6 Killed In Past 8 Weeks

The Village accident rate — which registered nearly a one-per-day ratio for December and January—yesterday bought a cry of alarm and a strongly-worded warning from the Palm Springs Safety Council.

Council President Don Miller, who labeled the rate a sign of "traffic unhealthiness," said that he was both shocked and alarmed by the 37 traffic accidents since Dec. 2, which have killed six, badly injured 13 more and hospitalized 12 others with less severe hurts.

"IN LESS THAN two months," Miller declared, "as many persons have been killed in traffic accidents here as died in such mishaps during the entire two-year period of 1957 and 1958."

The Safety Council leader said that each of the accidents could have been avoided and lamented the needless loss of life from the negligence. He listed three rules that would enable "an appreciable reduction" in the accident rate here.

1.—OBEY PALM Springs and California road laws. Miller reported that 34 citations for infractions of rules were issued in the 37 accidents.

2.—Drive courteously. Driving "defensively" and utilizing the Golden Rule on the road has been called the best answer to mounting road tolls.

3.—Take an active part in traffic safety. Watch for danger spots on the road and report to the proper authority. Caution other drivers about speed, recklessness or discourtesy. Attend Safety Council luncheon meetings.

"THE PITIFUL thing about this sudden outbreak of traffic accidents," Miller said, "is that not one of the persons who caused the accident believed he—or she—would ever be the cause of such a tragedy."

Following the three-joint program set forth above could "aid substantially in a decrease in accidents here," Miller added.

Kidnaped Boy Found, Mother Of 3 Arrested

NEW YORK — (UPI) — Police found 28-day-old Johnny Tavarez alive and well today and arrested a young mother of three, who had a recent miscarriage, as his kidnaper.

Johnny's jubilant parents said they were "very, very happy" to have their baby back after more than four days of pleading and praying for his return.

The child was recovered in a basement apartment only seven blocks from the scene of the kidnaping as the result of a tip from the Spanish - language newspaper, El Diario, police said. Johnny was abducted last Thursday afternoon from the Tavarez apartment on Manhattan's West Side.

The confessed kidnaper was identified as Mrs. Asuncion Ortiz, 25. She told police she had been pregnant since last May and had lost her child by miscarriage within the past 10 days.

Storm Belt Brings Rain, Snow, Sleet

Spreads From Southern Plains To Mid-Atlantic

United Press International

A storm belt girdling the nation's midsection glazed highways with freezing rain, snow and sleet from the Southern Plains to the mid-Atlantic.

However, the precipitation produced no further flood threats to Ohio and Pennsylvania where swollen rivers continued to drop. Flood refugees were returning to their water-damaged homes and states of emergency were lifted in most stricken communities.

THE TREACHEROUS ice storm broke out Monday night in a band stretching from Kansas to Oklahoma across northern Kansas and Missouri and into the Ohio Valley and the mid-Atlantic states.

Two to three inches of snow blanketed the Oklahoma Panhandle and freezing rain glazed roads in the northwest, central and south central portions of the state. A car-truck crash blamed on the ice killed two persons late Monday on Oklahoma's Turner Turnpike.

A WAVE OF COLD air pushed into the northern third of the country under clearing skies. Temperatures along the leading edge of the cold air mass skidded 10 to 20 degrees from North Central Texas northeastward to the Ohio River and southeastern Pennsylvania.

Jewelry Theft Is Reported

A daytime burglar took $371 worth of jewelry from the home of Mrs. John C. Davis, 1428 Rodeo Drive, yesterday.

Police said the thief climbed through a bathroom window, ransacking the house while Mrs. Davis was away for the day.

Ramon Road Widening Faces Delay

County Has Difficulty With Rights-of-Way

County plans for expansion of Ramon Road and Date Palm Drive have been temporarily blocked by a barrier of power poles, County Road Commissioner A. C. Keith said last night.

Keith said the county is apparently having difficulty securing necessary rights-of-way to permit sufficient setback of power poles now standing in the path of expansion.

THE COUNTY ROAD commissioner reported on the road widening program and other Coachella Valley roadway plans at last night's meeting of the Coachella Valley Advisory Planning Commission at Laurye's Steak Ranch.

Keith explained that the county hopes to widen East Ramon Road from the present 22 feet to 40 feet, from the city limits to Date Palm Drive, starting in April.

The same width is planned for Date Palm Drive, from Ramon Road to Highway 111, he said.

"WE HOPE TO get started by April," Keith said, pointing out that "our road machinery now working at Thermal will move to Blythe then if we're not ready with the Ramon and Date Palm projects."

Keith said the California Electric Power Co. is ready to shift poles as soon as sufficient rights-of-way are secured. He did not identify property owners blocking the expansion program.

PALM SPRINGS Calectric Manager Frances Crocker noted that "we have new poles lying by the roadside." He said the company will shift its lines as soon as the county flashes a green light.

The county plans to widen Ramon from Date Palm to Highway 99 at Thousand Palms as its next step.

Eventually, Keith said, the county hopes to broaden Ramon Road into an 82-foot, four - lane thoroughfare from Palm Springs to Highway 99.

Three Injured In Highway 111 Mishap Monday

Three women were slightly injured yesterday afternoon when three autos tangled in a Highway 111 crash near Desert Braemar.

Injured were Helen Carnahan, 29, 70-199 Avenue 39, Cathedral City; Julia Bachman, 53, of 225 Camino Carmelita, and Mrs. Josephine Doane, 77, of Reseda.

Desert Hospital officials said Mrs. Bachman and Mrs. Carnahan complained of chest pains, but sustained no broken bones. Mrs. Doane suffered a facial laceration.

California Highway Patrolmen said the accident apparently occurred when Mrs. Carnahan was attempting a left turn off the highway.

Her car was reportedly struck in the rear by a south bound auto driven by James Doane, 76. The impact shoved the Carnahan car into the path of a north bound auto, driven by Mrs. Bachman.

ANNUAL OVERNIGHT RIDE SET FOR MOUNTED DRILL TEAM

The Second Annual Overnight Ride of the Palm Springs Mounted Drill Team—to Whitewater again—has been scheduled for Jan. 31 and Feb. 1, the organization announced yesterday.

The overnight ride—open to all riders here—will leave Smoke Tree Stables at about 8 a.m., Jan. 31, and expects to arrive in the scenic Whitewater area at approximately noon.

