WRVR PROGRAMS AT 106.7 FM

STEICHEN THE PHOTOGRAPHER

LA VOZ HISPANICA DE RIVERSIDE

APRIL 1961
Robert J. McCracken, Minister of the Riverside Church in the City of New York, reads in its entirety the first completely new translation of the New Testament in three hundred and fifty years. The readings are heard each Monday through Friday evening at 9:45 and are repeated the following evening at midnight.

Riverside Radio's daytime good music service: again this month, classics and light classics without comment or commercials will be heard throughout the week, Monday through Friday, 9 a.m. - 5 p.m., doubling WRVR's broadcast schedule on 106.7 FM.
Riverside Radio Highlights

Monday, April 10

5:05 p.m.

ELIZABETH PHARRIS

In a second WRVR appearance, contralto and harpist Elizabeth Pharris performs songs and keens of Ireland and the Hebrides, including the story of Fionnuala: ill-fated daughter of Lir in Irish legend, transformed into a swan and condemned to wander the lakes and rivers until the introduction of Christianity into Ireland.

Tuesday, April 25

7:15 p.m.

KING LEAR

The British Broadcasting Corporation production of Shakespeare's tragedy, based on the First Folio version of the play.

Sunday, April 30

2:00 p.m.

"ONDINE" IN STEREO

Akira Miyoshi's 1960 Itella Prize winning musical composition with words, broadcast in Japanese with WRVR, 106.7 FM, on the right; and WBAI, 99.5 FM, on the left.

Thursdays

7:30 p.m.

THE CARTOONIST'S ART

Rube Goldberg, Bob Dunn, Paul Terry and Harry Hershfield are Vern ("Bringing Up Father") Greene's guests this month. On April 20 and 27 at 10 p.m., Mr. Greene talks with Stephen Becker, author of COMIC ART IN AMERICA, on Riverside Radio's "Books and the Artist."

Saturdays

7:30 p.m.

COLUMBIA FILM REVIEW

Critiques of noteworthy current films by members of the Columbia University Graduate course, "Film and Television Criticism," under the direction of Cecilia Starr, New York Editor for FILM QUARTERLY.

SPECIAL

RIVERSIDE CHURCH EASTER SERVICE

The Sunday morning service of worship, 11 a.m. to 12:00 noon, from the Riverside Church in the City of New York, Robert J. McCracken, Minister, broadcast live on the CBS Television Network. Dr. McCracken's sermon is titled, "The Inevitableness of Easter."

The New
English Bible

The New Testament of The New English Bible, arousing intense interest in publishing and theological circles as the first completely new translation in 350 years, is broadcast in its entirety on Riverside Radio, 106.7 FM, beginning April 3rd. Robert J. McCracken, Minister of The Riverside Church in the City of New York, presents each Monday through Friday evening at 9:45 readings from this modern version published on March 14th by the Oxford and Cambridge University Presses. Each reading may be heard again on the following evening at midnight.

The only new derivation from original sources since the 1611 King James Authorized Version, The New English Bible renders the accounts of Jesus into idiomatic English of the present day, utilizing the natural vocabulary, sentence structure, and rhythms of speech, and avoiding "archaism, jargon, and all that is either stilted or slipshod." Accomplished by a committee of scholars, poets and authors appointed by the major Protestant churches of Britain, the New Testament is the product of 13 years' study of evidence old and new, including ancient manuscripts in Greek, manuscripts of early translations into other languages, and quotations from the New Testament by early Christian writers. The work is "not the expression of any denominational or doctrinal leaning; it aims to be in style neither traditional nor modernistic. It is offered simply as the Bible to all those who will use it in reading, teaching, or worship." Translations of the Old Testament and the Apocrypha are now in progress.

The Introduction to the New Testament notes that a "translator can hardly hope to convey in another language every shade of meaning that attaches to the word in the original, but if he is free to exploit a wide range of English words covering a similar area of meaning and association, he may hope to carry over the meaning of the sentence as a whole. . . . In no passage of doubtful meaning does the rendering adopted represent merely the preference of a single person."

Providing background information necessary to the study and understanding of the Bible, Riverside Radio broadcasts at 10 p.m. Saturday evenings in April, four lectures given by Dr. McCracken during the Lenten season. Dr. McCracken speaks of "The Book in the Making," "The History of the Book," "The Authority of the Book," and "Versions Old and New."

In addition, WRVR schedules at 10:30 p.m. on Wednesdays a new series from the Israel Broadcasting Service, documenting the "Land of the Bible." The programs concern the Biblical culture, history and geography of modern Israel, describing the ancient traditions forming the contemporary State.
The Hispanic Voice of Riverside

WRVR begins this month a series of programs produced especially for the Spanish-speaking population in Riverside Radio's audience, expanding the programming concept initiated in January with "La Voz de la UNESCO" and "The Voice of UNESCO"—bilingual reports from the United Nations Educational, Scientific and Cultural Organization. Beginning April 7th at 6:30 p.m. and continuing on successive Fridays until 9:35 p.m., WRVR broadcasts a variety of programs concerned with Hispanic culture and history, modern science and the arts.

Participating in the shaping and production of "The Hispanic Voice of Riverside" is Pablo Cotto, Hispano-American Minister of The Riverside Church; Mr. Cotto presents Fridays at 7:30 p.m. a series of talks directed to Spanish-speaking people in the Metropolitan area. A pioneer in the establishment of educational and religious programs for Hispanic peoples in Mexico and the United States, Mr. Cotto this month discusses four aspects of such work. On April 7th, "Open Doors"—Spanish-speaking people in Riverside discover doors to brotherhood. On April 14th, "New Faces: Who Are They?"—an exploration of the problems faced by immigrants and braceros. The April 21st program, titled, "Do You Know Them?" concerns three lines of action toward the creative integration of Hispano-Americans. On April 28th, Mr. Cotto reviews Riverside's position in the Hispanic-American Community.

In an article about Riverside's Hispano-American program, published last June by La Prensa, Mr. Cotto said that "every note of encouragement directed on behalf of a people who struggle to find a place in the community is always conducive to a good feeling. More significant, I would say, is providential. As Amado Nervo puts it, 'Truly I say that it is merciful, at the first signs of darkness, to light our lamp, the good lamp with which the Father has provided the adventurers of life.'"

"The doors of the Riverside Church are wide open to the surrounding community. The impact of its position as an International, Interracial, and Interdenominational organization is felt as a positive reality through its all-inclusive program of action. Conscious of its place in the community, it cannot drown the cry of 'Here am I with an extensive program for all, regardless of race, color, or standing.' The Hispano-American Ministry, just recently [1959] incorporated into the regular program of the church, represents another signal for our people to wake up to the realization that there are others who are interested in their welfare.

