A Letter from the OMS Committee Chair

Dear Friends,

On behalf of the *Optometric Management* team, I would like to invite you to OMS. The education will once again be amazing with clinical courses, including three courses from returning OMS speaker, Dr. Andrew Lee. In addition, we will have courses that are focused on you and your teams. We are excited to continue our emphasis on clinical management with a real-life practicality that you can implement in your office tomorrow.

The education, which includes transcript quality, Florida required Jurisprudence and Medical Errors, and a total of 35 hours of CE, is just the beginning. What brings everyone back year after year is the camaraderie with colleagues and vendors (and also great food), which is unmatched.

As much as OMS 2024 was fabulous, 2025 is not to be missed. We will return to Disney's Yacht & Beach Club to, once again, feature amazing speakers and offer options for transcript quality and practice management education.

I know I will see you there, and I hope you'll also bring your teams. Each year, my team looks forward to OMS. In fact, we plan a year ahead for them to join me for Friday and Saturday classes and Sunday fun. The symposium is a wonderful end-of-year reward for your team's hard work.

Here are the 2025 details:

- Event dates: Nov. 13 to Nov. 16, 2025.
- Bring your team for our Team Focus sessions on Saturday.
- Get ready to learn while your family has a magical time at Disney.
- Bring a friend, so you can share in the fun.
- Register early because rooms are limited.

If you were with us in 2024, then you know the entire Conexiant team puts their hearts and more into making OMS an event you will always remember. We're committed to that same level of excellence this year, making OMS 2025 an event that is life changing, bringing value to you, your patients, and your practice.

I look forward to seeing you there.

Sincerely,

APRIL JASPER, OD

OMS Education Committee Chair

Chief Optometric Editor, Optometric Management

Reasons to Attend OMS 2025

► Education for You and Your Staff

As an eye care professional working in collaboration with members of your practice, you need—and deserve—world-class education focused on higher-level thinking and practical applications in the patient setting. At OMS, we use this as a guiding principle when planning every CE session we offer.

► Expand Your Network

At a time when evolving challenges test our limits as people and professionals, it's more important than ever to come together to support and revitalize our practices. Nothing can replace the value of face-to-face interactions when you're looking to make connections.

► Enrich Your Experience

Get answers and resources by interacting with representatives at leading eye care companies and organizations in the Exhibit Hall.

Where Clinical Excellence Meets Family Fun—OMS Attendee Testimonials

 “This is the only conference I regularly attend for the CE and to get together with friends, as we are all Disney fans. I’ve already requested time off for the next one...”
– OMS Attendee

 “We make this our annual trip — I get my CE, and the kids get Disney. It’s a win every year.”
– OMS Attendee

 “This event delivers the highest value I’ve seen in any optometry CE program. I appreciate the actionable content.”
– OMS Attendee

Session Topics Include:

Glaucoma Retinal Imaging & Diseases Artificial Intelligence
Ocular Nutrition Ocular Surface Diseases Medical Errors Florida
Jurisprudence Dry Eye Myopia Management Patient Education

**New to OMS?
You’re in Good
Company!**

► **Nine out of 10** first-time attendees would recommend the Optometric Management Symposium to their peers.

► **A remarkable 95%** of first-time attendees reported becoming more effective clinicians after participating. Many left with practical tools and clinical strategies to implement immediately.

► **Real Education.** Real Results. OMS Doesn’t Just educate. It elevates.

► Every year, attendees leave OMS with **ready-to-implement ideas**. Whether it’s cutting-edge AI, diagnostic innovation, or practice growth strategies; OMS is where your clinical confidence evolves.
