The Direct Data Entry (DDE) billing system is one of the replacements for the Data Entry Module (DEM) currently used by many Pre-Admission Screening System Providing Options and Resources Today (PASSPORT) providers to enter and submit PASSPORT Information Management System (PIMS) invoices to PASSPORT Administrative Agencies (PAAs).

Changes/updates made in PIMS to a consumer will be reflected in DDE system the following day. Updates from PIMS to the DDE system are made nightly.

1. System requirements

   The minimum PC requirements to utilize the DDE application are 512mb system memory and an operating system capable of running one of the following browser versions (or higher) with JavaScript enabled: Mozilla/4.0+, Mozilla/5.0+, MS Internet Explorer 6.0+, Gecko/20060728+, Firefox/1.5.0.6+.

2. How to Login

   a) Open a browser.
   b) In the address bar enter: https://dde.age.ohio.gov/
   c) Press enter. This site can be bookmarked.
   d) If prompted for a Security Certificate, proceed to Section 4. Security Certificate
   e) Enter your user name and password provided to you by your PASSPORT Administrative Agency. Press enter. Username and password are not case-sensitive. If prompted by the browser to save password, decline.
   f) If the user attempts to login with an invalid password and exceeds the number of attempts allowed by the system, the account will be disabled. Contact your PAA administrator regarding your account status.

3. Session timeout

   A user’s session will timeout after 60 minutes of inactivity. If, for a period of time, you leave the DDE application alone or perform actions (ex: scrolling, entering data, reading a downloaded report) that does not generate a call to the server, the application logs you out and you will be prompted to log in again. A timer will appear on the screen and count down to inform the user when the session will expire. **Ex: Your session will expire in 00:59:48.**