"Three things move this church in this effort. (1) Its historic position. It was conceived with the view of serving the community, and it is its final goal to carry on such a mission. (2) It functions in the midst of a circle within which all races, all ideas, all positions find their place. (3) This church recognizes that in every minority group, regardless of its problems, there..."
can always be discovered possibilities which, if they are well-channeled, can produce good results. In its function as a church, Riverside offers the widest program of action intended to reach from the child of the cradle department to the old folks retired from regular activity. This is a plan of complete assimilation in which men, women, young people, and children, all find that which is in line with the particular needs of each group.

"As it approaches the Spanish-speaking people, Riverside declares that 'opportunities do exist; they are available.' I would add that all it takes is to search for them. With it one would honor that greatest of all graces with which God has endowed the individual: the grace of using the imagination, of investigating in order to come in contact with help in time of need. Surely doors of grace open themselves for all."

At eight o'clock on Fridays, WRVR presents a variety program of music, commentary, and readings from Spanish poetry, with Luis Pereira, who will also supplement English announcements on Friday's "Six Thirty Symphony" with commentary in Spanish. Mr. Pereira, prior to his present teaching position with Berlitz in New York City, worked for five years producing and broadcasting programs for Radio Cultura, Radio Rumbos and other stations in Venezuela. He has studied literature, philosophy and journalism, and is presently preparing his manuscripts of Spanish poetry for publication.

Rafael Rodriguez Delgado, professor, lecturer, and writer in the fields of science, philosophy, sociology and law, is author of Introduction to the Philosophy of the Atomic Age (Cuba, 1950). He has presented science programs on Havana Radio CMQ, participating in "La Universidad del Aire." His lectures on Bolivar were heard on Radio Nacional, Caracas, and he directed "Leyendas Venezolanas" for Caracas television. Under the auspices of UNESCO, Professor Delgado presents a series of brief lectures on "The Scientific Revolution," Fridays at 7:45 p.m. on WRVR. The April programs explore the mass communication media of recordings, films, radio and television ("Music of All Nations for All Nations") and contemporary developments in physics, astronomy and chemistry: "The World of the Atom," "Planets and Stars," and "Wonder Drugs and Materials."
Founder of the Venezuelan Society for Synthesis and of the New York branch of the National Society for General Systems Research, Professor Delgado has taught public law, the philosophy of law, philosophy and psychology in Madrid and Caracas. In 1956 he lectured on animal sociology at Yale University. One of his special studies, published in *Main Currents in Modern Thought* (January, 1957) is of particular interest here. The following excerpts appear in "Synthesis in a Divided World: An Analysis of Some of the Historical Trends Towards Integration in Our Times," originally a report to the Venezuelan Society for Synthesis.

"In the most diverse fields, in the remotest countries, slowly but without halt, is emerging a new effort to elaborate a theory capable of yielding a scientific background of interpretation and discussion to man as a whole. The fragmentary and wrecked systems of the past must be superseded if existence is to continue. If science can be unified to reflect universal truths, it may also develop convergent systems of ideas on whose general lines all human beings can agree. . . .

"In a world ravaged by fierce revolutions, by bloody struggles, by the deadly threat of atomic wars, by ceaseless conflicts of wealth, of boundaries and of ideas, the necessity for an intellectual integration as basis for intelligent coordinate action is no longer avoidable. The power of the mind that constructed fearful weapons can also be exercised in the construction of a peaceful world. We must formulate without delay a common philosophy for the human species that can appeal to reason, to intelligence and to sentiment without propagandistic aims. We can destroy our foe, as a great American thinker said, if we change him into a friend. This is possible, even if it entails a change in thinking of foe and friend. We need imagination, audacious ideas, practical solutions. In addition to good will and love. . . .

"Our preparedness for war is much greater than our readiness for peace. We know that huge sums are reserved for construction of weapons and many gallant men are thinking in terms of wiping out other gallant men. But who is evolving the structures for an intelligent and strong peace? How much money and thinking are invested in the construction of integrative ideas, useful for friend and enemy? How many scientists are working in terms of the general interests of man? Surely the United Nations is a major hope, but the basic effort must be made by millions of persons and by many institutions from both sides of the iron curtain if a new world is to be constructed. By action or by inaction we are responsible for the march of events, and our responsibility is related to our degree of freedom.

"The solution is not a weak pacifism, but a stern intellectual labor based upon strong sentiments of fairness and justice. Our problems are different from the ancient ones. A second Industrial Revolution began with the use of nuclear power and a new technology, producing thermonuclear weapons and automation; a new theory of relativity changing our ideas of matter and energy; quantum mechanics transforming our concepts of determinism and indeterminism. The principle of com-

regularies. Este es un plan de completa asimilación en donde hombres, mujeres, jóvenes y niños, todos se adaptan a las necesidades particulares de cada grupo.

"Al dirigirse al pueblo de habla hispana la Iglesia de Riverside declara 'las oportunidades existen, están disponibles.' Yo añadiría, sólo hay que buscarlas, descubrirlas. Con ello se rinde honor a esa más grande gracia de que Dios ha dotado al individuo, la gracia de usar la imaginación, de investigar para así toparse con lo que puede conducir hacia el oportuno socorro. En verdad puertas de gracia se abren para todos."

A las 8:00 p. m. el Sr. Pereira presentará un variado programa de música con comentarios y lecturas basados en la poesía española. El Sr. Pereira posee una muy vasta experiencia en la radio. Antes de asumir su presente posición en la enseñanza con Berlitz, trabajó por espacio de cinco años en la producción y en la transmisión de programas para Radio Cultura y Radio Rumbos de Venezuela. Se ha distinguido como estudiante de literatura, de filosofía, y de periodismo. Está para dar los toques finales a sus manuscritos sobre la poesía española para publicación en el futuro cercano.

Otra gran contribución al programa de *La Voz Hispana* de Riverside será la del Dr. Rafael Rodríguez Delgado, conferenciante y fecundo escritor. Su interés se extiende al campo de la ciencia, de la filosofía, y de la sociología. Es el autor de "Introducción a la Filosofía de la Era Atómica" (Cuba) 1950. Ha presentado programas científicos por la Radio CMA Habana. Muchas de sus conferencias han sido escuchadas a través de Radio Nacional Caracas. También dirigió el programa "LEYENDAS VENEZOLANAS" para televisión Caracas. Bajo los auspicios de la UNESCO, el profesor Delgado presenta una serie de breves conferencias sobre el tema "La Revolución Científica," los viernes a las 7:45 p. m. WRVR. En sus programas del mes de abril explora temas de actualidad como la Comunicación en Masa y medios de grabaciones, películas, radio, y televisión. También entra en materia sobre el desarrollo del presente en los campos de la física, de la astronomía, de la química, del mundo del Átomo, de los planetas y las estrellas, y de las maravillas de las drogas y materiales de nuestros días.

