

Emory Geye is from Rising Star, Texas. A transfer from Blinn College in Brenham, Emory's chosen degree is Plant and Soil Science with an emphasis on Crop Science. An avid outdoorsman, Emory enjoys hunting and fishing and being a steward of the land. He currently works on his family's 3000 plus acre farm when he can, and has his own cotton plot this fall nearing harvest. He has been active in his home community delivering holiday meals to shut ins and participating in local toy drives. He is a recipient of the Presidential Scholarship here at Texas Tech as well as the Dalrymple Soil Conservation Award Scholarship. While on the livestock judging team at Blinn, Emory was a top ten finisher at several national contests as well as top finisher in the collegiate FFA contests in 2017. Emory has completed internships on local farming operations in the Lubbock/New Mexico area as well as working on the family farm since he was old enough to drive a tractor. He also raises Registered Angus Cattle and is a member of the American Angus Association. Upon completion of his degree at Texas Tech, Emory plans to return to Central Texas to begin his own farming operation and an independent crop consulting business.