ONE NIGHT AND four meals later, the horsmen (and horsewomen, too) will head back to the Village, arriving in Palm Springs late Sunday afternoon.

Riders without mounts will be able to rent them for the occasion at Smoke Tree Stables. A charge of $10 for the trip will be charged for the horses. With or without horses, the charge for the trip, including meals, is $5.50. The meals include lunch and dinner on Saturday and breakfast and lunch on Sunday.

Long recognized as one of the most beautiful locales in the desert, the Whitewater campsite is located behind the Whitewater Fishing Hatchery. Access by road is available for tenderfeet who don't care to ride the trail.

RESERVATIONS FOR rides or for motoring campers who intend to join the group at the site must be made before 7 p.m., Jan. 29. To make reservations, call Lynn Simon at FA 5-5256 or Judie Davis at FA 5-7071.

"Whitey" Keifer, director of the Mounted Drill Team, has reported that the Whitewater site is well-equipped. The riders will sleep in sleeping bags at the site, he said.

Adlai Favored By Eleanor

NEW YORK — (UPI) — Mrs. Eleanor Roosevelt said today she would favor Adlai Stevenson as secretary of state in a Democratic national administration.

Mrs. Roosevelt made the statement in her question and answer column in McCall's Magazine.

Dulles Terms Spring Big Four Meeting 'Timely'

WASHINGTON — (UPI) — Secretary of State John Foster Dulles said today it would be timely to have a Big Four foreign ministers conference sometime this spring on European and German problems, including Berlin.

At the same time, Dulles warned that Russia is trying hard to delude the United States into thinking it wants to end the cold war. Actually, he said, the Soviet is seeking military and political advantages.

Dunlevie to Aid CC Realtor Fete

CATHEDRAL CITY — Ernie Dunlevie, former president of the Palm Springs Real Estate Board, will play a "good neighbor" role when he aids in installation of newly-elected officers for the Cathedral City Board of Realtors at 7:30 p.m., Wednesday, in Laurye's Steak Ranch.

The installation of the new officers will be preceded by a dinner, Cliff Sharp, president of the Cathedral City realtors, said.

Political Crisis Shakes Italy; Premier Sought

ROME — (UPI) — President Giovanni Gronchi launched efforts to find a new government today, hoping to avert a crisis which could plunge Italy into chaos.

Gronchi called in Senate President Cesare Merzagora for the first of a series of talks with prospective premiers that is expected to last at least five days.

Political observers saw no prospect of Gronchi's finding a new premier until sometime next week. They believe the choice probably will fall on ex-Premier Antonio Segni or outgoing Interior Minister Fernando Tambroni.

80 Per Cent Production Hike Sought

Nuclear Stalemate 'Forces Soviet' Into Economic Fight

MOSCOW — (UPI) — Premier Nikita S. Khrushchev launched the Soviet Union today on an economic offensive designed to overtake the United States before 1970.

He aimed at a victory of Communism over capitalism by industrial might alone. But he also disclosed the Soviet Union is militarily strong with "massive production of intercontinental ballistic missiles" under way. He did not explain what he meant by that phrase.

KHRUSHCHEV DECLARED that the Soviet success in launching the cosmic rocket proved the U.S.S.R. can launch rockets acurately to any point on earth.

But the main point of Khrushchev's major address to the 21st congress of the Soviet Communist party was a direct challenge for a peaceful economic battle between East and West, which he seemed certain the Moscow camp would win.

WITH MILITARY forces of both sides cancelled out by nuclear stalemate, the Soviet Premier indicated economic power would be enough to insure the eventual triumph of Communism over capitalism.

Khrushchev also:

—Reiterated Russia's position on Berlin without indicating he has budged at all since Nov. 27 when Western withdrawal from the city was demanded.

—Expressed utmost priority for a German peace treaty because he said Western Germany is being turned into a nuclear rocket base.

—PREDICTED DEPUTY Premier Anastas Mikoyan's American tour can lead to improvement of Soviet-American relations.

—Said disarmament and cessation of nuclear tests remain major goals of Soviet foreign policy.

—Said there are ideological differences between the Soviet Union and the Middle East countries, particularly the United Arab Republic, but added both sides have a joint interest in the struggle against "imperialists."

KHRUSHCHEV WAS buoyant and joyful as he put forth his tax-free seven-year plan before a cheering Communist Party Congress and said it was aimed at ending the cold war by making Russia supreme over the capitalist world.

As a token of the Communist system's rising strength, he said, the direct taxes on the people will be abolished in the "near future." He then called for an 80 per cent increase in overall production to bring Russia abreast of the West.

Hearing Set Feb. 4

Increase in City Fees Proposed

An eighty per cent increase in business license revenues has been proposed by the City Council, with a public hearing set Feb. 4 to air the matter.

The business license increase which has been under survey by the city administration and council for more than a year, will double most of Palm Springs license fees, with the added revenues to be used for publicity and promotion of Palm Springs through the Chamber of Commerce.

HEAVIEST INCREASE under the tentative revision plan, is seen for out-of-town wholesale produce firms, whose fees will jump from $25 to $400. Out-of-town laundries and dry cleaning firms which previously paid something around $150 also will have a fee of $400 a year.

Local doctors and professional men have been listed for a sizeable increase under the proposed plan. Although their fee is set by a graduated scale, a doctor, lawyer, architect or engineer who previously had one or two employes and paid $25 a year, will pay $100 under the newly proposed plan.

THE CITY OF Palm Springs currently collects approximately $94,000 a year from business license fees and the increase will bring this figure up $74,000.

In surveying the proposed increased in business licenses, the council has asked for a more equitable distribution of fees among local businessmen. In one case, dancing clubs and dancing halls, formerly paying $3 a day or $150 a year, have been re-surveyed and increased to $25 a day and $300 a year.

Real estate brokers will pay a doubled fee of $50, while real estate salesmen have been increased from $15 to $25 a year.

A FEW BUSINESSES were not increased, and one — general engineering contractors — was decreased from $100 to $75 for local and from $200 to $150 for out-of-town firms.

Firms presently on a graduated scale relating to employes will continue on that basis, but increased charges will be reflected in the number of employes. Under the present setup the maximum was 15 employes and over, while under the revised schedule the employes go up to 50 and over

Under the increase, the rates have been set at $250 for 15 - 20 employes; $300 for 21 - 30 employes; $350 for 31 - 40 employes; and $400 for 41 to 50 employes, with a $5 per employee charge for each over 50.

