"Advanced Ocular Care"

Presented by

Richard Mangan, O.D., F.A.A.O

Program:

This program on "Advanced Ocular Care" offers attendees an opportunity to learn about recent innovations across all areas of medical and surgical eye care. Courses will cover both clinical and surgical options with a special emphasis in emerging diagnostics, treatments and procedural techniques. Utilizing case presentations and advanced video formats, the attendee will benefit from some "eye opening" information.

Anterior segment presentations will include such topics as dry eye disease, infectious disease, chemical burn management, as well as cataract and refractive surgery co-management. Time will be spent covering the roll of the medical optometrist in cataract co-management including premium IOL selection as it relates to co-morbidities such as glaucoma and ocular surface disease. Posterior segment courses will cover neurological topics such as glaucoma, headache diagnosis and management, multiple sclerosis, idiopathic intracranial hypertension and anisocoria. Minimally invasive glaucoma surgical techniques (MIGS), including combined procedures such as ICE and CAKE, will be reviewed. Systemic disease courses will discuss the effects of sleep apnea, autoimmune disease, diabetes, and cardiovascular disease on vision. Lastly, we will look at the latest prescribing trends for both topical and oral medication in the optometric practice.

Courses:

- The Differential Diagnosis and Management of Headaches
- No Drop Cataract Surgery: The Great Debate
- Ocular Urgencies Emergencies: Are You Prepared
- Refractive Lens Exchange in the Glaucoma Patient
- MRSA A Cause for Concern
- Grand Rounds in Ocular Surface Disease
- Anisocoria ~ Now What?
- Additional Courses Will be Announced.

Bio:

Dr. Mangan is a board certified consultative optometrist and a Fellow of the American Academy of Optometry. His focus is in the area of ocular disease and surgical co-management and he is certified to perform anterior segment lasers and minor surgical procedures.

Dr. Mangan has lectured and written extensively on such topics as infectious disease, ocular surface disease, advanced corneal procedures, corneal refractive surgery, advanced technology IOL's, drug delivery and point-of-care technology. He is considered one of the foremost experts in the area of "No Drop Cataract Surgery", having co-managed approximately 20,000 cases since 2007. He is on the editorial boards for "Advanced Ocular Care" and "Primary Care Optometry News" and has his own bi-monthly column in "Review of Optometry" called "Urgent Care" that focuses on the diagnosis and management of Ocular Urgencies and Emergencies.

"Therapeutic Advances in Ocular Disease 2020"

Presented by

Ron Melton, O.D., F.A.A.O.

Program:

Join us for 12 hours of COPE approved CE. This program will reach the cutting edge of contemporary medical management with topical and oral drugs used to treat eye disease, including glaucoma. Clinical application of the oral pharmaceuticals will be stressed with case presentations. Emphasis will be given to sharpening the clinician's skills in diagnosing and medically managing a variety of ocular disease entities. Diagnostic therapeutic pearls will be shared during the case discussions.

Courses:

- Therapeutic Update
- Session 1 - Treatment Guidelines for Ocular Infection/Inflammation - 2 Hrs
- Session 2 - Melton-Thomas Treatment Guidelines - 2 Hrs
- Comprehensive Glaucoma Update
- Session 3 - Contemporary Glaucoma Care - 2 Hrs
- Session 4 - Glaucoma Update and Grand Rounds - 2 Hrs
- Clinical Grand Rounds
- Session 5 - What the Primary Care Optometrist Should Never Miss - 2 Hrs
- Session 6 - Melton-Thomas Clinical Grand Rounds - 2 Hrs

Bio:

Dr. Melton is a North Carolina native. He completed his training in primary eye care at the Pennsylvania College of Optometry in 1981. He has attended the Armed Forces Institute of Pathology Course in "Ophthalmic Pathology for Ophthalmologists." Dr. Melton was also a member of the Student Optometric Service to Haiti team in 1981. He has successfully completed the National Board Examination in Optometry and the International Association of Boards of Examiners in Optometry Examination on "Treatment and Management of Ocular Disease."

Dr. Ron Melton has lectured nationally and internationally at over 800 continuing medical education meetings with a goal of educating optometrists around the world in ocular disease. Was honored as a co-recipient of the "Pioneer in Optometry" recognition by the Editorial Board of Primary Care Optometry News in April 2015 for contributions in optometry education. Dr. Melton was named co-recipient of the American Academy of Optometry 2014 Vincent Ellerbrock Clinician Educator Award for outstanding and sustained contributions to the Academy's Lectures and Workshops program. He sits on the editorial boards of Optometric Physician and Primary Care Optometry News and is a contributing editor to Clinical and Refractive Optometry. Dr. Melton has authored or co-authored over 100 papers on optometry and is the co-author of the popular annual "Clinical Guide to Ophthalmic Drugs" for Review of Optometry. Dr. Melton has acted as an investigator in more than 50 clinical research trials. Currently he is a member of the adjunct faculty at Salus University (Pennsylvania College of Optometry) and Indiana University (School of Optometry). He is in a group practice in Charlotte, North Carolina, where he has staff privileges at Novant Health Presbyterian Medical Center

“Modern Management of Ocular Disease”

Presented by

Edward L. Paul, Jr., O.D., Ph.D., F.I.A.L.V.S.

