Project/ Location:

Scope of Services:

PT Semen Andalas/ PT Lafarge Cement Indonesia

Aceh Cement Plant/ Aceh Province, North Sumatra, Indonesia

Field Engineering, Construction & Project Management

Aceh Cement Plant at a glance:
PT Lafarge Cement Indonesia reconstructed the Aceh Cement plant (daily production 3600 tons) which was partly destroyed by the 26Dec2004 tsunami, and constructed a new 30 MW coal fired power plant.

ARAMIS Scope of Work:

This is a brown field project as the construction was rebuilding on the remaining of the existing cement plant building structure, which involves demolition work and reconstruction.