The hearing on Feb. 4 will be held at 8 p.m. in the council chambers at the City Hall.

AN INJURED PEDESTRIAN, Maud B. Murchie, 65, of Sahara Trailer Park, is comforted by passersby after she was struck by an auto while she walked across Indian Avenue at The Plaza Saturday afternoon. Officer Robert Sandeffer, left, said the woman was in a pedestrian crosswalk when she was allegedly struck by an auto driven by Irene D. Withrow, 38, of Indio. The injured woman suffered a broken arm and the driver was issued a citation charging her with violating a pedestrian right-of-way and failure to have a driver's license in her possession, police said.

Small Tract Auction Set For Feb. 11 in Los Angeles

Seven sections of Desert Hot Springs area lands will be offered for bidding at a small tract auction scheduled for Feb. 11 by the United States Interior Department's Bureau of Land Management.

Previously held under leases which have expired, the lands offered for sale are located between five and 12 miles southeast of Desert Hot Springs and about 12 miles northeast of Palm Springs.

ORAL BIDS WILL be accepted at a public auction sale scheduled for 8:30 a.m., Feb. 11, at the Embassy Auditorium, 847 South Grand Avenue, Los Angeles.

Sealed bids must be properly executed and filed with the manager of the Los Angeles Land Office, 215 West Seventh Street, Los Angeles before 10 a.m., Feb. 10.

Bureau officials said that all the tracts are suitable for recreational purposes, but several are not regarded as suitable for residential purposes.

PROSPECTIVE BIDDERS were cautioned to investigate the land involved to determine whether the tracts meet their requirements for building sites.

The land, carrying appraised values ranging from $100 to $1,500, will be sold to the highest eligible bidder.

Sealed bids will be opened Feb. 10 and the highest sealed bid for each item will be read at the sale. Oral bidding will open at the appraised value of the land, it was pointed out.

LANDS IN THE Desert Hot Springs area involved in the sale are described as Sections 6, 18, 22, 26 and 28, T3S, R6E, SBM; and Sections 12 and 24, T3S, R5E, SBM.

Tracts vary from 1¼ to five acres in size and are accessible from Dillon Road.

Further information on locations, eligibiliy and bidding procedures may be obtained from Nolan F. Keil, manager of the Bureau of Land Management land office at 215 West Seventh Street, Los Angeles.

Similar lands in San Bernardino County, west of Barstow, are also offered for sale at the Feb. 11 auction.

During February

Camel Racing, Rodeo Here Among Southland Events

Camels will be racing again, the Palm Springs Mounted Police Rodeo, and the greatest camellia display in the world will occur in Southern California during February, according to the monthly events calendar issued today by the All-Year Club.

Colorful events make the area a more interesting place to visit and help the All-Year Club in its work of attracting some 4,000,000 tourists here each year to spend over half a billion dollars.

THE CAMELS WILL be racing daily at the Riverside County Fair and National Date Festival held Feb. 14-23 in an Arabian setting at Indio. There will be a Slave Girl Mart and Arabian Nights Pageant.

It's camellia time and Temple City holds its unique Camellia Festival Feb. 21-28. There will be a display of 1,500 blossoms on Feb. 21 and 22 and a parade of 4-by-6 foot camellia floats designed and propelled by children at 10 a.m. on Feb. 28.

Descanso Gardens in La Canada holds the world's biggest camellia exhibit Feb. 28 to March 8. About 50,000 bushes and trees will be in bloom and cut flowers will be shown by camellia societies.

AT A TIME WHEN most of America's farms are snowbound, the California Mid-Winter Fair and Festival of Nations will be held at the town of Imperial Feb. 28 - March 8. The festival honors eight nationalities who reclaimed Imperial Valley from the desert—China, India, Japan, Mexico, Pakistan, Philippines, Switzerland, United States.

Also in Imperial Valley, the Carrot Carnival will be held Feb. 19-22 at Holtville, America's "carrot capital." Bugs Bunny leads the parade and there are iced carrot sticks for all.

WHISKEY FLAT Days will be celebrated Feb. 18-22 at new Kernville beside Lake Isabella, the sportsman's paradise high up in the Kern River valley above Bakersfield. Old Kernville, now under waters of the lake, was known as Whiskey Flats in the gold rush days. There will be tours of mines and ghost towns and an old-time political rally to elect a mayor of Whiskey Flats.

Spectators on the Torrey Pines bluffs at San Diego will see several gliders in the air at once during the Pacific Coast Mid-Winter Soaring Championships there Feb. 21-22.

Palm Springs holds its 19th annual rodeo Feb. 7-8, starting out the season for the RCA cowboys in their bronc riding, roping, and bulldogging.

Speaker Says Religion Now To Meet Science Challenge

Religion of the present and the future must meet the challenge of the discoveries of modern science, Mary Wellington Gale of San Francisco told an audience here Sunday afternoon.

"Atoms for peace," Mrs. Gale said, can bring freedom from want to the people of all nations. But only the regenerative action of spiritually scientific healing can free humanity from the evil tendencies which would block true peace, she said.

THE FINDINGS OF the physicists "call for something more than faith in a personal God responsible for a world of matter," Mrs. Gale declared. According to Christian Science, she said, "we are assured that God never made matter, therefore we need not fear it." The true nature of power is spiritual, she declared.

On extended tour as a member of The Christian Science Board of Lectureship, she spoke in The Plaza Theater under the auspices of First Church of Christ, Scientist. Her subject was "Christian Science: Religion for the Present and the Future." She was introduced by George Mannington, First Reader.

HISTORY PROVES that a people's concept of God determines its civilization, Mrs. Gale said. That Diety is responsible for the elements of destruction, she held to be a misinterpretation of the Scriptures.

"The discoveries of modern science which have unleashed the power of the atom, for the benefit or the injury of mankind, call upon the religion of the present to relieve the human consciousness of this tragic misinterpretation."

PALM DESERT — Three building permits, totalling $608, were issued for area construction this week.

Permits were issued by the Palm Desert County Building Department office to:

A high order backlog will keep the nation's shipyards humming for the next two years, according to industry spokesmen. Shipyards have on hand more than one billion dollars' worth of shipbuilding orders.

The Castro Dictatorship

WASHINGTON, D. C. — They still have a one-party system in Cuba—dictators. Batista made himself President. Fidel Castro appointed a stooge who in turn named Castro his military chief. Neither way is any way to run a republic.