"El nuevo Universo, que ahora solo comenzamos a entender, se definen también una nueva figura del hombre, capaz de reducir en medida creciente las oposiciones y antagonismos que desgarran su mundo actual.

"Provisto del instrumento intelectual que le haga comprender unitariamente al Universo, surge entre las oscuras nieblas del presente la figura de un hombre integrado, capaz de dirigir, cada vez un mayor escala, los procesos naturales y de crear nuevos tipos de
plementarity has revealed unity and diversity, freedom and organization, individual and social realities, as different compatible aspects for an integrated man. Many new roads are now open if we apply the solutions of our age to the problems of our time, giving up the theories which arose in darkened centuries. Convergence is possible if we are able to translate the ideas of modern history, philosophy, and science into economic, political and ideological terms comprehensible to all, which can orient human action toward common goals.

"The scattered movements of synthesis, scientific dialectics and philosophical integration can be useful for practical and immediate work if they are put together. But if they fail, new uncompromised intellectual forces must emerge to perform the task. A tremendous amount of scientific and technological knowledge is available to construct a philosophical generalization of universal value. We have at least an initial point of agreement in the fear of mutual annihilation in a total atomic war. The effort, surely must be of international scope. However, America, backed by the prestige of its organized freedom, ethical standards and powerful individual and collective resources, could take this initiative to launch it on a world-wide scale. Ideas of man have made thermonuclear weapons. Human ideas can fire the organic metamorphosis of modern man toward indestructible peace."

Professor Delgado will act as moderator for a panel discussion following brief lectures by experts on "Hispanic History and Culture" Fridays at 8:30 on Riverside Radio. This series is planned to cover every aspect of Hispanic life in the United States with particular reference to the Spanish-speaking population of New York City.
The Cartoonist's Art

Cartooning has flourished in a country which marks three separate observances of the comic spirit. National Laugh Week (April 3-10) is designated "to salute the laugh makers of America, past, present, and future, and to encourage the development of comedy talents." International Newspaper Comics Week (April 9-15) this year stresses ways in which "Comics Mirror American Life." And American Comedy Week (April 10-18) is instituted "to remind Americans and people all over the world of the importance of humor in their daily lives."

With regard for the important role of today's cartoonist, Riverside Radio continues this month the Thursday evening series of talks with some of the men who provide and stimulate a sense of proportion through the medium of cartooning.

G. B. Shaw's nearly lifelong efforts to establish a phonetic alphabet were made not with tongue-in-cheek and not only to simplify English spelling, but to develop and promote a universal language. A form of communication older than language, very often more effective, and certainly universal in scope, is the cartoon. Vern Greene, artist for the internationally famous strip "Bringing Up Father" and Director of the National Cartoonists Society Living Library (recordings of cartoon artists and writers discussing trade techniques) is host for THE CARTOONIST'S ART, Thursdays at 7:30 p.m., on WRVR. Mr. Greene supplies a striking illustration of "the cartoon as universal language"—while on an entertainment tour in 1957 for servicemen in the Far East, Greene and Yong Hwan Kim, President of the Korean National Cartoonists Society, held long conversations without an interpreter's aid, using cartoon drawings to illustrate difficult points.

Rube Goldberg, at right, with host Vern Greene in the WRVR studio, opens April's "Cartoonist's Art" series, Thursdays at 7:30.

This month on WRVR Vern Greene talks with four of America's best known artistic humorists: Rube Goldberg, Bob Dunn, Paul Terry, and master storyteller Harry Hirshfield. Winner of the 1948 Pulitzer Prize for his editorial cartoon "Peace Today," Rube Goldberg is the dean of American cartoonists. He has, as Stephen Becker remarks, added an indefinable but immediately recognizable word to the English language: "rubegoldbergianism." Mr. Goldberg, whose career began with sports cartooning and branched into strips and editorial cartoons, is heard on Riverside Radio April 6th at 7:30 p.m. Bob Dunn, responsible for the wryly familiar characters of Jimmy Hatlo's strip, "They'll Do It Every Time," and creator of the father-son team of "That's My Pop!" is Vern Greene's guest on April 13th. Paul Terry, pioneer of the animated cartoon, talks on April 20th about the development of Terrytoons. And on April 27th, radio personality Harry Hershfield describes the techniques of comic storytelling.

Just how popular is comic art in this country? Studies show that more than 81 per cent of adult urban Americans read the comics—with percentages appreciably higher among better educated adults—and that 90 per cent of the children to whom newspaper comics are available follow the adventures of cartoon characters. How and why is the cartoon so prominent a form of communication? Joseph W. Musial, Education Director of King
"Farmer Alfalfa" at right is one of the celebrities created by Paul Terry, who talks about his adventures in pioneering with the animated cartoon April 20 on Riverside Radio.

Features Syndicate, indicates that the successful comic reaches people because of its condensed form. "Yet, though physically static, it suggests movement, evokes hordes of other images and tells a story. It tells not of a man but of men; not of a wedding or a picnic or a fear or an appetite but of weddings, picnics, fears and appetites in general. The cartoon hits home because its topic and situation are grasped at once by all who view it. Unlike literal illustrations, the cartoon employs exaggerated measurements, actions and values. It not only presents truth but also transforms universal, recognizable, appreciable truth into universal appeal."

Where and when did the comics begin? Several years ago Puck, The Comic Weekly published a brief history of the Sunday comics. It notes that "newspaper comics as we know them today are relatively new, a development of the last fifty years. But the comic strip as a narrative art form is as old as recorded history. Historians point out that it goes back to the bone-carved pictures of the cavemen, to the wall paintings of the Egyptians, to old tile mosaics of the East and other forms of 'narrative illustration' through the ages. As printing developed in the 15th century, artists developed sequential panels to tell a story of the gospels or the fame of kings. Sometimes the legend—or a character's statement—was printed or lettered out in 'balloons' just as we do today.

"All of these art activities, and particularly those of the middle ages, were an effort at communication with the mass of people. Before that, dignitaries and other educated people were the only means of communication; and that, of course, to a very limited audience. Later, through the 16th and 18th centuries, famed artists in England, France and Germany made satirical and humorous drawings that had much of today's cartoon flavor. Again, this was a form of popular appeal, an attempt to communicate with the masses.

"The 19th century produced the drawings of Wilhelm Busch, famous for his two bad boys 'Max and Moritz.' Published in a German periodical of the time, years later they inspired the creation of 'The Katzenjammer Kids,' oldest of current comic strips (now rounding out some 60 years). Comics in the modern sense began about 1892 when James Swinnerton's 'Little Bears and Tigers' became continuity comic characters in Mr. Hearst's San Francisco Examiner."

On March 20th and 27th at 10 p.m., WRVR listeners will learn more of the history of American cartooning when Stephen Becker, author of COMIC ART IN AMERICA (Simon & Schuster, 1959) talks with Vern Greene about his book, the most recent and comprehensive study of the cartoonist's art in this country.

