About CEwire2024

[CEwire2024](#) is the largest continuing education conference in eye care. With **75 COPE-Accredited credits**, each given at **all the live events** (and available on demand!) there is no easier or less expensive way for you to meet your CE requirement! Over **18,000 ODS** have attended our online events.

Agenda

Visit the CEwire2024 web site to [view the conference agenda](#). This year's show has even more diverse speakers and subjects, and we've specifically designed several tracks to help you meet requirements:

Integration with ODwire.org !

This year, all registrants will receive **immediate access** to the [CEwire2024 Private Forum](#), where attendees and speakers can interact with each other.

The forum provides you with a **private and secure space** where you can:

- Ask questions before, during, and after the event
- Interact with & get to know your fellow attendees
- Peruse vendors discounts, and discuss their products and services with experts from each company

The forum acts as a permanent repository that you can always return to in the future -- **even months or years after the conference has concluded!**

File Repository!

We also now have a **dedicated file repository** for ancillary materials associated with each lecture, including handouts and additional materials that speakers want to provide.

Downloadable Certificates & Transcripts!

We now offer a permanent [Certificate and Transcript center](#), so you can always download proof of attendance **any time** in the future, should you need it.

No other conference gives you this sort of **long-term access to information**.

Hope to See you There!

We hope you've found the past shows useful & we look forward to seeing you at this year's event.

If you have any comments about the show or ideas for the future, don't hesitate to **reply to this email**.