If Cuba were as far away as Laos, choice of dictators would be an academic, harmless game in the USA. But with Cuba only 90 miles off our coast, and an economic dependent of American business, we had better stop playing games and start looking up remedies for offshore revolutions.

IN THE GAME of choose-your-dictator, some members of our press have regrettably followed their party line instead of the facts. One metropolitan paper around New Year's reached back to pre-Christian classical days to find an analogy of the bearded young hero riding to the liberation of his worshipful people.

But let us draw the curtain of charity across these embarrassing extravagances. With Castro in and Batista out, the joint interest of both Cuba and the USA is to rescue Castro from the revolving door through which so many Latin dictators have come and gone. We should use him as a safe conduct to a constitutional government in Cuba.

AMERICAN STATESMANSHIP has been spotty but with patches of excellence. We owe a lot to Senator Wayne Morse of Oregon. He was the first of the liberal fraternity to point out that blood was flowing in Cuba and deserves credit for arousing both public opinion and the State Department against the slaughter which has temporarily abated. All in all, the forebearance of the American government has been worthy of our position as a major power and a mature country. True, Latin ways are not our ways, but until we have a perfect system at home we had better favor self-government over self-righteousness.

IT'S ALSO A GOOD idea, and fairly widely observed in the press and in Congress, to resist the temptation to shout "Communist" at every foreign event which goes against our interest. But it would be naive to forget Russia's fondness for fishing in troubled waters.

Under the Batista regime, Russia agreed to buy some Cuban sugar. As a result Soviet merchant ships, chock-a-block with electronic reconnaissance equipment, have been cruising off our shores .We could be more indignant about this if American traders had not recently been so cordial to Soviet Deputy Pemier Mikoyan.

BUT NEITHER will it do to write off Fidel Castro asd his ubiquitous brothers as agrarian reformers and innocent progressives. For instance, Time Magazine, July 8, 1957, carried a digest of a Fidel Castro speech, published at his own expense, in which he promised the following program should be become dictator of Cuba:

1. Nationalism of U. S.-owned power and telephone companies.
2. Confiscation of all wealth gained by governmental corruption.
3. A drastic land reform.
4. Profit-sharing for labor.
5. Expansion of industrialization, public housing, rural electrification.

CASTRO PLANNED this program while in exile. His preaching of it is one reason why his rebellion succeeded. The USA has a right to show concern over this. If Castro intends to socialize Cuba and to expel American business, this Administration will hardly want to preside over the liquidation.

On the other hand, if Castro was merely making irresponsible, rabble - rousing promises which he will not ruthlessly break we are dealing with a very mixed-up kid, indeed. Finally, if Castro is overthrown, as does happen to demagogues and dictators, the next rebellion of disillusioned peasants will be far more red—in blood as well as in ideology.

ALTOGETHER, the most charitable view of the Cuban revolt is that it is regrettable. We should have used all good offices, short of intervention, to make resullts of last November's Cuban election stick.

Whether the president-elect (a Batista stooge) would have been better than the provisional president (a Castro stooge) is too nice a point for American judgment. But stability is still what we need for Cuba. Castro is established in power. We have recognized his government. We should hope and plan for his success, despite the bad omens.

Our role in Latin American affairs would be improved if it were more he school teacher and less the policeman. In this I am no doubt biased, as I used to teach school myself. I noted then that the surest way to draw a student's best efforts is to expect it of him. And perhaps this is what the State Department should do, and is doing, with the Castro regime. If we expect good things of him, he may reward both himself and us.—**Holmes Alexander.**

Other Reasons for Mikoyan Visit

Anastas Mikoyan, in our opinion, was sent to the United States at this particular time for reasons more important to Russia than her proposal for Berlin, trade, or to arrange for a Summit meeting.

First, there appears a popular misconception that Mikoyan is the Kremlin's Number 2 man, in the sense that he is second to Khrushchev in power. This is absolutely not so. Mikoyan could hardly be expected to succeed Khrushchev as the Party Secretary, or become the leader of the Soviet Central Committee. He has no such rating in Russia.

MIKOYAN IS A trade expert, an able economist with a flare for diplomacy. He is an excellent front-man to send abroad. He is a good actor, who can hide his real intentions behind a facade of respectability, sense of humor and affability. He has been very successful in negotiating agreements of various kinds for Russia. He was hand-picked to come to the United States for reasons not obvious in the press reports of his daily itinerary here.

We believe Mikoyan came to the United States at this particular time because conditions are not going well at home . . . or with Red China. Russia has committed so much of her wealth to science and research that she has exhausted her ability to provide consumer goods, as promised her citizens.

WE BELIEVE Mikoyan was here to impress the American people with his friendliness and to convince us that Russia would be no risk at all for U. S. loans, and goods on long term credits. Russia is starving for civilian products, which she cannot produce. On our last trip to Russia public protests were evident everywhere because of shortages.

Mikoyan's visit could have been arranged to bolster the prestige of Russia abroad, especially inside Red China. His visit is being publicized by Moscow as an "invitation" from the United States, which is not the case. As a matter of fact, one report went out from Tass, the Soviet news agency, that it was Khrushchev who was invited by us, but he could not accept and sent Mikoyan instead . . . which is of course not the case, either.

There are constant reports of an open rift between Russia and Red China, because of Russia's opposition to the Chinese communals and the enormous emphasis on industrialization. Russia apparently fears Chinese industrial expansion.

MIKOYAN'S VISIT could have been calculated to bolster the declining prestige of the Communist Party in the United States. For, in addition to his highly publicized meetings with prominent Americans, he has also been meeting with not so highly publicized Communists, mostly of course in secret. His presence will undoubtedly build up the morals, if not the finances, of the U. S. Communist Party.

His presence may have something to do with Russia's increased interest in U. S. stock purchases, for the purpose of securing earning reports, production, etc., available periodically to stockholders. He could be setting up, as an economist, a more elaborate group of researchers at the Soviet Embassy, after a close personal look of conditions inside the U. S.

MIKOYAN MAY have in back of his mind the inducement of orders and profits for American business men, who could support a loan to Russia for the purpose of buying American goods. Eric Johnston is one of many prominent business representatives vitally interested in such loans, for in his case the film industry can export its product to the enormous mass market of Russia and Red China.

