# Hudson Valley Optometric Society

## Annual Fall Symposium

*Friday September 30, 2016  
 8:30 am to 4:00 pm  
 Registration opens at 8 am*

**The Grandview**  
 176 Rinaldi Blvd.  
 Poughkeepsie, NY

## Courses

COPE ID: 41603-AS, 2 hours

### **Anterior Segment Assault Treating Common and Uncommon Conditions**

We are challenged on a day-to-day basis with numerous anterior segment conditions. This course will cover both common and uncommon anterior segment disease states. We will discuss contemporary diagnostic and treatment options available to help better manage our patients.

COPE ID: 47456-PS, 2 hours

### **What OCT Has Taught Us About The Eye**

From new metrics for detecting and determining glaucomatous changes, to updates in the way we fit scleral lenses, this technology has revolutionized the way we care for our patients. Learn what we now know about the eye because of this technology and its clinical applications.

COPE Course ID: 48734-PH, 1 hour

### **Pain, Pain Go Away Oral Pharmaceuticals for Pain Management**

As optometry's scope of practice continues to evolve, so does our responsibility to provide pain management. This course will provide the strategies needed to confidently provide appropriate pain management strategies for those in our care that require it.

## Lecturer