Program:

The eye care industry is constantly evolving. In order to provide the best patient care possible, optometrists need to stay up-to-date on the latest technologies, treatments and trends. This course track provides a clear view of what's important now and what's next through specialized continuing education courses, innovative solutions and learning opportunities. Set your eyes on leading-edge education sessions designed to provide up-to-date information on the topics that matter most to Doctors of Optometry, such as ocular disease, diagnosis, treatment and management.

New for 2019, the “How Would Disney Run Your Practice” keynote address will show you how to apply Disney Parks and Resorts procedures and systems to your optometric office. The course features actionable advice on important topics to efficiently run your practice, such as marketing, employee excellence and increasing patient satisfaction.

Learn how to help your practice reach its full potential at Dr. Travel's Christmas Week 2019 Cruise. 16 hours COPE Applied C.

Courses:

- Ocular Pharmacology Update
- Practice Management - How Would Disney Run Your Practice?
- Principles of Diagnosis of Systemic & Ocular Disease
- Refractive Surgery Management
- Optometric Surgical Procedures
- Low Vision/Vision Impairment & Rehabilitation
- Treatment & Management of Ocular Disease: Anterior Segment
- Treatment & Management of Ocular Disease: Posterior Segment

Bio:

Edward L. Paul, Jr. Recognized as one of the world's foremost authorities on macular degeneration, ocular nutritional and low vision rehabilitation, Dr. Edward Paul is the researcher and inventor of TOZAL®, a patented prescription medication for the prevention and treatment of age-related macular degeneration (AMD).

A graduate of the Southern College of Optometry in Memphis, Tennessee, Dr. Paul completed his internship training at Wornack Army Hospital at Fort Bragg in Fayetteville, North Carolina, and St. Luke's Eye Institute in Tarpon Springs, Florida. In addition to his doctorate in optometry, Dr. Paul also holds a Ph.D. in nutrition. He is considered by his peers and colleagues as a leading clinician and educator whose approach to medicine is years ahead of the conventional medical establishment. Dr. Paul holds multiple U.S. and international patents on pharmaceutical agents and medical devices used in medical practices all over the world. He has been recognized by the Consumers' Research Council of America as one of the nation's top eye physicians and is one of only 30 physicians in the United States to be selected as a Fellow of the International Academy of Low Vision Specialists.

Dr. Paul is an experienced clinician and educator having served as professor of ophthalmology at St. Luke's University School of Medicine in Belize. He was recently chosen as one of “America's Top Optometrists” by the Consumer's Research Council of America. Dr. Paul is one of 30 eye physicians in the United States to be recognized as a Fellow of the International Academy of Low Vision Specialists. He is a 1986 graduate of Southern College of Optometry in Memphis, TN, where he received a Doctor of Optometry degree (O.D.), and also holds a second doctorate, a Doctor of Philosophy degree (Ph.D.), in Nutrition, and is a member of the American Optometric Association, the North Carolina Optometric Society and is a Diplomate, International Academy of Low Vision Specialists (IALVS).

Beyond his research and medical practice, Dr. Paul is the author of several books, including *Conquering Macular Degeneration: Alternative Cures*, and *101 Great Ways to Improve Your Health*. Furthermore, he serves as a contributing writer for several national magazines including *Redeem Press*, publishers of *Prevention* magazine. He is a frequent guest on television and radio programs, having recently been featured on NBC, CBS, ABC, FOX, and Lifetime Television. Dr. Paul is the founder and medical director at the Paul Vision Institute in Wilmington, NC.

Dr. Paul is an accredited diplomat by the United States Department of State representing the Central American nation of Belize as Consul to the United States of America.

“Innovations in Primary Care Optometry”

Presented by

Whitney Hauser, O.D., F.A.A.O.

Program:

This program will provide a comprehensive overview of clinical optometric care. Courses will cover ocular surface disease, pharmacology, glaucoma, inflammatory eye disease, surgical eye care and practice management. The courses will offer case studies to illustrate didactic information and offer an evidence-based approach to disease management.