Mikoyan's visit could include following up Russia's previous suggestion for a Summit meeting to be held in Communist Poland. Such a meeting would have the tendency of raising Soviet prestige, especially if it were held inside Communist territory. His friendly attitude may be calculated to soften the American people into believing him to be, as one politician did, "a good old Joe." We can recall another politician (President Truman), who referred to Stalin in Potsdam as "a good old Joe," also.

HE MAY HAVE been here to purchase important strategic materials for Russia and Red China, now under embargo, as a concession for a compromise on Berlin. It may be that trouble with Nasser is forcing Russia to another agonizing reappraisal of her Middle East policy, by pretending to Nasser that she is getting closer to us.

Mikoyan may have, in the luxury of his private hotel room, recognized the overwhelming superiority of the American way of life, and reflect from what he has seen that Americans will go through any sacrifices to preserve it. Maybe we softened him up, too. There is always chance that his visit will do some good. We hope it does. But before any good can come from a visit, some good had to come with it.

WE DON'T BELIEVE that any part of Mikoyan's Kremlin instructions before his departure included any genuiine proposal of good-will, for either the people or the government of the United States, which they openly and avowedly despise. Pernrurwemihhtbypas b-'s Pst ar haps by the time we return to Russia this Spring we'll have a better idea of what Mikoyan was up to in the United States.

As of now we believe he came specifically for grandiose international propaganda . . . to explore and exploit any weak links in our national chain . . . and perhaps for more than any other reason, to try and sell us a bill of goods with the chips on his shoulder and none o ntre table.—**John Morley.**

Little grains of sand
Wipe out all the paint,
So where there should be
Traffic lines, there ain't.

Picking up where I left off Saturday, here's some more about the traffic hazard on North Indian Avenue.

THE KIDS won't like this, but it has been reported to me that if somebody got busy and planted castor bean plants on the windward side of Indian Avenue, in a few months there would be sufficient protection to keep the windblown sand from erasing the white line which guards motorists.

And it wouldn't cost too much for these castor bean plants grow out here like crazy.

The kids need not worry. These plants will be there just to serve as a windbreak—not to produce oil.

I DON'T SEE why not. Years ago the wind used to whip down out of Cajon Pass and stymie traffic on all roads between Ontario and Colton.

They planted eucalyptus trees like mad there.

Now, traffic is rarely tied up. It once was usual.

Seems to me some smart engineer could devise a windbreak in this area.

WHILE ON THE SUBJECT of traffic—I wonder why it wouldn't be smart to establish a "Right Turn Only" lane on Indian Avenue, downtown, in the 100 block into the Bank of America parking lot, the most-used in town.

It would eliminate a lot of traffic tie-ups caused when motorists wait in the main traffic lanes, to get into the lot.

Also do away with much hornblowing.

ALTHOUGH I brag that every evening I read The Desert Sun from the top of Column One, Page One, to the bottom of Column Eight, last page, I must have goofed last week.

For it took Jay (Town and Country) and Ramey (Dunes) to call my attention to a news item.

That concerned the man who was frozen stiff for 10 hours in upper Michigan and who was thawed out by doctors.

, THE MEDICOS said that the reason he was alive was because he had been drinking so much, the alcohol acted as an anti-freeze, the way it does in automobile radiators.

Ramey and Jay had similar reactions from customers to whom they showed the clipping from The Sun.

Although it was 76 here at the time, both said that every client cried:

"Gimme another quick!"

I'VE GOT a new calendar. The other day I complained that, when the 1959 calendars were distributed, I was given one with a sad-eyed fish instead of a pretty girl.

Helen Morris of the Palm Springs Drug, took care of that.

A calendar. No pretty girls. But 12 months of fun. Thank you.

This isn't nice—but I like it.

"Women are creatures who wrap a man either around their little fingers, or around their front bumpers."

STAN DELAPLANE'S Postcard

Deep in the snows of Squaw Valley this icy morning. We are 6200 feet up in the Sierra Nevada of California. Site of the 1960 Winter Olympics.

If we wanted to, we could go up to 8885 feet. On a bucket seat chair-lift.

THE SEATS HANG on a high wire and swing back and forth in a most thrilling way. I am willing to take other people's word for this—no point in my swinging way up there in the cold, cold air when hundreds of others are doing it and telling me about it.

I am the world's greatest indoor skier. The view through the picture window is excellent. Warm in here, too.

EITHER THEY ARE making ski pants tighter this year, Sam. Or else the squaws around Squaw Valley are getting fatter.

That is a fashion note I observe through my picture window.

The ski ladies must have been poured into their costumes. (Somebody tells me that ski pants are now being made of a new miracle fiber. It stttrrrrettttches from this-away to that-away.)

WE ARE STAYING at Squaw Valley Lodge, the only hotel in this two-by-one-half mile valley.

When the Olympics come here, this lodge will be occupied by Olympic officials. The audience will be spread around the 72 miles of shore line of Lake Tahoe—the nearest point is seven miles away.

A confident release from the Chamber of Commerce says they can house 10,000 people in the summer resorts around the lake. Reno will take on another 10,000 with help from neighboring Nevada towns.

They are even planning commute buses from Sacramento, 100 miles downhill toward the Pacific. Rooms all over the area are reserved and at a premium.

I HAVE RUN INTO a man today with a built-in gold mine. He has been making a survey of unlikely hiding places. Right within the Olympic area.

"Right now, I can house at least 100 people," he said. "Right within a half a mile of here."

"And they won't be found out?"

"They will never be touched. I will guarantee you will sleep warm and dry and won't have to walk as far to the courses as the officials themselves."

I asked him what he was going to do with this valuable information. Maybe rent out bootleg rooms?

HE SAID HE wasn't sure. Being around ski resorts oh short money, he had just naturally kept an eye open for such things.

"Like in most ski resorts you can sack up in the linen closets. Did you know that?"

"No. What do you do when the maid comes?"

"You have to carry an alarm clock as part of your equipment. Get up before she gets there and have a place picked out to hide your sleeping bag. Linen rooms are generally quite comfortable."

SKIING IS an expensive sport. Most skiers, being young, are on the shorts. They develop wonderful ways of cutting costs.

"For instance," he said,"you want to hang around the lodge in the evening and have fun. But you have to carry a glass of beer around with you. Well, you grab an empty glass and wash it out. Keep a few cans of beer in your sack.

"Go out and bust open your own can. Fill the glass and come back in. That's basic."

