President's Invitation

Join members and colleagues at our 2015 Annual Conference & OPTOFAIR. Drs. Mahnia Madan and Monisha Lal and the rest of the CE committee have worked hard to provide a variety of high quality continuing education sessions for our Doctors of Optometry and Optometric Staff.

2015 is a special year for OPTOFAIR as we celebrate its 35th Anniversary and pay tribute to the late Dr. Sherman Olson, whose vision brought about the first tradeshow in 1980. OPTOFAIR will feature the theme "CARNIVAL". We welcome you to join us on the midway for mini carnival games, popcorn and other goodies. Our exhibitors are excited to show you their products and services and we thank them for making this event possible. It'll be a great weekend filled with fun activities where you can catch up with your friends and colleagues. I look forward to seeing you February 28 – March 2, 2015!

Sincerely,
Dr. Sherman Tung, President

Conference Chairs' Message

For BC Doctors of Optometry's 2015 Annual Conference & OPTOFAIR we are excited to announce a fantastic list of speakers bringing with them a new set of interesting and engaging topics. We look forward to a great weekend full of new information, interesting updates and of course, some fun!

We would like to thank Drs. Jennifer Durst, Caroline Kriekenbeek, Mike Petrik, Jolene Sun, Sherman Tung, Sharon Wong and Cleo Yeh for their input into this year's program. We look forward to seeing you at the conference!

Sincerely,
Drs. Monisha Lal & Mahnia Madan

Hotel Parking

Self-Parking available at 1620 Bayshore Drive (across from the hotel driveway). Special parking rates available to all delegates and attendees – please show your Delegate Badge upon exiting from the parkade.

- 24 Hour Rate: \$25.00
- Day Time (5am – 5pm): \$15.00

Why Attend?

The Annual Conference & OPTOFAIR is a great opportunity to learn and catch up with colleagues. The conference provides 28 courses, up to 36 hours of CE credits including 30 hours of COPE approved credits that are available to optometrists. The Association's Annual General Meeting is on Sunday, March 1, 2015. Hours are electronically tracked and your CE credit report will be forwarded to you after the conference.

Join us in celebrating the 35th year of OPTOFAIR with a special tribute to the late Dr. Sherman Olson on Saturday, February 28, 2015, from 1:00 – 5:00 pm. Dr. Olson brought us the very first OPTOFAIR in 1980 and it has since become the biggest ophthalmic tradeshow in

Western Canada. The **CARNIVAL**-themed event will give you the opportunity to connect with industry suppliers, while enjoying fun games and tasty treats. Be sure to attend the BC Wine Event at 3:30 pm.

Introducing "Member Mixer" a networking opportunity on Saturday, February 28, 2015 from 8:00 – 10:00 pm. Come mingle with your colleagues and meet your Board of Directors in a casual and relaxing environment.

Course Descriptions

Doctors of Optometry Program

Saturday, February 28, 2015		
Hosted Breakfast CE		
7:30 - 8:25 am	<p>B1 1CE, COPE: 42375-PS Early Detection of Myriad Retinal and Choroidal Disorders with Fundus Auto Fluorescence <i>Jerome Sherman, OD</i></p> <p>Fundus AutoFluorescence is a novel, non-invasive imaging method that yields abnormalities that are often invisible to ophthalmoscopy and fundus photography. It allows mapping of lipofuscin distribution in the retina which are crucial findings in retinopathies.</p> <p><i>Surpported by an unrestricted education grant from Optos Inc.</i></p>	<p>B2 1CE The 'Not-So-Young and Restless': Tips on How to Grow and Expand your Contact Lens Business to New and Existing Patients <i>Pavan Avinashi, OD</i></p> <p>TBA</p> <p><i>Hosted by Alcon Canada Inc.</i></p>
	Optometrists Track 1	Optometrists Track 2
8:40 - 9:35 am	<p>OD1 1CE, COPE: 43117-GL Recent Advances in Glaucoma Surgery <i>Darren Behn, MD</i></p> <p>This course will update practitioners on recent advances in glaucoma surgery. Cases will be presented where appropriate and recent evidence will be reviewed.</p>	<p>OD2 1CE, COPE: 43623-GO Effects of Light Radiation on the eye and Other Considerations – A Review and Some Things New <i>Trevor Miranda, OD</i></p> <p>Beyond the Visible enables the participant to get a full update on all lights: Gamma, X-ray, UV, Blue; via a description of the positive and negative effects of light on the human body, and the multitude of preventative measures. This talks about improving lives by improving sight.</p> <p><i>Supported by an unrestricted education grant from Essilor Canada Ltd.</i></p>
9:45 - 10:40 am	<p>OD3 1CE, COPE: 34713-AS Allergy, Dry Eye or Both <i>Milton Hom, OD, FAAO, FACAAl (Sc.)</i></p> <p>Allergies or dry eye? New research shows that up to 60% of patients have both. Learn new ways to simplify potentially confusing diagnosis. Topics include treatment algorithms, TOSS/OSDI scoring, the rhinitis connection, polypharmacy and indoor environmental allergies.</p>	<p>OD4 1CE, COPE: 43911-SD OCT Bootcamp For Today's Optometry Practice <i>Komal Mahnia Madan, OD, FAAO</i></p> <p>How many ophthalmic imaging tests can claim the following: non-invasive, non-contact, no radiation, painless, fast, reliable and easy to interpret? This course is designed to provide an update on the latest in OCT technology and demonstrate how it can be successfully used in a primary care optometric practice to enhance patient care. It will provide a quick overview of OCT function, define indications for macular and optic nerve scans and provide practical examples for interpretation of retinal scans.</p> <p><i>Supported by an unrestricted education grant from Carl Zeiss Canada Ltd.</i></p>
10:55 - 11:50 am	<p>OD5 1CE, COPE: 43410-GL Narrow Angles and Angle Closure Glaucoma <i>Darren Behn, MD</i></p> <p>Review and recommendations for the diagnosis and management of primary angle closure glaucoma (ACG).</p>	<p>OD6 & A5 1CE, COPE: 33955-CL GP Lens Trouble Shooting <i>Christine Sindt, OD</i></p> <p>GP trouble shooting is designed to look at real world GP problems and corrections. This course will review symptoms, causes and corrections in a fast paced, picture oriented method.</p>
12:00 - 12:55 pm	<p>OD7 1CE, COPE: 43116-SP Oculoplastic Pearls 2 <i>Femida Kherani, MD, RCPSC</i></p> <p>This course presents a template for the primary care practitioner on the assessment and treatment of common ophthalmic plastic conditions.</p>	<p>OD8 & A7 1CE, COPE: 40069-AS Everything You Never Wanted to Know about the Mites that Live, Eat and Crawl on Your Lids <i>Milton Hom, OD, FAAO, FACAAl (Sc)</i></p> <p>Studies report that 100% of people over 70 have demodex. The gap between presence and detection of infestation is enormous. When diagnosed correctly, the clinician is up for a rude awakening. We demonstrate clinical sequence to identify and manage the most underdiagnosed, undertreated and underappreciated ocular surface disease.</p>
1:00 - 5:00 pm	OPTOFAIR	
8:00 - 10:00 pm	MEMBER MIXER	

