MATERIAL SAFETY DATA SHEET

Section 1 - IDENTITY OF THE MANUFACTURER AND PRODUCT

PRODUCT GROUP: Diabetes Autoimmune ELISA Kits

PRODUCT IDENTITY: IAA ELISA Kits **PRODUCT CODE #:** 7011
ICA ELISA Kits **PRODUCT CODE #:** 7010
GAD ELISA Kits **PRODUCT CODE #:** 7009

MANUFACTURER ADDRESS: Biomerica, Inc.
17571 Von Karman Avenue
Irvine, CA 92614, USA

Telephone: 949-645-2111
Fax: 949-553-1231
E-mail: bmra@biomerica.com

Telephone Number in Case of Emergency: 800 535-5053 - InfoTrac 24 hours

Section 2 - COMPOSITION AND INGREDIENT INFORMATION

Chemical Nature of the Preparation: Stable

Dangerous Substances in the Preparation: Sodium Hydroxide, p-Nitro Phenyl Phosphate, Blood Components, Sodium Azide.

| Chemical | CAS # | EC # | Designation | % w/w |
|--------------------------|--------------|-------------|---------------------|--------------|
| Sodium Hydroxide | 1310-73-2 | 215-185-5 | Corrosive | 4% |
| p-Nitro Phenyl Phosphate | 4264-83-9 | 224-246-5 | Harmful | 1.5% |
| Blood Components | N/A | N/A | Potential Biohazard | <1% |
| Sodium Azide (in 1X) | 26628-22-8 | 247-852-1 | Highly Toxic | <0.1 % |

Section 3 - HAZARDS IDENTIFICATION

Potential Biohazard:

Calibrators are formulated with a buffer base, animal or human serum. The kit components that are made with human serum are tested by a United States Food and Drug Administration (USFDA) licensed method and found to be non-reactive for HIV-1, HIV-2, Hepatitis B surface antigen and HCV. Because no test method can offer absolute assurance that these agents are absent, reagents should be handled at the Biosafety Level 2, as recommended for any potentially infectious human blood product, in the United States Center for Disease Control (USCDC) and National Institute of Health (USNIH) manual "Biosafety in Microbiological Laboratories", 1988. All bovine serum products used are derived from animals of US origin, processed in USDA licensed facilities

Chemical Hazard:

Calibrators are formulated with Sodium Azide as a preservative. Concentrated Sodium Azide may react with copper and lead plumbing to form explosive metal azides. It may also react with acids to form explosive hydrazoic acid. If drain disposed, flush with large amounts of water to prevent azide build-up.

CODE #: 7010 / 7010R
CODE #: 7009 / 7009R

Avoid contact with Stop Solution containing 1N NaOH (Sodium Hydroxide), an irritant to the skin and mucous membranes. In case of contact with any of these reagents, wash thoroughly with water.

| | |
|--------------------|---------------------------|
| Section 4 - | FIRST AID MEASURES |
|--------------------|---------------------------|

- Skin Contact:** Remove contaminated clothing and wash the exposed skin area thoroughly with soap and water.
- Eye Contact:** Flush with copious amounts of water for at least 15 minutes. Seek medical attention.
- Inhalation:** Remove to fresh air, give oxygen if breathing becomes difficult and seek medical attention.
- Ingestion:** Flush mouth with copious amounts of water, provided that the person is conscious and seek medical attention.

| | |
|--------------------|--------------------------------|
| Section 5 - | FIRE AND EXPLOSION DATA |
|--------------------|--------------------------------|

- Suitable Extinguishing Media:** Chemical or water fire extinguisher.
- Extinguishing Media Not to be Used:** None known.
- Special Fire Fighting Procedures:** None Known.
- Unusual Fire and Explosion Hazards:** Calibrators in kits are formulated with Sodium Azide as a preservative. Sodium Azide may react with copper and lead plumbing to form explosive metal azides that are sensitive to mechanical shock, concussion, friction and sparks. May react with acids to form explosive hydrazoic acid.
- NFPA Rating:** Health: 2, Flammability: 0, Reactivity: 2 (for concentrated Sodium Hydroxide).

