

Indiana Optometry Annual Spring

Friday, April 21, 2017

7:30 – 9:30 am Registration & Continental Breakfast

9 – 10 am

Prescribing for a Preverbal Pediatric Population

Valerie Kattouf, OD, Chicago, IL

COPE Qualified 49483-FV, 1 Hour IOB

You will learn prescribing options for infants and toddlers through a systematic analysis and case examples of hyperopic, myopic, and astigmatic refractive errors. Prevention and treatment of strabismus and amblyopia in regard to proper refractive correction will be stressed. You will be presented with both the science and art of optometric prescribing for young patients. Multiple methods of treatment including spectacle, contact lens, and occlusion will be reviewed.

10 – 11 am

Prescription Formulas for the Pediatric Patient

Valerie Kattouf, OD, Chicago, IL

COPE Qualified 50118-PH, 1 Hour IOB and Legend Drug

This course will review the most commonly available ocular medications in the pediatric population. Diagnostic, antibiotic, and allergy agents will be presented with the age approvals, proper dosage, and side effects of each discussed. The presentation will conclude with the anterior and posterior segment pathology frequently diagnosed in the pediatric population and proper treatment and follow-up care for each.

11 am – Noon

iStrain - What Effect Do Today's Tablets and Media Devices Have on Vision

Valerie Kattouf, OD, Chicago, IL

COPE Qualified 45941-FV, 1 Hour IOB

Today's world presents a variety of challenges in regard to vision usage. You will learn the effect of today's exponential use of media on children in regard to vision and academics. Common visual symptoms and the diagnosis and treatment of the accommodative and binocular vision issues that cause them will be reviewed. The information shared will aim at allowing practitioners to give the proper treatment to patients and the proper advice to parents who ask about the effect of the digital age on our vision.

Noon – 2 pm Indiana OPTOMETRY Awards Luncheon

Incoming President's Speech and Presentation of Awards

2 – 4 pm

Myopia Control

Jeffrey Walline, OD, PhD, Columbus, OH

COPE Qualified 41946-GO, 2 Hours IOB

Information about the latest theories of myopia control will be presented, along with results from a variety of clinical trials and clinical studies. All of the information will be summarized for clinical consumption and presentation to curious patients.

4 – 5 pm

Fitting Children with Contact Lenses

Jeffrey Walline, OD, PhD, Columbus, OH

COPE Qualified 50409-CL, 1 Hour IOB

This course will give the reasons for fitting myopic children with contact lenses, describe ways to interest children and parents in contact lens wear, provide tips for making it easier for children, include evidence of the benefits of contact lens wear for children, and discuss risks associated with contact lens wear. At the end of the class, eye doctors should be comfortable talking to parents about contact lenses for their children.

5 – 7 pm

Welcome Reception & Exhibit Hall Open

Support provided by Eye Surgeons of Indiana

Saturday, April 22, 2017

7:30 – 9 am House of Delegates (includes breakfast)

7:30 – 9 am Registration & Continental Breakfast

9 – 11 am

A Critical Evaluation of the Optic Nerve in Glaucoma Clinical Implications of Disc Hemorrhages in Glaucoma

Austin Lifferth, OD, The Villages, FL

COPE Qualified 47015-GL, 1 Hour IOB and Legend Drug

COPE Qualified 49383-GL, 1 Hour IOB and Legend Drug

A systematic evaluation of the optic nerve is often the first step in making the diagnosis for glaucoma. This presentation is a clinically relevant discussion regarding key qualitative features that are crucial to consider when evaluating the optic nerve for glaucoma. (Note: These are two separate one-hour courses.)

11 am – 2:30 pm Trade Show Luncheon

Featuring fabulous raffle prizes and IUSO Quiz Bowl Competition

2:30 - 4 pm OD/Student Networking Mixer

If you're looking for an extern, associate or summer help, contact the IOA Office at (317) 237-3560 to be included in this networking opportunity with IU School of Optometry students.

2:30 – 3:30 pm

Electrophysiology in Vision: How VEP and ERG Can Impact Your Treatment Decisions

Jim Thimons, OD, Fairfield, CT

COPE Qualified 47159-PD, 1 Hour IOB and Legend Drug

This course provides a review of testing modalities and their impact on determining functional changes in vision that precede structure and vision loss to support earlier diagnosis, treatment and management.

3:30 – 5:30 pm

Controversies in Glaucoma

Jim Thimons, OD, Fairfield, CT

COPE Qualified 51598-GL, 2 Hours IOB and Legend Drug

This course discusses several issues facing optometrists when diagnosing and treating glaucoma, including the role of various pharmacological agents, co-managing surgical interventions, the use of technology, and incorporating the latest research.

5:30 – 7:30 pm President's Reception

Support provided by Eye Specialists of Indiana

Indiana
OPTOMETRY

120th Annual Spring Convention

You're Invited...