Sunday, March 1, 2015

Hosted Breakfast CE

7:00 - 7:55 am	<p>B3 1CE Practice Profitability with New Innovations <i>Rhonda Robinson, OD</i></p> <p>TBA</p> <p><i>Hosted by Bausch & Lomb, Vision Care Division</i></p>	<p>B4 1CE Alcon's Advanced Technology in Eye Health <i>Michael Kaplan, OD</i></p> <p>TBA</p> <p><i>Hosted by Alcon Canada Inc.</i></p>	
Optometrists Track 1			
8:10 - 10:10 am	<p>OD9 2CE, COPE: 41607-AS Ulcers & Infiltrates <i>Milton Hom, OD, FAAO, FACAAI (Sc.)</i></p> <p>The underlying fear of every anterior segment and contact lens doctor are corneal ulcers, especially vision-threatening ones. Antibiotics are seen as a double-edged sword with powerful benefits but with the risk of overuse. Steroids were judiciously used but recent literature questions their efficacy. Differential diagnosis, infiltrates and cases will be presented.</p>	<p>OD10 & A9 2CE, COPE: 40454-PM Rock Solid Patient Retention: Winning the War for the Patient in New Era of Eyecare <i>Tom Bowen</i></p> <p>It's no longer a battle for patronage. It's a war. And winning that war starts with the best strategies for patient retention. This lecture zeros-in on strategies to retain your patients, keep your patients active and make sure they show-up.</p>	<p>OD11 & A10 2CE, COPE: 41080-GO Don't Overlook the Lids <i>Christine Sindt, OD</i></p> <p>The eyelids play a crucial role in ocular health however they are often over looked. This course describes everything from structure to pathology and how to manage your patients' lid disorders.</p>
10:25 am - 12:25 pm	<p>OD12 & A11 2CE, COPE: 39786-GO Preparing the Ocular Surface for Contact Lenses <i>Christine Sindt, OD</i></p> <p>There are many factors which aggravate the ocular surface of contact lens wearing patients. This course outlines the factors affecting the eye, the contact lens and how they interact. Attendees will develop treatment plans and strategies for continuing contact lens success.</p>	<p>OD13 & A12 2CE, COPE: 39122-PM The New Normal I - Getting More from Your Team in the New Era of Eyecare <i>Tom Bowen</i></p> <p>In the new normal, the challenge for your team is simple: There's more to get done in less time. This lecture is about getting your team all in for the market challenges that lie ahead and rising to the new level of productivity they demand.</p>	
12:30 - 1:55 pm	<p>Awards Lunch A Celebration of Achievements by Member Doctors of Optometry and a Tribute to the late Dr. William Jackson.</p>		
2:10 - 3:05 pm	<p>OD14 1CE, COPE 43185-PS Pneumatic Retinopexy <i>Kevin Ramsey, MD, FRCSC</i></p> <p>This course presents an overview on the pathology and management of retinal detachment. The course will help the primary care practitioner understand, advise their patients and make appropriate referrals in the setting of retinal detachment.</p>	<p>OD15 1CE, COPE: 41995-GO High Energy Blue Light <i>Thomas Gosling, OD</i></p> <p>High Energy Blue or HEV Light has never been more prevalent. In the last 8 years, smartphones, tablets, TVs, computer screens and LED bulbs have taken over our world. All these light sources emit HEV light.</p> <p><i>Supported by an unrestricted education grant from Hoya Vision Care Canada</i></p>	
3:20 - 4:45 pm	<p>OD16 1.5CE, BC Doctors of Optometry, Annual General Meeting (Members Only)</p>		