What is a primary ingredient of the cartoonist's art? "The successful cartoonist must have a genius for understanding the principles of good motivation," contends Mr. Musial. * "Like a good teacher who puts motivation first, he works in full confidence that understanding and reason will follow where strong feelings lead. . . . Nothing else but a drawing gives such a sense of reality to an idea or attitude. Far from carrying off the reader into an idle fantasy world, the animated cartoon can and should impart the intense feel of reality to whatever subject it deals with. Bearing in mind the danger of over-simplification, the comics should not presume to set themselves up as substitutes for classroom discussion or teacher demonstration, for textbooks or for literature; nor, when used in advertising, should they ignore the validity of honesty in promoting sales of products. Teachers are tireless in improving human understanding. Advertisers also, and those in radio and television would do well to explore the comic technique."

Harry Hershfield's "Abie the Agent" has been called "the first of the adult comics in America." Mr. Hershfield traces his cartooning career for WRVR listeners on April 27th.

* Joseph W. Musial, "Comics as a Communication Form," an address before the Advertising and Selling Alumni Association of the Advertising Club of New York, September 2, 1953.

Education for Living in a Changing World

Riverside Radio is privileged to continue this month the Monday evening series of lectures from the Institute for Religious and Social Studies, a graduate school conducted with the cooperation of Catholic, Jewish, and Protestant scholars. Established at the Jewish Theological Seminary in New York in 1938, the Institute is a scholarly and scientific fellowship of clergymen and other religious teachers, who seek authoritative information about some of the basic issues now confronting spiritually minded men everywhere. The purpose of the Institute is to develop a keener awareness of the unique contributions which various religious traditions have made to the advancement of civilization and can make toward the solution of perplexities of our day.

Usually only clergymen have access to Institute classes, but listeners throughout the Metropolitan area now have an opportunity to hear on WRVR Mondays at 10:15 p.m. the eminent speakers in religion and education who participated in the 1960-61 courses. Saturday Review Editor Norman Cousins opened last October the Institute's "Education for Living in a Changing World" course, stating that "The main business of a rational society is the business of living with change, comprehending it, and, if possible, making it subordinate to the human situation." WRVR programs in this outstanding series are explorations of that statement, by experts in the fields of religion, public education, mass media, and the arts.

Presenting on April 3rd "A Psychological Viewpoint" of such education is Walter A. Stewart, Associate Professor of the Albert Einstein Medical School and a member of New York Psychoanalytic Institute. On the following Monday, Stanley R. Hopper, Professor of Christian Philosophy and Letters, and Dean of the Graduate School at Drew University, considers education "Through Literature." John H. Fischer, Dean of Teachers College, Columbia University, provides on April 17th a view of education for change "Through the School." And on April 24th, William H. Genne, Executive Director of the Department of Family Life, the National Council of Churches, discusses education for living in a changing world "Through the Family."

The Church as Community

Dimensions of the Christian faith as expressed in small groups will be discussed on WRVR April 23rd at 4:30 p.m., the first in a special series of programs planned in cooperation with the Riverside Neighbors project.

The Neighbors constitute the whole membership of the Riverside Church, grouped by units according to home location and formed to cultivate Christian concern among Riverside's large and widespread fellowship. These small, contiguous groups represent one solution to a problem faced today by all growing, urban churches: how a church membership can maintain and develop its historic spirit of community when membership totals are so great as to make unfeasible traditional concepts of parish calling and personal contact between ministers and laity.

One in a projected series of broadcasts called "The Riverside Neighbors Consider," the April 23rd program will offer to listening groups within the range of WRVR a "live" basis for discussion of "The Church as Community." The program is designed to trigger audience participation within the individual Metropolitan-area listening groups. Comprising the panel for "The Church as Community" are (left to right) Rev. Phyllis Taylor, Ministerial Assistant; Dr. Robert J. McCracken, Minister, the Riverside Church; Dr. Jesse Lyons, Pastoral Minister; and Robert L. Aller, Chairman, the Riverside Neighbors Committee.

Future programs in the series include talks by Harold F. Clark, Professor of Education, Teachers College; Tom F. Driver, Assistant Professor of Christian Theology, Union Theological Seminary; Irving Gitlin, Executive Producer, Creative Projects, NBC; and Harlan Cleveland Dean of the Maxwell Graduate School of Citizenship and Public Affairs, Syracuse University.

Since the establishment of the Institute for Religious and Social Studies, an extension has been founded in Chicago (in 1944) conducted in cooperation with the University of Chicago. In January, 1945, another extension was opened in Boston, conducted in cooperation with the American Academy of Arts and Sciences. Chairman of the executive committee and president of the trustees of the New York Institute is Robert J. McCracken, Minister of the Riverside Church.
Ben Park, writer and narrator for "Coming of Age" heard Monday evenings at 7:30 this month on Riverside Radio WRVR.

**Coming of AGE**

**COMING OF AGE** explores the thoughts and feelings of American youth in the twentieth century.

For these programs Ben Park, writer and director, talked with teenagers all over America. He recorded on tape conversations which often ran for two or three hours. On some occasions, Mr. Park revisited his subjects after an interval of several months. Often he talked with their parents, teachers, friends.

From teenage expressions on drinking parties, alcoholic parents, gang-fighting, adolescent hopes for the future, the thirteen programs in **COMING OF AGE** have been edited.

**COMING OF AGE** is being broadcast by affiliates of the National Association of Educational Broadcasters. Further information about the series may be obtained by writing to: National Educational Television and Radio Center, 10 Columbus Circle, New York 19, New York.

BEN PARK

1 **Suburbia in Dismay**

An automobile crash involving high school students after a drinking party prompts parents, in a well-to-do suburban community, to decide to "crack down". But the decision brings little result as the teenage drinking and fast driving continue. Documentary study of a failure in parent-teenage relationships.

Commentary by
DR. MARGARET MEAD, author and anthropologist.

2 **Suburbia Sees the Dawn**

In another prosperous suburban community, a similar automobile tragedy starts an unusual teenage movement. Comments by teenagers, parents, community leaders picture it as a success. Why did this teenage effort apparently succeed—in contrast to the parental efforts described in the previous program? Detailed analysis by teenagers.

Closing commentary by
DR. A. E. WOLTERS, Superintendent of High Schools, Highland Park, Ill.

3 **Five Sat Down**

In a southern town twenty-four Negro high school students decided to sit down at the lunch counter of a department store and ask for lunch. On this program five of the students—three boys and two girls—discuss what prompted their action, how they planned it, and what happened. Documentary dissection of a headline incident.

Closing commentary by
DR. JOHAN V. GALTUNG, Visiting Professor of Sociology at Columbia University, from the University of Oslo, Norway.

