

For your convenience, the AAPC has approved the sessions for both a core credential and a specialty credential. You may use a specific session for your specialty CEUs or for your core credential CEUs. The use of one session for both specialty and core CEUs is not permitted.

Please Note: Coders may claim all of their CEUs earned from Core A, the technical side of professional medical coding. Core B, which addresses general business skills, can comprise no more than 33% (1/3) of the total CEUs earned per year. Therefore, if one core credential is held, 12 of the 36 total CEUs due every two years may be from Core B. Core approvals are identified by either an "A" or a "B" at the end of an index number.