Monday, March 2, 2015

8:00 - 8:55 am	<p>B5 Breakfast 'n Learn 1CE FOCUS: A Method for Managing the Difficult Diagnosis <i>John Briggs</i></p> <p>TBA</p> <p><i>Supported by an unrestricted education grant from Alcon Canada Inc.</i></p>	
Optometrists Track 1		Optometrists Track 2
9:10 - 10:05 am	<p>OD17 1CE, COPE: 43899-AS Screening, Diagnosis and Management of Dry Eye Disease: Practical Guidelines for Canadian Optometrists <i>Paul Neumann, OD</i></p> <p>Published in the Canadian Journal of Optometry, Dr. Neumann is a member of the Canadian Dry Eye Disease Panel and lent his experience to the publication to provide Canadian optometrists with consistent treatment guidelines for dry eye disease. Given changes in recent years to TPA and patient access to health services, Dr. Neumann is excited to share the accepted standard of care model for optometrists treating dry eye disease in Canada.</p> <p><i>Supported by an unrestricted education grant from Allergan</i></p>	<p>OD18 1CE, COPE: 40106-AS Battle of Resistance <i>Mark Dunbar, OD</i></p> <p>Antibiotic resistance is considered to be one of the world's most pressing public health problems today. Ever since the age of antibiotic therapy began over 50 years ago, physicians have managed to stay at least one step ahead of the bacteria but the battle wages on as bacterial pathogens come up with new ways of evading even our strongest antibiotics by developing resistance. This course will discuss this growing health problem as well as the impact on managing and treating ocular infections. Topics discussed include the growing concern of MRSA and the latest in antibiotic therapy.</p>
10:15 am - 12:10 pm	<p>OD19 2CE, COPE: 35618-FV My Top Ten Pediatric Diseases <i>Zachary McCarty, OD</i></p> <p>My top ten most commonly experienced pediatric eye diseases will be presented. Emphasis will be placed on management and differential diagnosis. In addition, appropriate formulations and dosing of systemic medications for pediatrics will be covered.</p>	<p>OD20 2CE, COPE: 36276-PS Tales From the Trenches: Posterior Segment <i>Mark Dunbar, OD</i></p> <p>Interesting cases from over two decades in an ophthalmology academic referral center are presented in a grand rounds case presentation format. Cases will be challenging yet clinically common. The course is designed to stimulate differential diagnosis, utilize diagnostic technology and discuss various treatment strategies.</p>
12:15 - 1:10 pm	<p>L1 Lunch 'n Learn 1CE DEFINE <i>Lenora Cooper</i></p> <p>What is the newest opportunity for expanded patient potential in your practice? ACUVUE® 1-DAY DEFINETM. This presentation will share new insight to the growing category of eye enhancement and the benefits to adding beauty lenses in your product portfolio. We will explore why the focus on eye enhancement was taken into consideration when developing ACUVUE® 1-DAY DEFINETM. The presentation will discuss the untapped opportunity in Eye Beauty, the history of the lens in other markets (globally) and the design philosophy behind the creation of the lens. Including an introduction of the different lens effects and how the compatibility with the majority of eye colours work. Finally we will conclude with a clinical overview of the lens which has the same parameters as 1-DAY ACUVUE® MOIST® Brand Contact Lenses and most importantly, how to implement this new product into your practice for a wide range of patients.</p> <p><i>Supported by Johnson & Johnson Vision Care</i></p>	
1:15 - 2:10 pm	<p>OD21 1CE, COPE: 39131-FV SECO 2014 Presents: Amblyopia: What the Studies Show <i>Zachary McCarty, OD</i></p> <p>Our understanding of amblyopia and its treatment has changed greatly over the past decade thanks to landmark clinical studies. This course will review these Amblyopia Treatment Studies (ATS) and simplify the findings into useful clinical protocols.</p>	
2:25 - 3:20 pm	<p>OD22 1CE, COPE: 38674-GO My Most Interesting Cases <i>Mark Dunbar, OD</i></p> <p>Interesting cases from over two decades in an ophthalmology academic referral center are presented in a grand rounds case presentation format. Topics include both anterior and posterior segment disease.</p>	
3:25 - 4:20 pm	<p>OD23 1CE, COPE Approval Pending What Not to Refer <i>Zachary McCarty, OD</i></p> <p>This course will examine a variety of cases commonly referred to secondary care facilities. Each case will emphasize the handling of challenging cases in primary care settings and how optometrists can practice to their full scope.</p>
