

**Application Instructions:** Please review the Assignment of Points form prior to submitting your application to ensure you meet the necessary requirements (score) for becoming an IATP Fellow. IATP Fellows are globally recognized for their distinguished accomplishments and consistent dedication to the enhancement of toxicologic pathology as per IATP Bylaws. This application is broken down into three sections: Qualifications, Professional Experience and Recognition of Scientific Leadership. Each section must be filled in completely. Please provide as much detail as possible in each section so that the Accreditation Committee can accurately assess your expertise and experience in toxicologic pathology for each category. If there is a section that is not applicable to you, please indicate in the box provided. Incomplete applications will be returned.

You must submit your non-refundable application fee before your application can be sent out for review. Instructions on how to complete your payment via our secure online payment system will be provided at the end of the application process. We accept all major credit cards.

You will be required to upload a copy of your most recent CV with your application. Your CV should include positions held for the last 5 years. Please note, your CV is being provided as supplemental information and should not be used in place of completing the application. Please do not put “See CV” in any of the section boxes. Doing so will render your application incomplete and it will be returned to you. .

Upon receipt of your application, it will be sent to the Accreditation Committee Chair to review for completeness. Upon approval, it will be sent to the Accreditation Committee for review and scoring. You will receive a decision, in writing, on the outcome of your application within one month of the date submitted. Information on the Academy’s appeal process can be found on the website.

Questions regarding the application process should be sent to the IATP Executive Office at [iatpfellows@gmail.com](mailto:iatpfellows@gmail.com).

**NOTE:** This application is for information and review purposes only. Please complete the online application.

## **SECTION A. QUALIFICATIONS**

**Veterinary or Medical Degree(s)** – 7 points available  
*in this section*

List your Veterinary or Medical Degrees (and year completed) (DVM, MD, BVSc, Dr. med. (vet), or equivalent).

**SECTION A. QUALIFICATIONS**

**Research Degree/Training** – 6 points available in this section

List your research degrees ((state discipline, research area, institution and number of years). For non-degree research, please list the mentor’s name and position; the institution, the number of years and the area of research.

**SECTION A. QUALIFICATIONS**

**Pathology/Toxicologic Pathology Training** – 9 points available in this section

List residency in pathology, if applicable, and on- the-job training. For residency, list institution and years of training. For on-the-job training, provide the name of your mentor and their institution, as well as the type of training (one-on-one, courses, workshops) and the number of years.

---

**SECTION A QUALIFICATIONS**

**Board Certifications** – 5 points available in this section

List your (national/international) Board certifications. Indicate if Boards are in toxicologic pathology or pathology (or a related field such as toxicology), indicate if the Boards were given by written or oral examination and the year obtained. Boards given by Fellow recognitions, (e.g. ATS and other peer-reviewed recognitions) should be listed in the Awards section of the application.

An empty rectangular text input field with a light gray background and a thin border. It features standard scrollbars on the right and bottom edges.

---

## SECTION A. QUALIFICATIONS

### **Continuing Education**- *5 points available in this section*

List continuing education activities related to toxicologic pathology with the number of hours or days for the last 5 years. Continuing education can include organizational, university, professional society-sponsored (STPs, ACVP, BSTP, ESTP, ECVP, JSTP, SOT, ACT, etc.) meetings, courses or other training (e.g. webinars) related to toxicologic pathology.

An empty rectangular text input field with a light gray background and a thin border. It features standard scrollbars on the right and bottom edges.

## SECTION B. PROFESSIONAL EXPERIENCE

### **Peer Reviewed Articles** – *8 points available in this section.*

List your 3 to 4 best peer-reviewed non-review articles and indicate your contribution to each article.

## SECTION B. PROFESSIONAL EXPERIENCE

**Unpublished Author Reports** – 8 points available in this section.

Enter the number of reports (research reports and other internal reports) related to toxicologic pathology that you have authored either as a sole author, primary author, or contributing author. Published papers are excluded from this section. 30 reports is the minimum number required

In the section below, give an overview of the unpublished reports and other documents that you have authored. Study reports or pathology sections of study reports should be categorized as acute toxicity, chronic toxicity, carcinogenicity, reproductive toxicity or special toxicity study reports. Other prepared documents should be categorized as appropriate (e.g. preparation of IND/NDA documents; prepared responses to regulatory concerns or “White Papers” that were prepared to summarize toxicity issues for internal use within a company). For experimental work, most notably academic experimental studies, preparation of progress reports and final reports to granting agencies or other funding sources should be categorized as to type of report. It is very important that your role and contribution for each category of report be identified (e.g. sole author, primary author, or contributing author). You should categorize the types of reports and your contribution, but should not list individual reports since this could breach institutional confidentiality.