HE SAID HIS 100 hidden rooms are in the new construction that is going on all over the valley. Bleachers and things like that.

"They leave a lot of waste space in any building. I started poking around in these places while they were under construction. Did I say 100 places to sleep? I'll bet I can locate 200 first-class hideaways before the Olympics open."

NEW YORK— Trotted over to the dressy Animal Kingdom Ball which Joan Crawford chairwomaned for the ASPCA and found Our Town's leading ladies discussing their animals—their dogs, monkeys, hamsters . . . and husbands.

While I was bragging about our monkey, Scratchy, who drinks coffee, Mrs. Durward Kirby said:

"Come over here and meet my girl friend, Brandy. She has a monkey that drinks martinis."

Martha Raye noticed a couple of wolfhounds on leashes at the ball (held at the Pierre) and insisted on getting them some water. (This was about the only water drunk at the ball.)

Martha—who owns four basset hounds and a boxer—told me that Grace Kelly just sent a toy poodle to her daughter, Melody, a grown-up girl now in high school. It was in return for Martha's playing a benefit in Monaco last summer.

"We call it 'Monac'," Martha said.

Then Martha asked if I'd mention her husband Bob O'Shea's detective agency which he calls "Personal Security." He has 18 ex-paratroopers and ex-detectives sleuthing under him.

"What do they specialize in—divorce evidence?" I asked.

"Oh, no" Martha replied proudly. "Sure, they tail. But they also repossess cars, they recover stolen pearls and all that jazz. They can tail cheatin' wives and husbands, but they won't bust in a door for adultery evidence—that's too messy"

I was surprised about Bill Parsons, the hot new singer, coming from Wellston, O., because such boys are usually from Tennessee. Bill, who's married and father of three, was given a party at Toots Saor's honoring his record, "The All-American Boy," an Elvis Presley satire. I asked if he was born in Wellston, and he said, "No, in Crossville, Tenn."

Not Ulcers, Just Nerves

HOLLYWOOD — Susan Hayward hops back to her home in Georgia the minute she finishes "Snow Birch" at 20th-Fox. She won't make another movie until next year because she and her husband, Eaton Chalkley, will be busy - beeing another business project in the interval: opening a string of motels in the South.

Debbie Reynolds' doctor, worried that it might be ulcers, finally diagnosed her ailment as the natural result of her marital upset: "a bad case of nerves."

How do Liz Taylor and Eddie Fisher spend their evenings? They went to the Hollywood Paramount Theatre the other night and held hands through the late screening of "Some Came Running."

MARY BETH HUGHES went over to Hollywood's Theatre of Arts to interview producer Harold Kennedy fo the role of the ingenue lead in Pat O'Brien's revival of "The Front Page." He agreed she'd be fine for the part but decided against it when she said, "I'll take it if you let my mother set up a concession in the lobby to sell pizza-pies to the customers during intermissions." Eden Hartford, Groucho Marx's wife, got the part instead!

Reader's Digest commissioned Lillian Gish, discovered by D. W. Griffith in 1913 for "The Birth of a Nation" and still working (for John Huston in "The Unforgiven"), to write Griffith's biography.

MAYBE HIT RECORDS aren't as important as they used to be —at any rate, Pat Boone hasn't had one in a long time, despite which 20th-Fox raised his salary for his next picture (still to be selected) to $250,000—up from $75,000 for his first movie, "Bernadine," through "April Love" and "Mardi Gras" at $150,000 apiece—so Boone babies Laury, Linda, Cherry and Debbie won't be wanting for the wherewithal for new shoes for quite a while yet.

Joi Lansing lit out for Las Vegas—because Las Vegas is where Frank Sinatra IS!

Shirley Jones and her husband, Jack Cassidy, decided they'd like to play the leading parts in Metropolitan Opera version of "The Beggar's Opera" and found a new way to audition for it: they made a tape recording of their night club act and sent it to Met opera administrator Rudolf Bing.

COLUMBIA SPENT $50,000 building a hacienda on the fabulous Sullivan Ranch in Utah. It's used as a set for the new Gary Cooper - Rita Hayworth movie, "They Came to Cordura." After the picture was finished, the studio decided it would be cheaper to give it to the Sullivanites than tote the whole set back to Hollywood. Whereupon the Sullivan people tore it all down, used it for kindling wood, and turned the site back to its cattle for grazing.

Jack Benny FINALLY met the cheapest actor in Hollywood—"The guy went out to buy his girl an engagement ring," Jack tells me, "and got his finger crushed between two pushcarts!"

CHANNEL CHATTER — Playhouse 90 director John Frankenheimer finally came up with an answer to Art Linkletter, who blasted John for chasing one of Art's juvenile guests off a rehearsal set:

"I consider this another example of 'Culture King' Linkletter's deplorable lack of taste. He has helped bring TV to the state of mediocrity in which it now finds itself. I consider it in the nature of a compliment to be 'disliked' by Mr. Linkletter, a man whom I've never met. He is a crowning symbol of everything we want to get rid of in TV." Okay, Link, top THAT.

IRISH ACTOR Stephen Boyd turns on his Cockney accent to tell the one about the Cockney who asked his boss for a raise in pay—"and sure enough," says Steve, "that's what he go—a raisin pie."

Producers of this year's Acaddedy Awards telecast (April 6, from the Pantages Theatre, as of yore) are designating TV stars Dinah Shore, Lucille Ball and Sid Caesar to "stumble" onto the Oscar show, "mistaking" it for their own Emmy Awards telecast—and then burst out singing a special-material song called "I'm Glad I'm Not in Pictures"

Mort Sahl, Incidentally, joins the Oscarcast's tuxedo'd brigare of fifve emcees — except that Sahl will disdain the formal gade of five emcees — excent nightclub attire, a sweater and slacks.

Personal Opinion Dep't.: I like Omnibus better since they came down to earth and started calling their bankrollers "sponsors" instead of subscribers."

Allan (ex-Matinee directcor) Buckhantz refused to go down the drain with that daytime show. Instead he wrote a play, "The Happy Town," raised the $300,000 necessary to stage it, and is in Hollywood now casting it. Comedy tells what transpires in a town in Texas when the townspeople learn theirs is the only burg in the whole state that doesn't boast a single millionaire.

EX-MGM chief Dore Schary's first show for NBC-TV under his new contract will be "Blueprint for Biography" on the network's Kaleidoscope slot Sunday, April 5. Lives of famous people will be discussed on the show by Schary, Charles Van Doren, Arthur M. Schlesinger Jr., and (if negotiations go through) John Gunther.

