Cookies

A cookie is a small data file containing a string of characters that is sent to your computer when you visit a website. When you visit the website again, the cookie allows that site to recognize your browser. The length of time a cookie will stay on your computer or mobile device depends on whether it is a "persistent" or "session" cookie. ATA uses both types of cookies. Session cookies will only stay on your device until you stop browsing. Persistent cookies stay on your computer or mobile device until they expire or are deleted. We use the following types of cookies on our website.

- Strictly necessary cookies. These cookies are essential for you to browse our website and use its features. Without these cookies, services like shopping baskets cannot be provided.
- Performance cookies. These cookies collect information about how you use our websites. This data may be used to help optimize our website and make it easier for you to navigate.
- Functional cookies. These cookies allow our websites to remember choices you make while browsing and personalize your experience. We may store your geographic location in a cookie for instance, to ensure that we show you the website relevant to your area.
- Third Party cookies. Third party cookies are those placed by websites and/or parties other than ATA. These cookies may be used on our website to improve our products or services or to help us provide more relevant advertising. These cookies are subject to the respective privacy policies for these external services, for example, [Facebook Data Use Policy](#) or LinkedIn

ATA may work with third-party advertisers that use cookies and similar technologies to provide more relevant advertising about ATA Products and Services on our websites and across the internet. To provide this “interest-based advertising”, parties combine non-personal data about your online activities over time which helps cater advertising that we deliver to you. Examples of this may include an ATA advertisement on a Facebook page, or a Google owned page such as a search results page or YouTube, or on a site within Google’s advertising network. We do not share your personal information as part of this process. Where necessary, we obtain your consent for this process.
