

Instructions for Registering -KSHP Spring Conference May 12 and 13th, 2017

All course evaluations and printing of CE statements of credit will be done with a new web-based system. To use the system, you need to set up your CE account unless you have used the Sullivan University College of Pharmacy continuing education site previously. You then need to register for the CE sessions at the program. This can be done before the program or afterwards. Here are step-by-step instructions for registering for the continuing education site

Note: If you do choose to set up your CE account before the conference, and wish to bring your laptop, I-Pad, or other similar device, you can complete the course evaluations as you go on Friday. Instructions for accessing the course evaluations will be available at the conference.

Step 1 To use the continuing education website, you will need an *e-PID* (electronic Personal ID) number. This is your unique reporting number from the National Association of Boards of Pharmacy's CPE Monitor program. The *e-PID* number and your birth date (month-day) will be needed at ALL continuing education activities from now on. If you don't yet have an *e-PID* number, please go to <http://www.nabp.net/programs/cpe-monitor/cpe-monitor-service/> and do the one-time registration process. Be sure to make note of your *e-PID* number and your password.

Step 2 Go to the continuing education website: <http://ce.sullivan.edu/>
Note: All previous users with an account have been migrated into the new system. Please log in using your email address and use the temporary password of firstnamelastnamezipcode. An example would be janedoe40205

Step 3 As this is your first time on the website, you will need to register in our system. Do this by visiting <http://ce.sullivan.edu/>. You will enter your pharmacist state registration number and email address. You will also need your date of birth (MM-DD) and your e-PID number to create an account.

Step 5

After you have attended the conference, you will need to complete course evaluations for each session. The course evaluations will ask you to evaluate the speaker, whether the session met your needs, whether learning objectives were met, and will ask you to enter a short summary (a sentence or two, at most) about what you learned at the session and how it applies to your clinical practice. **You will also need an access code number for each individual session. Those numbers will be provided at the end of each presentation. Be sure you make note of those numbers.** Instructions on how to access the course evaluations will be provided at the conference.

If you have any questions about how to access the CE software, either before or after the conference, please contact Tina Frederick at the continuing education office. Her e-mail address is TLFrederick@sullivan.edu and her phone # is 502-413-8975.