Courses will include how to create a dry eye center of excellence with tips on demographics, equipment acquisition and staffing. Additional courses will provide insight into pre- and post-operative management of surgical patients as well as medical management of ocular inflammation.

Courses:

- **Dry Eye That's Not Dry Eye**
- **Advances in Ocular Surface Disease: Treating Dry Eye**
- **Ocular Inflammation**
- **How to Develop a Dry Eye Center**
- **Glaucoma Surgery: Trabs to MIGs**
- **Inflamma-story: The Role of Inflammation**
- **The Impact of Oral Medications on Ocular Surface Disease**
- **Management of Laser Surgery in Primary Care Optometry**

Bio:

Dr. Whitney Hauser received her Doctor of Optometry degree in 2001 from Southern College of Optometry. She completed a post-graduate residency in Primary Care Optometry at the Southern College of Optometry in 2003.

Prior to joining the SCO faculty as Assistant Professor, Dr. Hauser served as Clinical Director and Research Coordinator at an ophthalmology referral center in Memphis, Tennessee. Dr. Hauser has authored many articles focusing on the management and treatment of ocular surface disease, the anterior segment and practice management. She has been an invited speaker across the United States and internationally.

Dr. Hauser serves as Clinical Development Consultant at TearWell: Advanced Dry Eye Treatment Center and the Advanced Care and Ocular Disease Service at Southern College of Optometry. She is also founder of DryEyeCoach.com, the leading ocular surface disease educational hub.

Dr. Hauser serves on the boards of TearLab, Rysurg, Paragon BioTeck, Science Based Health and 1800DOCTORS. She also serves on the editorial board of *Advanced Ocular Care*.

“An Educational Feast for the Comprehensive Optometric Physician”

Presented by

Ron Melton, O.D., M.P.H., FAAO & Randall Thomas, O.D., M.P.H., FAAO

Program:

This course is intended to equip the audience to more comprehensively assess patient presentations over a wide range of conditions. Numerous clinical case presentations and select pharmacology topics will be discussed. The goal is to teach critical clinical points, which will enable the doctor to more accurately diagnose, and develop an action plan to maximally care for the patient.

Courses:

Neuro Update / Clinical Grand Rounds / Contemporary Glaucoma Care / Mystery Solved-Conquering Therapeutic Dilemmas / Posterior Segment Update / Oral Medications in Primary Eye Care

Bio:

Dr. Randall Thomas is a North Carolina native. He completed his training in primary eye care at the Pennsylvania College of Optometry in 1981. He has attended the Armed Forces Institute of Pathology Course in “Ophthalmic Pathology for Ophthalmologists.” Dr. Thomas was also a member of the Student Optometric Service to Haiti team in 1981. He has successfully completed the National Board Examination in Optometry and the International Association of Boards of Examiners in Optometry Examination on “Treatment and Management of Ocular Disease.”

Dr. Thomas received the “Glaucoma Educators of the Year” award presented by the American Academy of Optometry. The Southern Council of Optometrists presented the William C. Ezell Award “For the Best Article Based upon a Lecture Given at the Southern Congress of Optometry” to him. He is a Fellow in the American Academy of Optometry. He served as a consultant to the Council on Clinical Optometric Care and the Council on Optometric Education of the American Optometric Association. He has been a consultant in the areas of pathology and ocular pharmacology to the International Board of Examiners in Optometry. He is also a member of the adjunct faculty at the Pennsylvania College of Optometry, Pacific University College of Optometry, and State University of New York College of Optometry. Dr. Thomas has lectured on the topics of ocular differential diagnosis and medical management of the eye diseases throughout the World. He has authored many articles in the optometric literature, including the annual “Clinical Guide to Ophthalmic Drugs” in Review of Optometry. Dr. Thomas is a full-time clinician delivering primary and secondary eye care.

Dr. Ron Melton is a North Carolina native. He completed his training in primary eye care at the Pennsylvania College of Optometry in 1981. He has attended the Armed Forces Institute of Pathology Course in “Ophthalmic Pathology for Ophthalmologists.” Dr. Melton was also a member of the Student Optometric Service to Haiti team in 1981. He has successfully completed the National Board Examination in Optometry and the International Association of Boards of Examiners in Optometry Examination on “Treatment and Management of Ocular Disease.”

Dr. Ron Melton has lectured nationally and internationally at over 800 continuing medical education meetings with a goal of educating optometrists around the world in ocular disease. Was honored as a co-recipient of the “Pioneer in Optometry” recognition by the Editorial Board of Primary Care Optometry News in April 2015 for contributions in optometry education. www.DrTravel.com

Dr. TRAVEL SEMINARS, LLC, now in its 24th year, provides quality lectures for the dental and optometric professions. Our optometric series has met with great success, as we bring world renowned speakers to you lecturing on the most relevant, up to date material. Our programs are presented on luxury cruise ships allowing you to combine an informative seminar with a first-class vacation. Extended hotel stays, pre and post cruise packages, as well as our famous daily tours are available.

