TIP 1: Register by December 18 to lock in the early registration rate.

Registration rates increase as the 2027 Convention approaches, so registering early means greater savings.

TIP 2: Make sure your SCSHA Membership is current before you register!

Your membership could practically pay for itself through discounted Convention registration! In fact, joining SCSHA and registering at the member rate may cost less than registering for the Convention as a nonmember. Even better, your membership gives you access to the benefits of SCSHA throughout 2027, connecting you with a professional community and resources that support the communication sciences and disorders field.

Convention Pricing and Group Registration Instructions

Is your organization paying for three or more employees or students to attend the SCSHA Convention?

Follow these steps to receive one invoice and easily register your entire group.

Step 1: Submit Your Group Roster
Your organization's Registration Coordinator should email info@scsha.co with a list of the first and last name for everyone to be registered. All individuals on your list will be included on one invoice.

Step 2: Receive Your Group Invoice
The SCSHA Conference Coordinator will verify membership (for discounted registration), prepare one invoice for the entire group and email it to your Registration Coordinator.

Step 3: Submit Payment
Pay the group invoice by check or credit card online. Once payment is received, SCSHA will email your Registration Coordinator a Group Discount Priority Code and instructions for sharing it with your team to set up their individual registrations.

Step 4: Complete Individual Registrations
Each person on your approved group roster must complete their own Individual registration using the Group Discount Priority Code. The Group Code covers the individual registration fee for the individuals whose names were provided to SCSHA pm your list

Important: Submitting a group list and paying the invoice does not complete individual registrations. Each person must register individually using the Group Code provided.

Step 5: Meet the Late Registration Deadline
All individual registrations must be completed by January 18, 2027.

Please allow enough time for your organization to submit the roster, receive and pay the invoice, distribute the code, and ensure that everyone completes their registration before the deadline.
