

THE ULTIMATE IN HIGH-DIGNITY BEDSIDE TOILETING.

Introducing the Laveo™ waterless, odorless,
chemical-free portable toilet.

A Breakthrough in Dignified Toileting for Home Care!

The Laveo™ by Dry Flush is an innovative and practical way to provide family members and patients who are receiving convalescent care with on-the-spot access to a portable electric toilet.

The waterless, odorless, chemical-free, no-freeze, low-maintenance and compact toilet measures 16"W x 20"D x 18"H (20.5"H with lift kit) and weighs just 29 lbs.

For comfort, the seat and height are standard toilet sizes, meeting ADA standards. When done, users simply push the flush button as they would with a traditional toilet. Instead of requiring water, extensive plumbing or expensive chemicals, the dispenser automatically creates a brand new, hygienic bowl.

Each barrier bag cartridge can handle an average of 15 flushes, or 25 uses if you use our Pee Powder.

Once full, a cartridge may be easily removed in a sanitary way and discarded in a trash container. There is no dirty water to dump or chemicals to pour. Installing a new cartridge takes less than one minute.

The self-contained Laveo Dry Flush portable toilet runs on household power and/or a self-contained battery. Add it all

up, and Laveo Dry Flush is an excellent choice and a smart investment in comfort and convenience for your loved one in need of home care!

Over 15,000 sold worldwide.

Laveo next to bed alone

Laveo next to bed
with Lift Kit

Laveo next to bed
with Comfort Lift Package

The Comfort Lift Package makes the Laveo an enormously helpful bedside toilet for people with limited mobility.

Founded in 2012, Dry Flush has rapidly become a leader in high-quality, U.S.-made portable electric toilets. Thousands of Laveo toilets are in use around the world.