4 **Five for Segregation**

Five white high school students, from the same city as the Negroes in the previous program, summarize their views on life, communism, education, politics—and race relations. A capsule view of upperclass, articulate, southern youth and its world.
Music from the Far East

The first in a series of projected stereo broadcasts on WRVR and WBAI is scheduled to open Riverside Radio's International Fine Arts Festival on Sunday, April 30 at 2 o'clock. Through the cooperation of the Broadcasting Foundation of America, WRVR (106.7 FM) and WBAI (99.5 FM) will present ONDINE, a "musical-poetic" drama in Japanese by Akira Miyoshi.

ONDINE might be described in several ways. It is a poetic drama; it is a musical fantasia with poems and dialogue; it is a fantasy-style drama arranged around poetic music and tone poems. The work is based on the story of Ondine the water-nymph, in the novel Undine by Friedrich Baron de la Motte Fogue, German poet of the Romantic school.

Composed by Akira Miyoshi for the Japan Broadcasting Corporation (NHK), ONDINE won a Grand Prix in the 1959 Japanese Festival of Arts, and was awarded the 1960 Prize Italia in the radio music section. (Founded in 1948 at the suggestion of Radiotelevisione Italiana, the Prix Italia is awarded annually to outstanding broadcast programs. Twenty-three countries participated in the 1960 concourse, held at Trieste, Italy.) Akira Miyoshi, the 27-year-old composer, studied musical composition in Tokyo and Paris, and is a member of the rising composers' group in Japan, the Shin-shin Kai. His major works include "Symphonie Concertante pour Piano et Orchestre" (1954), awarded NHK's Orchestra Prize, the Art Festival Incentive Prize and the Otaka Prize. Miyoshi's Violin Sonata and Sonata for Piano received Mainichi Newspaper Music Prizes in 1955 and 1958.

ONDINE begins with a Prologue, followed immediately by Part One, in which the water-nymph Ondine, against the advice of the Water-King Kilhleborn, falls in love with a mortal, Paul, who has ventured into the woods one stormy night. In Part Two Ondine joins the human world but is eventually forced to return to the water because of her lover's betrayal. Part Three tells of Ondine's reconciliation with Paul after his death as a mortal, and the Epilogue, immediately following, draws the story to a close.

The music for ONDINE is interpreted by an orchestra (without oboe or bassoon), a female quartette, and, with the Ondes Martenot, a series of electronic tones, including what are technically called "white noises" and various "pulse tones." These highly descriptive tones provide realistic sound effects, and in combination with the orchestra and chorus produce an entirely new world of sound well beyond the realm of conventional music.

In an attempt to suggest the atmosphere and vastness of the transparent water world, ONDINE has been stereo-recorded to produce a three-dimensional effect, an unusual listening experience in stereo, Sunday, April 30, on WRVR, 106.7 FM, and WBAI, 99.5 FM. For best results place WBAI receiver on the left, and WRVR on the right.

Music from the Far East continues on Sunday, April 30 at 6:30 when WRVR presents through the BFA works by four other Japanese composers. In European music melody is created by joining the tones vertically; harmony is created by joining them laterally. In form, European music is developed toward the center, a rationalistic technique. Japanese art does not employ this concept of independent space—in a Western house, the walls are first erected, and the house takes shape as a continuation of the rooms; in a Japanese house, supporting posts are first erected and the walls are made afterward. "The Ellora Symphony" by Yasushi Akutagawa dispenses with the European musical technique, employing instead twenty very short movements, each less than a minute in duration. The Japanese concept of space is here adopted in which the start was made from a small point and then expanded successively.

The composer tells us that "Ellora is an ancient tomb preserved in India. The construction of this symphony followed some hints I received from the temples around the tomb, which were constructed under oriental architectural techniques. The orchestra is of standard organization, with the addition of eight percussion instrumentalists. The string instruments are divided into twelve parts. The twenty movements are divided into two characteristics—the lent adagio and allegro. The order of performing the movements was left to the discretion of the conductor; the conductor was also free to cut or overlap the movements at will."

The son of a noted Japanese novelist, Yasushi Akutagawa studied music in Tokyo, and after the war composed the music for a popular radio drama serial "Eriko-to Tomoni." In 1950, his "Music for Symphony Orchestra" received the Orchestra Prize on the 25th anniversary of the NHK.

Japanese woodcuts appearing on these pages are reproduced through the courtesy of the New York Public Library Picture Collection, and are taken from files on Music:Japan.
Kohfu Watanabe is a master performer of "shakuhachi"—bamboo flute—and is credited with a number of fine compositions. The work by which he is represented on WRVR April 30th is an arrangement of a number of Japanese folk songs on the theme of autumn. "Aki" or "Autumn" includes a vocal group, first and second koto (13-stringed instrument), Jusichigen (17-stringed instrument), Kokyo (Japanese violin), court music and fanfare groups, conducted by the composer.

Naoharu Yamakawa, also famous as a "Shakuhachi" player, is recently more active as a composer of Japanese classical music. "A Composition for Japanese Percussion Instruments" was acclaimed at the 1960 Japanese Art Festival. The work employs drum, large hand-drum, small hand-drum, Shamisen (3-stringed instrument), koto, flute, Shakuhachi, and percussion instruments hitherto used only in the orchestral music for the Kabuki Play.

Of his "Nirvana Symphony" Toshiro Mayuzumi writes "The premier performance took place in Tokyo on April 2, 1958. The work was started in 1957 and completed in the spring of 1958. Two motives may be mentioned for my conceiving the idea of this symphony. The one was musical or acoustical, while the other was religious or philosophical.

"Through recent work in concrete music and electronic music, I had developed a deeper interest in new timbres and new sounds. The "Nirvana Symphony" was based on the idea of creating musical structures out of the sound energy, along the line advocated by Edgard Varese. In other words, the method of composition consisted of giving musical life to the energy inherent in the sound itself. As a result, I have brought various new timbres into my compositions. Speaking from the standpoint of acoustics, for example, mixed tones, which are combinations of several or even several dozen pure tones, have become dominant in my works. In the course of my work in this field, I became deeply interested in and very fond of the sound produced by the Japanese temple bell, which I considered a typical mixture of tones. Two points related to the sound of the temple bell as tone material attracted me. First, the sound was of an extremely complex overtone structure, in which the number of overtone vibrations was not an integral multiple of the number of fundamental tone vibrations. Second, the component parts of the overtone changed subtly with the passage of time.

"Similarly, I was attracted by the voices of Buddhist priests reciting sutras [narratives from Buddhist sacred writings, especially the dialogues of the Buddha]. The sutra recitation, of course, has no melody but is definitely accompanied with a habitual intonation and rhythm. In addition, a recitation by many priests in a group produces a sort of musical noise through the mixing of the voices of varying pitches.

