BIOGRAPHY:

Biography

Beth Wolskij is Vice President Product, Clearinghouse with Office Ally. Beth is a healthcare technology leader with over 25 years of experience in product management, payer relations, and corporate development. She has held executive roles at companies such as Passport Health Communications, Experian Health, Office Ally, PNT Data, UHIN, eSolutions Inc., Allscripts, CCH-Mediregs, MedSolutions, Health 123, Saint Thomas Hospital, and Dade County Public Schools. Beth is known for her ability to build strong industry relationships, optimize transaction workflows, and drive revenue growth.

WHY YOU WANT THE POSITION/WHAT IS YOUR VISION

I envision the Cooperative Exchange evolving into a trusted forum where clearinghouses—our industry’s essential business partners—can openly share and address the challenges of today’s rapidly changing healthcare landscape. Building on the strong foundation laid by previous board members, I hope to foster deeper collaboration and transparency among members.

To strengthen our collective impact, I propose hosting more in-person member-only meetings. These gatherings would help build stronger relationships and meaningful connections, enabling us to better support one another and the industry at large.

Some of the key challenges I believe we can tackle together include:

1. Navigating Regulatory Complexity

Collaborating to interpret and respond to evolving federal and state regulations, including interoperability mandates, data privacy requirements, and payer-provider compliance standards.

2. Enhancing Data Security and Risk Mitigation

Working together to strengthen cybersecurity practices across clearinghouses, ensuring the protection of sensitive healthcare data and reducing exposure to threats and breaches.

3. Addressing Payment Reductions Across the Ecosystem

Partnering to understand and respond to the increasing reduction in payments from both submitters and receivers, and identifying strategies to stabilize financial flows and support sustainable operations.
