier) and Halstead Place Comrade (Beagle).

MR. WILLIAMS HAYNES' BOOKS ON TERRIERS.

We have received, with the author's compliments, four handbooks on Terriers: The Airedale, the Bullterrier, the Foxterrier, and the Scottish and Irish Terriers. The books are neatly bound and well printed by the Outing Publishing Company. They give a short history of each breed, and some good advice as to the care and treatment. They should undoubtedly be of use to breeders and owners as they are handy in form and easy to read.

KENNEL REGISTRY

Produce

Nov. 8, 1913—Mrs. M. Parr-Kavanagh's French Bull, "Article 47" (163,419) three dogs and one bitch, to Dr. E. D. Bachman's Prince Chap (175,134).

Dec., 1913—Mrs. W. G. Ingram's London Lass (Bullterrier), has whelped 9 white puppies to London Lad.

Death

Nov. 1, 1913—The Russian Wolfhound Bachelor's Button Wythe Sombra (160,220) of poison.

Transfer

Mrs. F. C. McAllister writes: "I have sold my entire kennel containing some very fine young dogs to Mr. E. Le-Roy Pelletier of Detroit, Mich." Mrs. McAllister will in future breed Pekingese.
