

FERRIS STATE UNIVERSITY

MICHIGAN COLLEGE OF OPTOMETRY

Dear Alumni and Friends,

Because of this year's COVID-19 pandemic, the Summer CE 2020 is being held **virtually via Zoom on Saturday May 9, 2020 and Saturday May 16, 2020**. The dates have been moved to two Saturdays so we can include those optometrists who either work or volunteer as first responders or health care workers at hospitals and clinics seeing COVID-19 patients during the week. As always, we greatly appreciate your financial support of our annual CE meeting. Your contributions go towards student scholarships and our professional development fund. Without your support, we would not be able to continue our mission of educating tomorrow's optometrists.

Summer CE 2020 is a COPE approved CE event which will have 7 hours of continuing education each day including 2 hours of pain management. COPE has enacted a [temporary rules modification](#) which allows virtual continuing education meetings to count as "live" CE because we are hosting the event via an interactive distance learning format (Zoom). The Summer CE event is being held on Saturday, May 9, 2020 and on Saturday, May 16, 2020. The event **features 14 hours of continuing education (11 hours are pharmaceutical management including 2 hours of Pain Management)**.

Our registration materials is available on our CE homepage (www.ferris.edu/mco/ce). We offer an early registration discount until May 1, 2020. All speaker's notes will be available on-line (you will receive a link to the notes via email just prior to the lecture date). Instructions for how to use Zoom for our virtual meeting will be provided as well.

Saturday May 9, 2020

- 9:00 - 10:00 am.... **Pharmacology of Systemic Drugs with Ocular Side Effects** - Jennifer Lamberts, PhD
