« Ten thousand dots of ugly ink, to make old Mi [Mi Fu] drop dead of vexation.

Lots of stringy, flaccid strokes to make Dong Yuan fall sown with laughter.

The distance does not work; there's no sense of landscape's windings and turnings. The foreground is too cluttered; all you see are a few rude shapes of houses. Emancipate your mind's eye, once and for all, from conventional moulds,

Like the immortal who rides the wind, his flesh and bones etherealized. »