| | |
|--------------------|---|
| Section 6 - | MEASURES IN CASE OF ACCIDENTAL SPILL |
|--------------------|---|

- Body Precautions:** Wear gloves, impermeable shoe covers and laboratory coat.
- Environmental Precautions:** Contain the spill to the smallest area possible.
- Cleaning Measures:** Take care not to contaminate body. Neutralize a Stop Solution spill with dilute acid, then absorb the material with disposable towels. Soak a Calibrator spill area with a 10% bleach solution and wipe up with disposable towels. Dispose of all contaminated trash in accordance with local regulations.

| | |
|--------------------|-----------------------------|
| Section 7 - | HANDLING AND STORAGE |
|--------------------|-----------------------------|

- Handling:** Wear suitable personal protective equipment. Take care not to splash, spill or splatter standards, stop solution or controls.

CODE #: 7011 / 7011R
CODE #: 7010 / 7010R
CODE #: 7009 / 7009R

Storage: Store kit reagents in 2 - 8° C in refrigerators designated and labeled to contain human blood products.

| | |
|--------------------|---|
| Section 8 - | EXPOSURE CONTROL AND PERSONAL PROTECTION |
|--------------------|---|

Body Protection: Wear laboratory coat.

Respiratory protection: In case of fire, wear self-contained breathing apparatus.

Hand Protection: Wear non-permeable rubber, neoprene, latex or nitrile disposable gloves. Change gloves when they become contaminated.

Eyes Protection: Wear safety glasses or goggles when a splash hazard exists.

Others: None known.

| | |
|--------------------|--|
| Section 9 - | PHYSICAL AND CHEMICAL CHARACTERISTICS |
|--------------------|--|

Physical State: Liquid.

Color: Clear

Odor: None detectable.

pH: 7.0 – 7.4 for all components except Stop Solution at >12 (highly basic)

Boiling Point: 100° C.

Melting Point: 0° C.

Flash Point: Not applicable.

Flammability: Not Flammable.

Auto flammability: Will not occur.

Vapor Pressure: Not applicable.

Relative Density: 1-3 mg/ml

Water Solubility: 100% Soluble.

| | |
|---------------------|--------------------------------------|
| Section 10 - | STABILITY AND REACTIVITY DATA |
|---------------------|--------------------------------------|

Stability: Stable in Normal Conditions.

Conditions to Avoid: None known.

Materials to Avoid: Lead and copper. See Hazards Identification section.

Hazardous Decomposition Products: None Known.

Section 11 - TOXICOLOGY INFORMATION

Effects of Dangerous Substances at the Concentrations Present in the Preparation:

Toxic Effects: Potential Biohazard.
Harmful Effects: Potential Biohazard.
Sensitizing Effects: None known.
Carcinogenic/Mutagenic/Teratogen Effects: None known.

Section 12 - ECOLOGICAL INFORMATION

None Known.

Section 13 - DISPOSAL CONSIDERATIONS

Disposal of Preparation Left: Dispose according to current regional and national rules.
Contaminated Containers: Dispose of following current regulations.

Section 14 - TRANSPORTATION INFORMATION

Road / Railway Haulage ADR/RID: Not restricted.
Sea Freight IMO (IMDG): Not restricted.
Air Freight IATA (ICAO): Not restricted.
UN Number: Not applicable.

Section 15 - OTHER REGULATORY INFORMATION

Classification: This preparation is classified and labeled according to EEC Directive n. 88/379.
Symbols of Danger: None.
"R" Phrases Indicating Specific Risks: R 35 – (for concentrated Sodium Hydroxide) Causes severe burns
"S" Phrases Indicating Caution: S 26 – (for concentrated Sodium Hydroxide) In case of contact with eyes, rinse immediately with plenty of water and seek medical advise.

Section 16 - OTHER INFORMATION

Recommended Use: For research or *in vitro* diagnostic use only. Not for use on or in humans and animals.

The information contained herein is believed to be correct as of the date of issue but is provided without warranty of any kind. Biomerica shall not be held liable for any damage resulting from handling or from contact with the above product. The recipient is responsible for observing any applicable laws and guidelines. Use the product according to the package insert.
