### ***Our PUBG Mobile Hacks are Undetectable***

Even though the game developers have been trying to stop the many exploits that are used daily by savvy users there are still many other hacks that remain undetected and undetectable. Our tools are the only ones that don't risk your account being banned or eliminated. Other systems may be

compromised with the recent crackdown on hackers and bots and can be a liability for anyone trying to exploit the game currencies like we do.

Many accounts are being banned because they use unreliable tools to generate free UC. The survey released does not present some details such as the time of ban on accounts. However, the data impresses because of the high number of banned profiles in short periods of time. For example, between October 2 and 8 alone, more than 3.7 million accounts were banned from PUBG Mobile, which is the period with the most suspensions since August 20.

PUBG Corp. explained that PUBG Mobile counts "Project: Ban Pan" as one of its main tools to combat players seeking advantages in illegal programs. Thanks to the software, players can watch the replay of their deletion and report to the company if they have seen anything suspicious in the video.

PUBG Mobile has banned more than 29 million cheating players since August 2020. The survey was made by the person responsible for the game for TechTudo and considers punishments given between August 20 and December 10, 2020. The company also reported that due to the lack of disclosure in the period between September 25 and October 1, this number may exceed the mark of 30 million banned accounts. Battle Royale is available for download on Android and iPhone (iOS) phones and prohibits players from using hacks and cheats.