"The close relation between the toll of the temple bell and Buddhism dates back to ancient times. In Japan, the sound of the temple bell has always been interpreted as signifying the 'transiency of all things.' In other words, Nirvana, an ideal state of being for the Buddhist,
This month WRVR is programming chamber music on Mondays and Wednesdays at 6:30, a time formerly reserved for the "Six Thirty Symphony."

The wealth of chamber music literature, which comprises the noblest and most felicitous inspiration of musical repertory, cannot fail to astound anyone who makes an effort to investigate the field. In sharp contrast to the economy of means with which chamber music is produced, the scope of many masterworks and their emotional depth compete with the musical significance of large-scale works written for more elaborate media.

Chamber music has always been closely associated with the home. But in this day when via high fidelity recordings almost any kind of music can be enjoyed in relaxed fireside listening, it is discovered once more that chamber music, and music for some solo instruments such as the piano, harpsichord and lute, has the innate quality of tone and volume to sound most natural and lifelike in the narrow confines of the average room. Big sonorities require larger spaces, and the playback at home of a symphony orchestra must needs be a miniaturization, robbing the performance of much of its grandeur. It is gratifying that the interest in chamber music is increasing steadily in this country.

It is remarkable how Europe is still filled with excellent amateurs who maintain a weekly, bi-weekly or twice-weekly schedule of chamber music sessions. The word 'amateur' should not be mistaken here: many of them are so proficient that they could have played their instruments professionally had they desired to do so. This legion of music lovers has for centuries formed the backbone and root of a musical culture, sending up the sap of its support and enthusiasm into the more visible branches of professional activity.

Many chamber music works were commissioned by, or simply written for some particular player or group, and history abounds with amateurs whose names are inextricably interwoven with great musical achievements. In 1819 Schubert visited the picturesque Austrian village of Steyr in the company of his friend Vogl, who was from that town. An amateur cellist in Steyr, Sylvester Paumgartner, often held musical soirees in his living room, characteristically decorated with instruments, scores and pictures of composers. Chamber musicians being what they are, there can be little doubt about it that Schubert attended one or more of these soirees, and the famous Trout Quintet (programmed for April 17th), written as a memento of this occasion, may well owe its unusual instrumentation—for piano, violin, viola, cello and double bass—to a combination of musicians which happened to be available at that time.

A Russian admiral of the Navy, Count Rasoumovsky, maintained his private string quartet during the years that he was ambassador in Vienna. While the famous Schuppanzigh was the leader, Count Rasoumovsky, an eminent musician, played the second violin in this quartet, which tried out Beethoven's new string quartets under the direction of the composer. His name found a lasting monument in the "Rasoumovsky Quartets," Beethoven's Opus 59, dedicated to this benefactor of the arts (Programmed on April 5, 19, 26).

Unlike the dictatorial discipline of the orchestra, historically an outgrowth of the 18th century society with its patronage system, chamber music is a strictly democratic affair, where all players meet as equals. In the absence of a conductor every player must contribute his share of initiative in a refined teamwork which requires lightning fast responses. Away from the pressures of professionalism, musicians the world over like to get together to enjoy this form of music making as well as each other's company. Rarely does music make more sense than when it glows under the soft light of friendship and mutual respect.

Many a child owes the awakening of his musical interests to a musical home. Did not Fritz Kreisler receive his earliest musical impressions from his father playing string quartets with physician colleagues? And when the boy was old and capable enough to play with the older men, the setting becomes priceless. The seed for the warm and human quality of Kreisler's art may well have been planted at those sessions.

The lack of ostentation and its refinement require that chamber music be listened to from up close. In a large hall not only much of the music itself is lost but also that precious contact between audience and musicians.

During the Casals Festival in Perpignan in 1951, one of the concerts held in the open court of a Moorish castle was rained out after the opening number. Since rain in summer time is rare in the Provence, hopes were that it might not last too long, but after a half hour it was decided to cancel the concert. After most of the audience had left, some hundred lingered on, and feeling in sympathy with these enthusiasts, Tabladao, Stern, Primrose and Tortelier decided to play something. They placed themselves in the only dry spot readily available, under some ancient vaults in an area temporarily transformed into a backstage, amidst boxes and crates, with the listeners standing in picturesque fashion closely around the musicians. Here were players and audience united by a common spirit, their love for chamber music. Never had the humorous Mozart oboe quartet sounded so relaxed and gay. The jocular tricks which Mozart imposes upon the oboist came through so sparkingly that laughter at times threatened to disturb the music.

While orchestras nowadays are subjects of civic or national pride, chamber music flourishes only when it is cherished by individuals. It will unlock its storehouse of treasures to anyone who will give it loving attention.

As always, we at Riverside Radio are anxious to hear from listeners who have criticisms as well as those who have compliments to offer on the music played on WRVR.
National Library Week occurs this month, April 16 to 22, established "For a better-read, better-informed America." The woodcuts and drawings reproduced on the inside covers and throughout the program listings of the WRVR New York Fine Arts Guide appear through the courtesy of the New York Public Library Picture Collection. They represent various modes and means of music making, the work of 15th and 16th century German, Flemish, French and Italian artists, and are found in the Public Library Picture Collection files covering the Middle Ages, 1200-1500, trumpet, and harp.

Saturday 1

From 9 in the morning until 5 pm, when evening programs begin.

JELLY ROLL MORTON AND HIS CONTEMPORARIES

5:00 HARRY EMERSON FOSDICK

5:05 BAND MUSIC

5:15 TALES FROM THE FOUR WINDS
Dramatizations of favorite folk tales and legends of many nations. Tom Tit Tot

5:30 THE CHILD'S STRUGGLE FOR INDEPENDENCE
Beginning a series of three lectures on this subject as presented in March by the Child Study Association of America.
The Child's Struggle, Dr. Oscar Sternbach, Dean of the Institute for Psychoanalytic Training and Research.

6:30 SIX THIRTY SYMPHONY
"King Stephen" Overture, Op. 117 . . . . Beethoven
The Philharmonia Orchestra; Otto Klemperer, conductor. (Angel)
Dance of the Seven Veils . . . . Richard Strauss
The Philharmonia Orchestra; Artur Rodzinski, conductor. (Capitol)
Concerto for Two Pianos and Orchestra . . . Poulenc
Whitemore and Lowe, duo-pianists. The Philharmonia Orchestra; Pierre Dervaux, conductor. (Capitol)
Marosszek Dances for Orchestra . . . . . Kodaly
RIAS Symphony Orchestra, Berlin; Ferenc Fricsay, conductor. (Decca)

7:30 COLUMBIA FILM REVIEW
Critiques of noteworthy current films, by graduate students in the Columbia University course "Film and Television Criticism" under the direction of Cecile Starr, New York Editor for Film Quarterly.

7:45 THE GOOD LIFE
Discussions of the problems and interests of modern woman.
Dr. Millicent McIntosh, President, Barnard College.