Dr. TRAVEL SEMINARS, LLC is a COPE approved provider. All optometric programs are presented in partnership with the New Jersey Society of Optometric Physicians. Dr. TRAVEL SEMINARS, LLC combines quality vacation locations while meeting your educational needs.

We encourage you to peruse this brochure and contact us with any questions that you may have. Additionally, our website contains an expanded description of all trips, lectures and lecturers. If you would like, we can send a cruise-specific brochure with additional information. Dr. TRAVEL SEMINARS, LLC specializes in personalized service along with customized tours specifically tailored to our group at all cruise departing cities and ports of call. Friends and family are always welcome. Let us handle all facets of your vacation/seminar needs.

We are certain that if you participate in one of our Seminars in Paradise™ programs, you will join the company of the many satisfied people that have traveled with us.

Yours truly,
Audrey Pascal, President
Dr. TRAVEL SEMINARS, LLC

What our participants have to say:

“Always remarkable how the attendance of the seminar maintains at such a high level - a testament to the lecturers.” JD

“Great and relaxing time” EF

“The course content was excellent” MN

“Great format, liked the open communication” JM

“... I don't see how it could be improved” MS

“Directly applicable to my practice; exactly what I was looking for.” TC

“The people were great. Thank you for your gracious hospitality on the ship.” JN

“Considering it was hot & sunny on the deck of this cruise ship I attended the entire session; that speaks volumes” EP

“Good cruise, good lecturer, always a satisfying experience on both fronts” JD

“Perfect!” JH

“It was really a Seminar in Paradise.” DP

Refund Policy and Disclaimer:

Dr. Travel Seminars, LLC reserves the right to cancel any course, limit enrollment, modify the announced course content, or change the location, time, date and faculty of any course as may be deemed necessary or advisable. Outside vendors (Cruise Ship Companies, Excursion operators, etc.) may also change itinerary as per their disclaimers; this is beyond the control of Dr. Travel Seminars, LLC. Rates may reflect limited time promotions, which may be withdrawn at any time without notification. Not responsible for any errors or omissions.

Dr. Travel Seminars, LLC has the right to correct any such errors/omissions without notice.

Course Cancellation:

Between 6-months and 2-weeks prior to the onset of the cruise there is a \$100 course cancellation penalty. Within 2-weeks prior to the onset of the cruise, no refund for the course will be granted.

Trip Cancellation & Liability:

As of 6-months prior to the departure date of a cruise, there is a \$100 per cabin non-refundable application fee. Cruise, airline seats, hotels, as well as additional purchases made through the cruise line on your behalf, are refundable as per the cancellation policy of the individual cruise line and are available in their entirety on the individual cruise line's web sites. Airline seats purchased through Dr. Travel Seminars, LLC are non-refundable and all restrictions and change fees are as imposed by the individual airline. Group Hotel reservations made through Dr. Travel Seminars, LLC incur cancellation fees as follows: beginning at 120 days prior to arrival there is a cancellation fee of 50% of the total; at 90 days prior, the cancellation fee is 100% of total hotel stay. Dr. Travel Seminars, LLC arranged Transfers and/or Tours are non-refundable after payment. In addition to all the above listed penalties, all transaction fees incurred by Dr. Travel Seminars, LLC will be deducted from any refunds. Dr. Travel Seminars, LLC is not responsible for any services or products not provided or delivered by travel suppliers. At the discretion of Dr. Travel Seminars, LLC, any seminar can be canceled if an insufficient number of doctors have registered. In that event, Dr. Travel Seminars, LLC will refund all cruise, seminar, hotel, tour and transfer fees purchased through Dr. Travel Seminars, LLC, but cannot, however, be responsible for any airline reservations or any other travel related purchases. Dr. Travel Seminars, LLC cannot be held liable for any act of negligence, theft, accident, illness or any other incident that may occur during the entire travel period from client's departure to their return. Dr. Travel Seminars, LLC recommends the purchase of travel insurance and is available to help you with that purchase.

Courses:

Conference sessions generally take place during the days at sea, as cruise itinerary allows, avoiding conflicts with Ports of Call or evening entertainment.

All courses are designed for the general practitioner as well as for all specialties.

All courses are offered by means of lecture.

Seminar Fees - All Programs 12 or 16 Hours

Optometrists: \$695 / Opticians: \$495 / Office Staff: \$145 / Groups - Please Call!
