Sullivan University College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. Sullivan University College of Pharmacy designates the amount of CEUs (contact hours) listed next to each session. Except where specifically noted, all sessions are designated as knowledge-based learning activities.

CEUs (Contact Hours)

A specific number of hours of CE are available to select from with a yet to be determined number of hours maximum per attendee.

Faculty Disclosure

In accordance with the Accreditation Council for Pharmacy Education (ACPE) Accreditation Standards for Continuing Pharmacy Education and the policy of Sullivan University College of Pharmacy, faculty disclosure of any relevant financial relationships with commercial entities must be given prior to presentation. Full disclosure was not available at the time of printing. Disclosure will be given verbally prior to each presentation.

Attendees will have approximately 6 weeks (June 23, 2017) from the last day of the conference to complete and submit evaluations and learning assessments for the sessions they attended. Evaluations that are not submitted by the deadline will NOT be uploaded to CPE Monitor, the database that stores pharmacy continuing education records. Instructions for completing course evaluations can be found on the [KSHP website](#).

CPE Monitor is a collaborative service from the Accreditation Council for Pharmacy Education (ACPE) and the National Association of Boards of Pharmacy (NABP). CPE Monitor authenticates, stores, and streamlines data reporting and compliance verification for participating boards of pharmacy. Attendees who complete the requirements for earning continuing education contact hours may view and print their records from the CPE Monitor site.

Pharmacists may obtain a unique identification number from NABP (www.nabp.net). This number is used to upload continuing education units to the NABP database. After CPE units are processed by ACPE and NABP, participants will be able to download and print their comprehensive CPE transcript from the CPE Monitor website.
