

### Lightweight Full-Electric Bed

Designed for easy one person delivery and set-up with a foot section that weighs just 42 lbs. The robust, lightweight frame and snap on/off low-voltage DC motor box/hi-low motor ensures quick, efficient set-ups and easy routine maintenance.

Clients can take comfort that in the event of a power failure a 9V battery back-up is there to position the bed springs and bed height for safe transfer. Full rail cross brace location indicators have been added to the spring deck to make positioning of ProBasics full bed rails simple and safe.

- Easy one person delivery & set-up – foot section weighs just 42 lbs.
- Quick & simple motor attachment or removal for service or cleaning
- Welded steel split frame construction
- Head and foot sections can be raised independently or simultaneously
- Large button, simple-to-use hand pendant
- Scratch-resistant bed ends keep the bed looking new
- 9V battery back-up (battery not included)
- Headspring support and foot assembly are recessed to help reduce pinching and injuries
- Trendelenberg & reverse Trendelenberg positioning
- Beds include 2 locking and 2 non-locking casters
- Quiet, efficient ETL-approved DC low voltage motors

HCPCS Code: E0297\*\*\*
