

# Uber Technologies | Company Profile

## General Information

pbID: 51136-75

### Description

Provider of a location-based mobile application designed to connect riders and transportation providers. The company's on-demand ride-hailing application allows passengers to request a variety of personal transportation options that are fulfilled by a network of contract drivers, enabling users to have access to a convenient, fast and affordable mode of transportation.

### Company Status (as of 16-Aug-2017)

The company is reportedly in talks to raise up to \$12 billion through a primary and secondary offering as of August 14, 2017. The primary offering could range from \$1 to \$1.5 billion while the secondary portion could range from \$2 to \$10 billion. Rumored investors include SoftBank Group, Didi Chuxing, Dragoneer Investment Group and General Atlantic. Earlier in April, the company received an undisclosed amount of financing from Axel Springer (DB: SPR). Prior to the corporate round, the company received \$30 million of venture funding from Kumpulan Wang Persaraan of Malaysia on September 22, 2016. The company is being actively tracked by PitchBook.