An empty rectangular text box with a light gray background and a thin black border. It features standard scrollbars on the right and bottom edges, indicating it is a scrollable area for text entry.

---

## **SECTION B. PROFESSIONAL EXPERIENCE**

### **Reviews and Books Chapters** - 7 points available in this section

List major reviews and book chapters relevant to toxicologic pathology, especially as first, second, or last author and your role in each contribution.

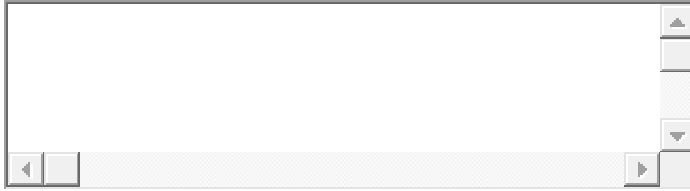

An empty rectangular text box with a light gray background and a thin black border. It features standard scrollbars on the right and bottom edges, indicating it is a scrollable area for text entry.

## **SECTION C. RECOGNITION OF SCIENTIFIC JUDGEMENT**

### **Editorial Responsibilities** – 5 points available in this section

List your editorial responsibilities (Editor, Associate or Section Editor or Editorial Board Member). Include the name of the journal and the number of years served in each position. If you have less than 5 points in this section (Editors receive 1 point per year; Associate or

Section Editors receive .75 points per year; and Editorial Board members receive .5 points per year), also list the number of manuscripts you have reviewed, and the journals that you have reviewed for, over last 5 years.

An empty rectangular text box with a light gray background and a thin black border. It features a vertical scrollbar on the right side and a horizontal scrollbar at the bottom, both with standard arrow and track icons.

### **SECTION C. RECOGNITION OF SCIENTIFIC JUDGEMENT**

#### **Invited Papers, Presentations, Seminars, and Posters** – 9 points available in this section.

List invited papers, seminars, poster discussions (maximum of 10) and briefly describe content and forum for each item, as well as your contribution if multiple authors are listed.

An empty rectangular text box with a light gray background and a thin black border. It features a vertical scrollbar on the right side and a horizontal scrollbar at the bottom, both with standard arrow and track icons.

### **SECTION C. RECOGNITION OF SCIENTIFIC JUDGEMENT**

#### **Scientific Leadership** – 12 points available in this section

List activities relevant to toxicologic pathology such as committee volunteer, officer, or presenter for societies; scientific panels for government agencies; and/or participation in working groups that impact regulatory issues.

An empty rectangular text input field with a light gray background and a thin border. It features a vertical scrollbar on the right side and horizontal scrollbars at the top and bottom.

## **SECTION C. RECOGNITION OF SCIENTIFIC JUDGEMENT**

### **Awards-** *5 points available in this section*

List awards and other recognitions relevant to toxicologic pathology, toxicology or pathology and the year attained. Include any Boards given by fellow recognition or peer review (e.g. Academy of Toxicological Sciences, etc.) and the year attained in this section.

An empty rectangular text input field with a light gray background and a thin border. It features a vertical scrollbar on the right side and horizontal scrollbars at the top and bottom.

## **SECTION C. RECOGNITION OF SCIENTIFIC JUDGEMENT**

### **Mentorship** – *5 points available in this section*

For Mentors - list and provide specifics of mentorship in pathology/toxicologic pathology of less experienced pathologists (formal and informal) and students (veterinary students, residents, PhD students).

For Mentee - indicate name, position when mentored, current position if any (title, employer) and your role and period mentored.

Mentoring is defined as a professional relationship in which an experienced person (the mentor) assists another (the mentee) in developing specific skills and knowledge that will enhance the less-experienced person's professional growth in toxicologic pathology.

## SECTION C. RECOGNITION OF SCIENTIFIC JUDGEMENT

### **Self-Assessment of Contributions to Toxicologic Pathology & Society** – 9 points available in this section

Provide a short paragraph describing highlights of your professional achievements and contribution to the field of toxicologic pathology, to science and to society. Include innovative fields of toxicologic pathology if applicable. Cite references (including internal reports), awards, and committee leadership as appropriate.

Examples:

- Description of a new type of drug-induced pathology, including potential mechanistic studies with appropriate references.
- Contribution to a special professional STP committees (like INHAND, Regulatory affairs, annual meetings, etc.).
- Use of expertise in toxicologic pathology to impact other scientific areas or society in general.