8:00 BOSTON SYMPHONY ORCHESTRA
Charles Munch, conductor (RCA Victor)
Brandenburg Concerto No. 1 . . . . . Bach
Francesca da Rimini, Op. 32 . . . . Tchaikovsky
Ports of Call . . . . . . . . . . . . . . Ibert
Martyrdom of Saint Sebastian . . . Debussy

10:00 EVENINGS WITH THE BIBLE
Robert J. McCracken, Minister, The Riverside Church in the City of New York. A lecture series offering background information necessary to the study and understanding of the Bible.
The Book in the Making

10:45 J. S. BACH: ST. MATTHEW PASSION (Part I)
In a rarely heard complete performance of the Bach ST. MATTHEW PASSION, the Riverside Church Ministry of Music presents on WRVR this month Parts I and II of the Easter-season oratorio. The work is sung in German by a double choir and youth choirs totaling 240 voices, assisted by a full orchestra, and directed by W. Richard Weagly. One of the highlights of the Ministry of Music annual Sunday vespers series, the Passion music was recorded during performance last month for broadcast April 2nd on WRVR's nine o'clock Sunday morning concerts of sacred music, and may be heard as well at 10:45 p.m. on April 1st.

12:00 MC CRACKEN AT MIDNIGHT

Sunday 2

9:00 SACRED MUSIC

J. S. BACH: St. Matthew Passion (Part I) Double choir of 120 voices; Youth choirs of 120; full orchestra. W. Richard Weagly, director. The Riverside Church Ministry of Music

10:45 MORNING WORSHIP
The Riverside Church service
Robert J. McCracken, Minister
This Easter service is being broadcast live by CBS-TV, Channel 2.

12:15 CHORAL MUSIC

12:30 CHURCH WORLD NEWS
With Dick Sutcliffe

12:45 CHORAL MUSIC

1:00 THE MOVEMENT TOWARD CHRISTIAN UNITY
Existing Unity and Issues Involved in More Inclusive Church Union
Dr. John C. Bennett, Union Theological Seminary

1:45 ANNUAL EASTER MESSAGE
Archbishop of Canterbury (a WRVR exclusive in cooperation with the British Broadcasting Corp.)

2:00 INTERNATIONAL FINE ARTS FESTIVAL
An afternoon with the fine arts, from the Broadcasting Foundation of America
THE FRENCH NATIONAL ORCHESTRA (to 3:25)
First Suite from Dardanus. . . . . Rameau
Jean Martinon, conductor
Le Loup (ballet) (excerpt). . . . . Dutilleux
Symphony. . . . . . . . . . . . . Dutilleux
Andre Cluytens, conductor
Scenes from Theseeus . . . . . Mihalovich
Jean Fournet, conductor
PANORAMA OF THE LIVELY ARTS (to 3:50)
GREEK CONTEMPORARY MUSIC (to 4:15)
ISRAEL CONCERT HALL (to 4:45)
PORTRAIT OF A CITY--The Hague (to 5:10)
MUSIC FROM THE PHILIPPINES (to 5:25)
NOTES FROM GERMANY (to 5:40)
NETHERLANDS CHAMBER ORCHESTRA (to 6:10)
INTERNATIONAL BOOK REVIEW AND LITERARY REPORT (to 6:35)
THE AMSTERDAM CONCERTGEBOUW ORCHESTRA (to 8:00)
Variations on a Theme by Haydn . . Brahms
Otto Klemperer, conductor
Don Juan . . . . . . . . Richard Strauss
Eduard van Beinum, conductor
Symphony in D Major, K. 385. . . Mozart
Antal Dorati, conductor
Daphnis et Chloe, Suite No. 2 . . Ravel
Eduard van Beinum, conductor
Concerto Grosso in D Minor, Op. 6, No. 1 . . . Handel
Antal Dorati, conductor

8:00 SERVICE OF WORSHIP
The Riverside Church
Robert J. McCracken, Minister

9:15 ART OF THE ORGAN
Virgil Fox

10:00 RELIGIOUS PLURALISM AND TRI-FAITH UNITY IN A THEOLOGICAL PERSPECTIVE
Will Herberg, Graduate Professor of Judaic Studies and Social Philosophy, Drew University. A Danforth series lecture, Barnard College.

11:00 PREVIEWS OF TOMORROW'S "JUST MUSIC"

12:00 MC CRACKEN AT MIDNIGHT
A DAY OF OPERA AND BALLET
Feature, starting at 1:30
Opera TOSCA of Puccini
Renata Tebaldi, Mario del Monaco, George London,
Orchestra and Chorus of the Accademia di Santa
Cecilia Rome, Francesco Molinari-Pradelli,
conductor (London)

5:00 HARRY EMERSON FOSDICK

5:05 FOLK MUSIC CONCERT WITH THEODORE BIKEL

6:00 LOUIS M. LYONS
Backgrounds of the news with the curator,
Nieman Foundation, Harvard University.

6:15 GORDON GILKEY VIEWS THE NEWS

6:25 RAYMOND SWING COMMENTARY

6:30 CHAMBER MUSIC
Sinfonia Concertante in G Major... Boccherini
London Baroque Ensemble; Karl Haas, conductor
(Westminister)
String Quintet in C Major, Op. 163... Schubert
Budapest String Quartet and Benar Helfatz,
cello. (Columbia)

7:30 COMING OF AGE
For this series about American youth facing the
problems of adolescence, Writer-Director Ben
Park talked with teenagers all over the country,
recording conversations with them, their parents,
teachers and friends. Produced by the Center
for Mass Communication of Columbia University
Press, the programs combine teenage opinions
about such problem areas as drinking parties,
alcoholic parents, gang-fighting, and hopes for
the future, with commentary by experts in
sociology and psychology.
Suburbia in Dismay, Commentary by author and
anthropologist, Margaret Mead.

8:00 THE PHILADELPHIA ORCHESTRA
Eugene Ormandy, conductor (Columbia)
Toccata and Fugue in D Minor... Bach
Sinfonia for Double Orchestra, Op. 18, No. 1...
Bach
Symphony No. 3 in C Minor, Op. 78...Saint-Saens
E. Power Biggs, organist
Symphony No. 6 (in one movement). William Schuman
Symphony No. 4...

9:45 THE NEW ENGLISH BIBLE
Matthew: The Coming of Christ
The new translation of the New Testament read
in its entirety by Robert J. McCracken, Minister,
The Riverside Church. Each reading is repeated
the following evening at midnight.

10:00 THE GOLDEN YEAR
Readings by members of the Poetry Society of
America, from the 50th anniversary anthology
The Golden Year. Gustav Davidson, P.S.A.
Secretary, is host.
Tonight's guest--John Hall Wheelock

10:15 EDUCATION FOR LIVING IN A CHANGING
WORLD
A Psychological Viewpoint. Walter A. Stewart,
Associate Professor, Albert Einstein Medical
School; New York Psychoanalytic Institute;
American Psychoanalytic Association.
A lecture from the Institute for Religious and
Social Studies.

