LEARN. LEAD. CONNECT.

Three words that not only represent the essence of Optometry's Meeting®, but also the boundless opportunities to make a positive impact on your career and our profession.

LEARN. Expanded continuing education programming—starting even earlier Wednesday and ending later Sunday afternoon—means five full days of CE so you have more time to experience everything Optometry's Meeting® has to offer. This year's program allows attendees to receive 30+ hours of accredited education from a vast selection of new and unique courses.

LEAD. Optometry's Meeting allows every participant to make the AOA, our association, an even stronger and more effective advocate for our profession and our practices. The House of Delegates, optometry's main governing body that has helped lead the advancement of our profession for more than a century, is open to you during public sessions on Thursday and Saturday. The AOA Board of Trustees will again host an open "Colleague to Colleague" gathering focused on immediate concerns of our member doctors, as well as the prosperous future we need to work together to create.

CONNECT. Doctors of optometry are busy people. We know it can be a challenge to fit everything into your schedule, and that's why Optometry's Meeting brings it all together—in one place—for you. This is your one-stop shop for meeting with industry leaders in the Exhibit Hall and connecting with your colleagues across five full days of events.

AOSA President Erick Henderson joins me in inviting you to make plans now to participate in your meeting. Optometry's Meeting is the official annual meeting of the AOA and AOSA and an exceptional member benefit. Join us in Boston to participate in ensuring the bright future of optometry!

STEVEN A. LOOMIS, OD
2015 – 2016 President

 AMERICAN OPTOMETRIC ASSOCIATION

JOIN US IN BOSTON!

Boston is a wonderful blend of historic New England charm and stylish sophistication. Uncover Boston's past while enjoying its distinctively modern edge.

Boston is one of America's oldest cities, so plan to visit some of the historic landmarks. Conveniently, many are nestled among the city's most beautiful neighborhoods featuring colonial-era architecture and cobblestone streets.

Summer is a great time to explore Boston, affectionately known as "America's Walking City." You can stroll the city's sidewalks, wander its abundance of green parks, or just people-watch at one of the many outdoor cafés. Enjoy the old masters and the brew masters, pedal-powered swan boat rides or high speed catamaran whale watches. Shop artisanal markets or chic boutiques. Stroll the lively waterfront or cruise the historic harbor. Take a walking tour or blaze a trail of your own. Plan to stay through July Fourth and experience one of the nation's most spectacular patriotic celebrations.

Historic fast-forwards to modern when Optometry's Meeting® convenes at the Boston Convention and Exhibition Center (BCEC) with its world-class technology services. The BCEC is customer-friendly and the most technologically advanced convention facility in the world. Located in the "Innovation District" along the South Boston Waterfront, the award-winning BCEC offers a world-class city within a city, with every convenience imaginable.

The Opening General Session is one of the most anticipated events every year. Col. Aldrin remains at the forefront of efforts to ensure America's continued leadership in human space exploration. In *Mission to Mars: My Vision for Space Exploration*, he outlines his plan to get us to Mars. As a leading space exploration advocate, Col. Aldrin continues to chart a course for future space travel and is passionate about inspiring younger generations of future explorers and innovators.
