

EYECON

N

November 3 - 4, 2012

DoubleTree Hotel - Galleria
4099 Valley View Lane
Dallas, TX 75244

Speaker & Course Information

Steven Ferrucci, OD, FAAO

"Oculosystemic Disease Essentials"
Saturday, November 3
8:00am - 10:00am

Course Summary:
2hrs TPA/DPA
This course will discuss some of the most common systemic disease we encounter in an optometric practice, and their relevance to the eye. Topics include diabetes, hypertension, and obesity.

"Posterior Segment Disease Case Challenges"
Saturday, November 3
10:00am - 12:00pm

Course Summary:
2hrs TPA/DPA
Course will highlight some of the most common retinal etiologies, and review their treatment and management. Topics include vein occlusions, nevi, macula dystrophies, and retinal breaks.

"Update on Age Related Macular Degeneration"
Saturday, November 3
2:00pm - 3:00pm

Course Summary:
1hr TPA/DPA
New treatments in the fight against macular degeneration are currently under investigation. This course will highlight some of the new treatment modalities as well as new theories in the prevention of ARMD.

Scot Morris, OD, FAAO

"One of Those Days - Again! A Day in the Life of the Full Scope OD"
Saturday, November 3
3:00pm - 5:00pm

Course Summary:
2hrs TPA/DPA
Four cases that will challenge everything you know about optometry.

"You Are What You Eat: Nutritional Optometry"
Saturday, November 3
5:00pm - 6:00pm

Course Summary:
1hr TPA/DPA
This course will address the new and rising trend of the use of nutritional supplements in optometry and medicine in general. We will discuss basic pharmacology, common uses, side effects, potential risks and "normal" dosages of various classes of nutritional supplements, vitamins and herbal remedies that our patients are taking. We will also discuss their effects on the visual system and overall health of our patients.

"Pains, 'Caines' and the Brain: Pain Management Strategies and Methods"
Sunday, November 4
8:00am - 10:00am

Course Summary:
2hrs TPA/DPA
In this lecture, we will explore the different types and causes of pain as well as highlight the judicious use of oral medications for treatment and prevention without inducing long-term complications.

Jason Nichols, OD, MPH, PhD, FAAO

"Minimizing Risk and Optimizing the Patient Experience"
Sunday, November 4
10:00am - 12:00pm

Course Summary:
2hrs TPA/DPA
The past several years have been filled with new understandings, in addition to controversies, in the care of contact lenses. These have included formulations that have been associated with unique infectious outcomes, controversies about preservatives, corneal staining, and the impact of a rub step. Further, new materials are posing different challenges relative to their care. The purpose of this talk is to review and discuss these topics in an interactive format.

"It's a Dangerous Place Out There: The Impact of the Environment on the Eye and Vision"
Sunday, November 4
2:00pm - 3:00pm

Course Summary:
1hr TPA/DPA
This talk will discuss contemporary information regarding the impact of environmental exposures (e.g. smog, ultraviolet radiation) to the eye, and current understandings of the benefits of protective devices such as UV-absorbing contact lenses.

"Contact Lens Dry Eye: OMG It's MGD!"
Sunday, November 4
3:00pm - 5:00pm

Course Summary:
2hrs TPA/DPA
This course will cover why proper medical records are essential to patient care and legal issues, medical record formats, surviving the age of audits and a look into the future of medical records.

Kevin Gee, OD, FAAO

"Professional Responsibility Course: Medical Records - Compliance and Common Sense"
Live Course - **NO TEST REQUIRED**
Sunday, November 4
5:00pm - 6:00pm

Course Summary:
1hr Ethics
Why proper medical records are essential to patient care and legal issues, medical record formats, surviving the age of audits and a look into the future of medical records.

(schedules may vary slightly)

Deborah Bernay, OD

"InfantSEE Hands On Exam Clinic"
Saturday, November 3
10:00am - 12:00pm

Limited Attendance

Course Summary:
2hrs TPA/DPA
This InfantSEE workshop will provide a great opportunity to expand one's comfort level examining infants. The InfantSEE workshop will use research and techniques and make it practical. The workshop will make practitioners comfortable with the examination, testing and diagnosing of infants. Each participant will be able to work directly with an infant.

FREE EYECON REGISTRATION!

ATTN DOCTORS: Do you have or know of a parent with an infant that will be between 6 months and 12 months of age in November? If so, please contact Sherry at the TOA office for information on FREE EYECON REGISTRATION! Call Sherry at 512-707-2020 or e-mail her at sherry@txeyedoctors.com.

REMINDER:
