

AmaSlidePro WordPress Plugin

- Documentation, Manual & UserGuide -

Activating The Plugin

From your Admin dashboard, visit Plugin -> Add New -> Upload

Locate the plugin file from your computer, click upload and activate it.

Plugin Updates

Due to users suggestions, the plugin will be consistently updated to a newer version.

To receive the newest version, simply install the AmaSlidePro plugin that you have, then visit this URL:

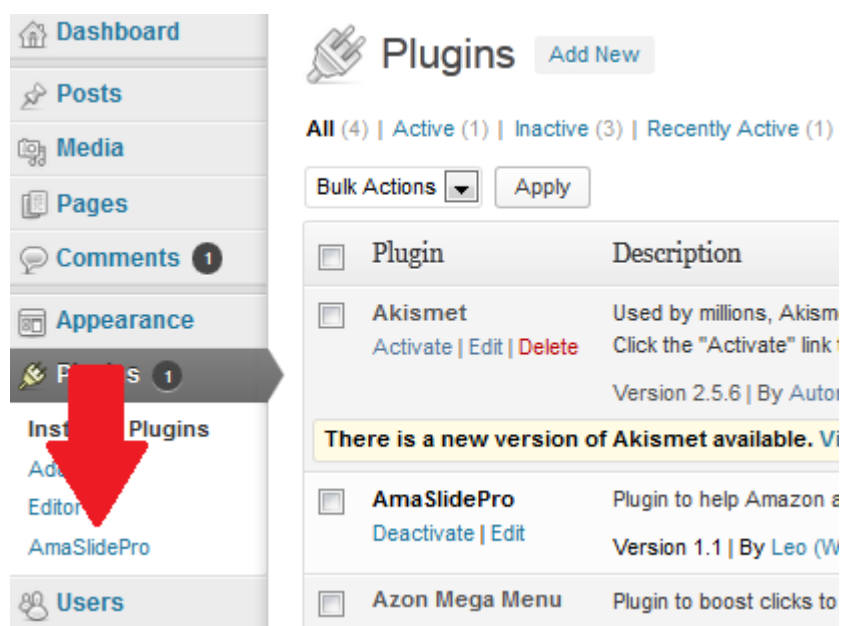

<http://YOURDOMAIN.COM/wp-admin/update-core.php>

(replace YOURDOMAIN.COM with your site URL)

There will be a notification if there's a plugin update. If there's any, just click Update Plugins and it will be updated automatically.

Setting Up The Plugin

After you activate the plugin, visit the AmaSlidePro settings which located just under Plugins menu.

The screenshot shows the WordPress Admin Dashboard. On the left, the 'Plugins' menu item is highlighted with a red arrow pointing to it. The main content area shows the 'Plugins' page with a table of installed plugins. The table has two columns: 'Plugin' and 'Description'. The first plugin listed is 'Akismet', which is active. Below it, a yellow notification banner states: 'There is a new version of Akismet available. Visit the WordPress.org plugin repository to learn more about the new version.' The second plugin listed is 'AmaSlidePro', which is also active. Below it, a yellow notification banner states: 'There is a new version of AmaSlidePro available. Visit the WordPress.org plugin repository to learn more about the new version.' The third plugin listed is 'Azon Mega Menu', which is also active.

Plugin	Description
Akismet	Used by millions, Akismet is a powerful spam filter for your WordPress blog. It's the most reliable way to protect your blog from spam.
AmaSlidePro	Plugin to help Amazon Associates earn more money from their website.
Azon Mega Menu	Plugin to boost clicks to Amazon products.

Once you arrive at the AmaSlidePro Plugin Setting page, the first thing you want to do is to input your Amazon API key and your Amazon Secret Key. Both of them are required for the plugin to work.

General AmaSlidePro Setting	
Enable AmaSlide Enable this option to begin displaying AmaSlide Bar on your site	<input checked="" type="checkbox"/>
Your Amazon API Key (Access Key ID) Input your Amazon API Key (Access Key ID).	*****EIBNJMMC****A
Your Amazon Secret Access Key Input your Amazon Secret Access Key.	***FM27sOXDuTf9iF****F4uzDNHekZjSF****
Amazon Country Select Amazon country that you are going to use.	amazon.com 
Your Amazon Affiliate ID Input your Amazon affiliate tag ID.	amazon-20
Input Keyword Input keywords for Amazon product that you want to display.	Espresso Machines

Hide AmaSlide For Mobile Users (BETA) Enable this option to hide the AmaSlide bar for mobile visitors.	<input type="checkbox"/>
Save changes	

After that check/tick the "Enable AmaSlide" options to begin displaying AmaSlidePro content on your site.

Don't forget also to change the default Amazon Affiliate ID with your own Amazon Affiliate Tag :-)

TroubleShooting

The SlideOut box doesn't show up

This is usually because there is a jQuery conflict with the theme or other premium plugins.

You can try to activate the default WordPress theme (Twenty Twelve) and see if the SlideOut box shows up or not.

If problem exist, try to disable all plugins and activate them one by one while check if the SlideOut box show up or not. By doing this we can know which plugin is causing the conflict.

Fatal error: Class 'SoapClient' not found

This is because the hosting does not support SOAP, or it's not enabled by default.

You can either contact your hosting support, or use other hosting (recommended is Hostgator, or Hawkhost at least).
