

COVID Safety Protocols

During the September meeting we will execute the following best practices to help you stay healthy and to reduce exposure and risk. We are closely monitoring COVID-19 developments, specifically the Delta variant. We will continue to evaluate our safety protocols and will add enhancements as needed to ensure the health & safety of our onsite attendees.

- Room set will follow social distance between meeting attendees as established by the authorities
- Banquet set-up will follow social distance and service protocols
- Staff will monitor recommendations from health authorities and the state, local, and city officials, and protocols will be altered to meet changes in the standards
- Visit www.kbcmpi to review safety protocols updates

Attendees are asked to:

- Please stay home if feeling feverish or coughing prior to the meeting
- We currently encourage all attendees to wear a mask covering your nose and mouth
- We encourage attendees to adopt the fist or elbow bump vs. a handshake or hug
- Maintain social distancing