Overheard at a Danny Thomas rehearsal: "He took the defeat like a man—blamed it on his wife."

THE LITTLE RED SCHOOLHOUSE was never like this. Judy Allen, 10, a student at Palm Springs' Cahuilla School, tries out new-fangled school desks with movable parts designed to promote student classroom effort. Shown with Judy during the unveiling of the new desk at the American Seating Co. convention at El Mirador Hotel is Dick Vander Veer, left, the desert spa's general manager, and James M. Ver Meulen, the seating company's president. Among the polymer plastic desk's outstanding features are: 1. An adjustable swivel seat that conforms to the body and moves forward and backward according to the student's space needs. 2. An adjustable top, which raises to several eye levels, thus eliminating eye and body strain. (Conrad Hug Photo)

Coachella Valley Group Studies United Fund

Further exploration of the need for a United Fund in the Coachella Valley will be one of the major projects of the Coachella Valley Coordinating Council, it was announced by President Max Willcockson, who presided at the regular January meeting of the organization.

Harry Harper, a former Valley resident and now publicity director for the Riverside County Fair and Date Festival, outlined the advantages of one drive instead of many separate appeals.

ONE OF THE primary purposes for establishment of United Fund is the insurance against constant separate fund solicitation campaigns, he pointed out. "You can nickel a community to death," he asserted.

Mrs. William Longenecker reported on response to the questionnaire sent to all valley organizations, aimed at expediting the study of coordination and possible improvement of welfare programs in the Coachella Valley.

MRS. J. KELLEHER, chairman, who is with the Riverside County Welfare Department operating in the valley and Blythe areas, will report findings at the February meeting.

The next meeting of the group will be held at 12:15 on Feb. 16 at the Hotel Indio.

FOUR OF THE SCORE of models who showed off Western and sports fashions from Scott's Desert Wear for members of the Southern District Conference of the Business and Professional Women's Clubs at El Mirador Hotel last week are shown above. Sonja Dragge, Dickie Brubaker, Joan Pace and Larry Brubaker, from left, modeled the gear they're shown in but the display also included nearly 50 other costumes. Approximately 300 women—from San Diego, Imperial and Riverside counties—watched the show during their luncheon. (Desert Sun Photo)

25 Bands Expected

Date Festival To Have Music

INDIO — Bands from many parts of Southern California were hurrying today to get their names on the entry list for the brilliant annual Parade of Riverside County Fair and National Date Festival, scheduled for Monday, Feb. 23.

Chairman Abe Abersold of the Coachella Valley Sheriff's Posse committee handling the parade, said that 15 bands already are either entered or have notified him of their intention to do so.

"WE THINK WE'LL have more than 25 in the line-up by Feb. 10th, colsing date on entries," the chairman said.

There will be more than 20 outstanding floats, numerous mounted groups and many other miscellaneous entries that are expected to classify the parade as the largest in the history of the Date Festival.

TWO "FIRST - TIME" bands in the Festival marching will be Nor-o Junior High School Viking Band with 39 members, and the Mecca-Oasis Band consisting of 55 students. Others already entered are the Perris High School Band, the 40-member Garden Grove Argonauts Band and Drill Team; the 70-piece Sturges Junior High School Band and its pom-pom unit from San Bernardino.

Drill teams also will be much in evidence. Already entered are the Arabette Drill Team from Thermal Rhythmettes and Farmerettes of El Centro, made up of girls between 9 and 12, the Arabette Drill Team from Garden Grove, and the Donna Klaus Twirlybirds from Arlington.

Growing Up

WHITE PLAINS, N. Y. — (UPI) — The Westchester County Park Commission has taken official note of the fact that, according to statistics, the average American child is taller than he or she used to be.

This year, boys and girls have been admitted at reduced rates to the commission's pools, beaches, skating rinks and other facilities if they were less than 58 inches tall. Next year, the limit will be 60 inches.

Backstrand Hails Number Of Visitors to Sacramento

The increasing number of Riverside County residents visiting Sacramento since the opening of the present legislative session was hailed by Assemblyman L. M. Backstrand today as an indication of the growing interest in State Government that is taking place at the local level.

"I am always delighted to have visitors from home and I welcome the opportunity to help them in any way I can," Backstrand said.

"BUT I A MMOST pleased when the people of my district show an interest in their State Government."

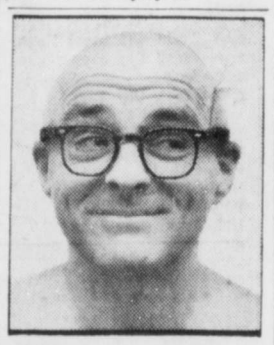

Backstrand said recent Sacramento visitors included:

Mayor B. W. Burkhardt and City Manager James Tennant of Indio; Don Short of the Boyle Engineering Co. of San Diego, Indio city consultant; Everett Grubb, of Elsinore, manager of the Western Municipal Water District; Corona City Manager Ralph D. SONOTONE DID! Our amazing eyeglass model lets him hear with both ears . . . yet he wears nothing in either ear!

How is it done . . . with no button, no cord, *nothing* in either ear? The secret is the new *binaural hearing method* combined with Sonotone's original bone-conduction invention.

In the Southland... Ford is the best seller...

...*because* it's America's "best-looker"

Trust Americans to choose the one new car that's beautifully sensible

This year, with a wide choice of designs, America has made its mind up overwhelmingly for Ford.

Ford has the classic simplicity that people of good taste automatically prefer...wonderfully crisp and clean lines without unnecessary clutter or brassy ostentation.

And just see how sensible this beauty really is. The sparkling new Fashion Star grille of anodized aluminum will never rust or tarnish.

New Iris-eye taillights, beautiful by day, appear even larger by night for greater safety. And Ford's new Diamond Lustre Finish never needs waxing to keep its beauty.

Of course, every inch of every Ford is built for savings—from standard Thunderbird V-8 or Six engines that thrive on *regular* gas to the new aluminized muffler that lasts twice as long as ever. You can save on oil, too . . . for Ford needs a change only every 4,000 miles.

With all this new beauty and economy, is it any wonder Ford's out front for 59? Come see it at your Ford Dealer's soon.

For the most beautiful news of all, come in and check Ford's amazingly low price... the lowest price of the top-selling three. —And check the cost of accessories, too. You'll find the savings are even bigger!