11:00 PREVIEWS OF TOMORROW'S "JUST MUSIC"

12:00 MC CRACKEN AT MIDNIGHT

Tuesday 4

From 9 in
the morning
until 5 pm,
when evening
programs begin.

**Steichen the Photographer**

"I think any living organism, whether it's a dandelion plant, a human being, or a giant Sequoia, is more wonderful than the most marvelous gadgets we have--as a living thing. All living things are more wonderful than anything we make. The other things are all things that we use--they help us to enrich this quality of living that we have. If we don't use them, it's because we're inadequate to what's been given to us by science and industry. I don't say that an artist couldn't make a living out of photographing the gadgets. I think it's human beings
that transform the inanimate into something living. Human beings respond to the good and the evil—to light and to dark—to beauty and truth and the lie. Ah—my! What a rich world that is!"

Edward Steichen, who will be heard on WRVR April 11th at 9 p.m., has for more than six decades pioneered in portrait and commercial photography, gallery designing, and in the recognition of modern art. As director of the New York Museum of Modern Art Photography Department, Mr. Steichen has produced numerous photographic exhibitions toward "meeting and encouraging the ideals and aspirations of the younger photographers" and always "presenting photography as an art form."

His own photographs were refused exhibition in 1902 by the Paris Beaux Arts Salon, despite his one-man exhibit in Philadelphia two years earlier. "Labeled as etchings, photographs were acceptable as art, but as photographs they were not. Rodin, who was my great hero and who over the years exerted a deep influence upon my concepts and aspirations as an artist, termed such an attitude about photographs 'idiotic.'"*

Fifty-five years later Mr. Steichen estimated that well over 5,000,000 people in all parts of the world had seen his "Family of Man" exhibit. He notes that he was "puzzled at first whether 'The Family of Man' would be understood by everyone, but apparently it has been. I think the answer is: the onlooker participates in the exhibition. A Japanese poet once said that when you look into a mirror, you do not see your reflection. Your reflection sees you. Now the people look at these pictures, and the pictures look back at them and see them, so that they become a part of the exhibition. There must be some kind of melting and a fusion between the onlookers and the pictures to account for this fantastic audience it has developed."

In honor of Edward Steichen's 85th birthday (on March 27th), The Museum of Modern Art presents "Steichen the Photographer" a retrospective exhibit of 300 photographs, some not previously exhibited or published, chosen by Mr. Steichen from 30,000 prints and negatives. Ranging in date from 1895 to the present, the photographs include early works exhibited in Philadelphia, London, and Paris; selections from the 1903-17 period when he initiated the introduction of modern art in the United States (at the Photo-Secession gallery, directed by Alfred Stieglitz) and photographs from the period during World War I when he was in charge of American aerial photography; from the Condé Nast period when he was chief photographer for Vanity Fair and Vogue; and from World War II when he was in command of all Navy combat photography. The exhibition shows as well photographs of Mr. Steichen's hybrid delphiniums as exhibited live at the Museum in 1936, and "The Little Tree" series, his most recent work: studies of the shadblow tree at his home in Connecticut, photographed over a period of several years.

The Steichen photographs featured in this month's "Fine Arts Calendar" are reproduced through the courtesy of the Museum of Modern Art. The "Steichen as Photographer" exhibit continues through May 21st at the Museum, open weekdays from 11 a.m. to 6 p.m.; on Thursdays until 10 p.m.; and on Sundays from 1 p.m. until 7 p.m. Mr. Steichen has stated that he believes "the most important function of photography is as a direct communications medium, but with this, stress the importance of the photographer as an artist as a..."
prerequisite in the further and greater development of
photography in this function. One is forced to recognize
that photography, considered purely as an art form,
faced the fierce competition of the other older media.
In direct and certainly in mass communication by images,
photography is without a peer. Man's first language
was written in images on the walls of caves. Photo-
graphy simplifies and enlarges the scope of the image
language."*

* "My Life in Photography, " Saturday Review (March
28, 1959)

**Museums**

**AMERICAN MUSEUM OF NATURAL HISTORY, Central Park
West at 79th St. (Open Mon-Sat, 10 am-5 pm; Sun
1-5 pm)

THE HALL OF THE BIOLOGY OF MAN: sculpture, art-
work, murals, photographs, recorded lectures and
lifesize "Transparent Woman" depict evolution and the
biology of modern man.

JUST MUSIC--good music without comment or commercials--is the theme of Riverside Radio WRVR's new daytime broadcasting project entering its second month in April. Doubling the number of hours the station is on the air, WRVR now begins broadcasting at 9:00 in the morning daily, presenting "Just Music" Monday through Friday and "Just Jazz" on Saturdays until 5 p.m., when regular evening programs begin. On Sunday mornings preceding the live broadcast of the Riverside Church service of worship, WRVR schedules "Sacred Music," recordings of instrumental, organ, and choral works.

Featuring each day a particular genre of music, works of a single composer, the musical talents of one artist, or classical renditions by one of the world's great orchestras, "Just Music" presents classics and light classics throughout the day with interruptions only to identify the works and the station. Greeted with unexpected enthusiasm were the Monday programs in the March series, complete performances of the nine symphonies of Beethoven as interpreted by Arturo Toscanini and the NBC Symphony; Ernest Ansermet conducting the Orchestre de la Suisse Romande; and Otto Klemperer with the Philadelphia Orchestra. Programming lighter classics as well, "Just Music" broadcast recordings of musicals by Rodgers and Hammerstein, Gilbert and Sullivan operettas, concerts by the Boston Pops, and works of Morton Gould.

Saluting outstanding musicians in April, WRVR presents on successive Tuesdays the art of pianists Artur Rubinstein and Wilhelm Backhaus, conductor Bruno Walter, and violinist Jascha Heifetz. On April 12, in honor of the second American tour of the Concertgebouw Orchestra of Amsterdam, "Just Music" offers recorded performances of the Concertgebouw under the batons of Eduard van Beinum, Charles Munch, Pierre Monteux, and others.

Monday operas in the "Just Music" series for April include Puccini's "La Tosca," Verdi's "Aida" and "Il Trovatore," and Mozart's "Don Giovanni." Selections from the symphonies, chamber music, piano works and religious compositions of Mozart will be heard on April 6, and on following Thursdays, the programs feature works of Robert Schumann, Prokofiev, and contemporary American composers including Walter Piston, Edward MacDowell, Deems Taylor, Alan Hovhaness, Henry Cowell, and Randall Thompson.

Friday April 28 will be given to the playing of special requests for classics and light classics, solicited by Riverside Radio in recent issues of the WRVR New York Fine Arts Guide.
