

SOCIETY *of* PALLIATIVE CARE PHARMACISTS

An organization for pain and palliative care pharmacist practitioners

Our Mission

The Society of Palliative Care Pharmacists (SPCP) promotes exceptional patient care by advancing pain and palliative pharmacists through education, development and research in collaboration with the transdisciplinary team.

Our Vision

Patient Care - SPCP strives for excellence in patient care by: optimizing pharmacotherapeutic outcomes, promoting best practices in pain and palliative care, and supporting quality of life.

Collaboration - SPCP shall support patient-centered transdisciplinary pain and palliative care teams with the pharmacist as an integral member of the team.

Education and Mentorship - SPCP shall provide education and training for the professional development and advancement of pain and palliative care pharmacists and other healthcare professionals.

Leadership - SPCP shall develop future pharmacist clinicians and leaders in pain and palliative care.

Development - SPCP shall advocate for legislation and public policy impacting pain and palliative care pharmacists. SPCP shall advocate for access to care for the pain and palliative care patient population.

Research - SPCP shall facilitate research and dissemination of information that promotes the impact of precision pharmacopalliation and the pharmacist as an essential part of the transdisciplinary team.

Benefits of Joining

Practice enhancement - access to educational webinars, CE, practice development toolkits, and representation internal and external to the profession of pharmacy

Education - quarterly CE accredited journal club series and free access to the Journal of Pain and Palliative Care Pharmacotherapy

Networking - access to pain and palliative care pharmacy specific discussion boards, communications, and announcements
