- o Fast Scanning & Novel Methodology
- o Food Science & Technology
- o Thermosets
- o Thermoplastics
- o Inorganic & Ceramic Materials / High Temperature Analysis
- o Instrumentation
- o Pharmaceuticals
- o Polymer Stability & Evolved Gas Analysis
- o Rheology and Viscoelasticity
- o Thermal Conductivity
- o General Session
- o General Poster Session
- o Student Poster Session

Location

Newark, DE is centrally located on the I-95 corridor, close to Philadelphia, Baltimore and Washington D.C. Many universities and industries are a short drive away. The conference will start on Monday Aug 7th with the reception/mixer. The exhibit will be in the central atrium area of Clayton Hall, providing maximum traffic between sessions. The conference is a short walk to the Newark downtown area with restaurants and entertainment. White Clay Creek State Park is nearby with 37 miles of nature trails.

Housing

Both dormitory style (lower cost) and hotel rooms are available close by.

Transportation

Newark Delaware is between the Philadelphia and Baltimore airports. There is free parking available at Clayton Hall.