Indiana OPTOMETRY's 120th Annual Spring Convention

*April 21-23, 2017
Sheraton Indianapolis Hotel
at Keystone Crossing*

8787 Keystone Crossing, Indianapolis, IN 46240

Join the Indiana Optometric Association for this special event located on the north side of Indianapolis. Offering 15 hours of COPE-qualified continuing education for ODs and six hours of training for technicians, opticians and staff, this year's event includes the Annual Awards Luncheon, a grand exhibit hall, the House of Delegates meeting and social gatherings, as well as the opportunity to take advantage of the convenient skywalk connection to The Fashion Mall, which offers more than 100 upscale stores and restaurants. Once again, the Indiana University School of Optometry students will host their Quiz Bowl competition during the Trade Show Luncheon. Register now! It's an event you won't want to miss!

April 21-23, 2017

**Sheraton Indianapolis
Hotel at Keystone Crossing**

g Convention

Sunday, April 23, 2017

7 - 8 am Past Presidents' Breakfast
Support provided by Interstate Optical

7 - 8 am Breakfast and Speaker
Support provided by Bausch + Lomb
Enjoy a hearty breakfast and a presentation by Brad Oatney, OD, Columbus, OH, who will speak on the topic "Sights of Innovation: Focusing on Astigmatism."

**8 - 10 am My Doc Told Me to Get an Eye Exam Because...
Bruce Onofrey, OD, Houston, TX**
COPE Qualified 50107-PH, 2 Hours IOB and Legend Drug
Many non-ophthalmic medications can produce visual side effects. Some of these drugs have the potential to produce devastating loss of vision or ocular side-effects that can lead to loss of visual function. This lecture will discuss the most important of these drugs and what the clinician needs to know to prevent these visually dangerous side-effects.

**10 am - Noon GLC, NOT Just IOP, Think DPP, OMG
Bruce Onofrey, OD, Houston, TX**
COPE Qualified 52137-GL, 2 Hours IOB and Legend Drug
POAG is a major cause of blindness. Its proper management requires a thorough understanding of the pathophysiology of the disease and the pharmacology of the drugs used to treat this condition. It is imperative that the clinician be familiar with the most recent studies used to determine the risk of developing the disease and the risk of progression of the disease. These issues will be covered in this evidence-based presentation.

Paraoptometrics CE

Saturday, April 22, 2017

7:30 - 9 am Registration & Continental Breakfast

Presentations by Kris Kerestan, OD, Cincinnati, OH
9 - 10 am Breakthrough Technologies on the Horizon
Come ready to be amazed by technologies emerging in the vision and health care industry. From smart contact lenses to new surgical procedures to a simple blood test to detect cancer, the potential to completely transform medicine certainly exists. These technologies are laying the foundation for continued medical advances for years to come. 1 NCLE

10 - 11 am Can My Medications Cause Vision Problems?
Learn about some of the most common systemic medications that can cause vision problems, specific visual side effects these medications have, and how to minimize visual loss while taking these medications. 1 ABO, AOA CPC

11 am - Noon The Emerging Role of Diet and Nutrition in Vision Care
This course teaches the five essential nutrients which promote healthy vision and reduce the risk of developing and slowing progression of specific eye diseases. These nutrients, their dietary sources, their effects on vision and their ocular health benefits will be discussed. 1 ABO/NCLE, AOA CPC

**12 - 2:00 pm Lunch and Exhibit Hall
(included in registration)**

2 - 3 pm Eye Care Jeopardy - A through Z
Understand and identify a variety of ocular conditions from A-Z, including both common and rare clinical ocular conditions, their signs and symptoms and treatment options. You will have the opportunity to participate in a live game of Eye Care Jeopardy to test your knowledge! 1 ABO, AOA CPC

Presentations by Deborah Klug, Grand Rapids, MI
Support provided by Transitions Optical, Hoya Vision and SEIKO

3 - 4 pm Using Creativity to Differentiate Yourself From "Me Too" Practices
Differentiating your practice is all about creativity. This course dissects each point of patient interaction and illustrates how practices can differentiate from their competition and other "me too" practices to create truly remarkable patient experiences. 1 ABO/NCLE, 1 AOA CPC

4 - 5 pm Strategies for Marketing in a Digital World

Marketing is fundamentally changing. While in-office brochures and printed PDFs are important, if you are relying only on these tactics, you're missing out on the excellent opportunities the digital world has presented for connecting with and educating your patients. From email marketing and texting to social media, websites and a marketing plan, now is the time for eye care professionals to rethink, experiment and innovate the way they market their practices. Course is designed to provide proven strategies and tools to help you achieve your practice growth goals. 1 ABO/NCLE, 1 AOA CPC
