

## FACULTY

**David Kading, OD, FAAO,  
FCLSA**

Dr. Kading is a graduate of Pacific University College of Optometry, where he also completed a Corneal and Contact Lens Residency. Dr. Kading specializes in: complicated contact lens fitting. His referral based dry eye and contact lens clinics are well known for utilizing the latest technology for complex or rudimentary dry eye or contact lens fits. In addition to his 2 location practice in the Seattle area, he co-owns Optometric Insights.

**Tracy Doll, OD**

Assistant Professor of Optometry  
Pacific University

Dr. Doll is a graduate of Pacific University. She completed a residency in Primary Eye Care and Ocular Disease at Portland VA Medical Center. She lectures in the Ocular Disease and Clinical Procedures courses. Dr. Doll serves as the Chief of the Dry Eye Specialty Clinic at Pacific University and is the attending optometric physician for third and fourth year students.

**Amiee Ho, OD**

Dr. Ho is a new faculty member at Pacific University where she will be teaching clinical procedures laboratories to first and second year students. She is a graduate of University of California Berkeley School of Optometry and she completed a residency in Primary Care and Geriatrics at the West Los Angeles VA

For payment questions, please contact  
Miki at 503-352-2985

The Pacific University College of Optometry was originally founded in 1921 as the North Pacific College of Optometry. It became part of Pacific University and the Forest Grove Campus in 1945.

Today, at the College of Optometry, we pride ourselves on our clinically oriented program, focusing on the graduation of a comprehensive practitioner with expertise in general optometry, contact lenses, low vision, vision therapy, sports vision and ocular disease.

Pacific University is a fully accredited member of the Northwest Association of Schools and Colleges and the Accreditation Council on Optometric Education (ACOE) of the American Optometric Association (AOA).

At Pacific University, teaching is our first priority. Our optometry faculty lecture and publish worldwide, but teaching is at the center of their practice. Our programs provide a firm foundation in basic and clinical sciences, as well as significant hands-on experience in serving diverse populations of patients.

### Mission

Pacific University College of Optometry prepares engaged learners to be highly competent practitioners, optometric leaders, and vision scientists through a diverse education while advancing professional and ethical eye care, scholarship, and service to the community.
