

Complexity Explorer Quickstart Guide

STEP 1

Go to the [Complexity Explorer](#) and click “Sign in”

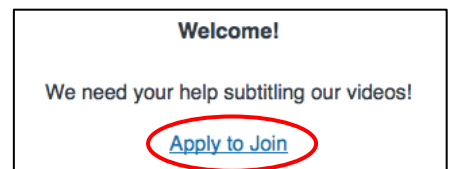

STEP 2

Then scroll down and create a new username.

STEP 3

You will then be re-directed to the Complexity Explorer team. Click “Apply to Join” and fill out the application.

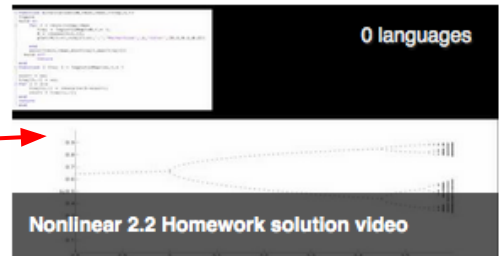

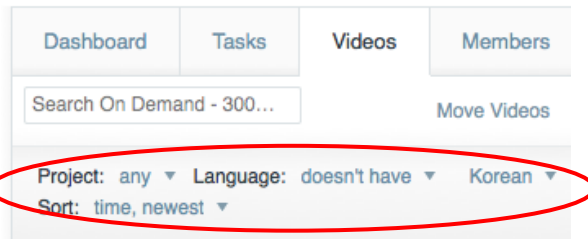

STEP 4

Once your application is accepted, you will be sent an email notification.

To start translating, use the “[Videos Tab](#)” to search and filter for specific videos. We recommend filter to “doesn’t have” and then your language (i.e. “Korean”)

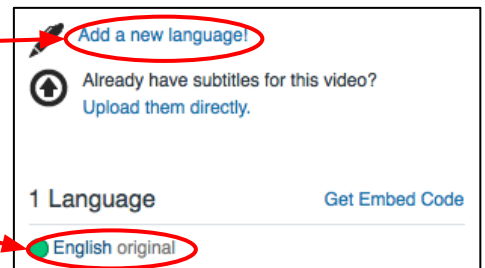

Once you find a video, click on it’s thumbnail to get started.

STEP 5

To begin subtitling, click “Add a language” on the left-hand side of the page.

To edit an existing language, click the language on the left-hand side, and then click “Edit Subtitles” on the next page.

HINT

Need help translating on Amara Subtitle Editor? Watch this [quick video!](#)

STEP 6

If you can’t finish a subtitle in one sitting, you can always save your work, and exit the Amara editor using the options in the top-right of the editor.