That was enough to give him a 3-stroke lead over Jimmy Deparet, three-time winner of the event, and Ken Venturi, who tied for second with 269.

DEMARET, WHO won the Thunderbird tourney three times, had a 70 the last day and Venturi, coming from behind, had a 66.

THREE GRIDDERS KICKED OUT FOR EXAMS CHEATING

MORGANTOWN, W. Va. (UPI) — The West Virginia University football team was dealt a blow for the 1959 season Monday when three squad members were expelled for attempting to steal questions to semester examinations.

The dismissed players were probable starting fullback Glenn Shemblin, Sissonville, W. Va.; sophomore halfback Dick Manion, 20, Wheeling, W. Va.; and sophomore tackle Don (Duck) 20 Nitro, W. Va.

Coach Art (Pappy) Lewis said his squad would be hurting without the services of the gridders, but added, "I don't condone what they did."

Hillsdale Follows Closely in Steps Of Round Table

ARCADIA (UPI) — It is still too early to call Hillsdale "another Round Table," but the parallels in their careers stand out so marked that the Indiana colt could be said to be following in the footsteps of the all - time money champion.

And if Hillsdale wins this Saturday's estimated $180,000 Maturity, he will be well on the way toward equalling Round Table's remarkable winter season at Santa Anita last year.

Round Table came to Santa Anita last winter with a somewhat bigger reputation than Hillsdale carried west this year. Both had found themselves during their 3 - year - old season at Hollywood Park.

And both went on to score major victories in the East before heading west for the winter season.

Round Table went on to win five stakes at Santa Anita, including the Maturity and the Santa Anita Handicap. Hillsdale has won three stakes already and Monday was made a supplementary entry in the Maturity.

One of Hillsdale's wins at the meeting was over Round Table in the seven-furlong $50,000 San Carlos Handicap in which the champion spotted him 17 pounds and lost by a head. Oddly enough, neither Round Table nor Hillsdale can handle an off track, and Hillsdale was sent west last summer chiefly to get a fast track.

Should Hillsdale win the maturity, it would make the Santa Anita Handicap one of the great races of the year when he meets Round Table and gets a 19-pound pull in weights.

8-YEAR-OLD RICKY Vander Veer turned the tables on Basil O'Connor, president of the National Foundation, at El Mirador Hotel, while O'Connor and his wife, Hazel, vacationed there. The handsome son of the desert spa's general manager, Dick Vander Veer, turned up at the hotel with a homemade can labeled "March of Dimes" and some friendly persuasion. O'Connor, onetime law partner of the late Franklin D. Roosevelt, made his contribution with a silver dollar to conform with Ricky's western outfit. The 1959 March of Dimes campaign of the polio-fighting organization, which gave the world the Salk vaccine, is now also battling arthritis and birth defects. (Conrad Hug Photo)

O'CONNOR TELLS BENEFITS OF NATIONAL FOUNDATION

By FRED C. WEIGEL

The success of the development of a vaccine for the prevention of polio, for the National Foundation, has been extremely important in the development of avenues for the cure of cancer and other diseases, according to Basil OConnor, president of the National Foundation.

OConnor, in a press interview in his bungalow at El Mirador Hotel, explained that scientists have made big strides into the cause and cure of other than polio diseases "because of the 20 years of background given them for research by The National Foundation.

HE POINTED OUT that when Dr. Jonas Salk finally came up with what he though was a vaccine for the prevention of polio, he notified the Foundation that his studies and those of his co-workers had gone so wide that they had touched into the field of cancer, heart disease, virus disease, and arthritis.

But The National Foundation still has a big problem today, that of getting the polio vaccine into use by the people of the United States. OConnor reported that there was an alarming recurrence of polio epidemics in 1958 resulting from a dangerous vaccine use slowdown. He blamed this on the "carelessness and apathy on the part of the American Public."

O'CONNOR CITED a three point program to be undertaken by The National Foundation, with the first two being in the field of arthritis and birth defects. He said that between 11 and 30 million persons are affected by arthritis in the U. S. today, and 250,000 infants are born with birth defects every year.

The third is a professional educational program. During the past 20 years the National Foundation has traind and added 8,000 pairs of hands to the field of medicine and has set up a scholarship program that will train 505 persons for four years at a total cost of $21,000,000 in ten years.

In order to accomplish this continuing program, O'Connor said the need for funds is ever increasing, hence, the annual March of Dimes Drive.

O'CONNOR WAS asked by this reporter why The National Foundation held an independent campaign, instead of tying in with the local United Fund drives throughout the nation, and his answer was this:

"The National Foundation has a tremendous organization which has grown over the past 20 years. The people of America feel as though they are part of the organization which has done so much in the field of medical scientific research, professional education and medical care of its populace.

"Today," added O'Connor, "we will see no more large fortunes which can be turned over to medical research, such as the Rockefeller and Ford Foundations, and we have only two ways to go, to government controlled research or to The National Foundation.

"PEOPLE SHOULD not be forced to give to a charity — and I believe they are when they get salary deductions for United Fund. The people of America have a very important right — the right to choose, and I believe the United Fund takes this right away from them.

"I have no fight with the United Fund, but The National Foundation will not be a part of it. However, if in our research we run across a finding that we believe would help the reseach in cancer or heart disease, or any other ailment we turn the facts over to that organization," said O'Connor.

"WHEN WE BEGAN our studies into the field of polio we estimated that it would take 100 years of research to come up with a vaccine which would prevent it —we made it in 20 years. But the job is just starting."

Another matter which has plagued The National Foundation recently has been the report that the March of Dimes "conflicts" with the United Fund Drive.

"For 20 years," said O'Connor, "the March of Dimes has held their drive for funds in January, but today the United Fund overruns all the old established drive dates."

O'CONNOR IS A lawyer, formerly in partnership with the late President Franklin D. Roosevelt, and has been president of The National Foundation since its inception in 1938.

From July 1944 to October 1949 he was president of the American Red Cross, and from 1946 to 1950 he was chairman of the Board of Governors of the League of Red Cross Societies.

To completely cover the life of Basil O'Connor, it would take many more columns of print, but for a few highlights:

Desert Humane Society Starts Fund Campaign

PALM DESERT — Fred Williams, president of the Desert Humane Society of Coachella Valley, today announced the opening of a fund drive for construction of a new desert area animal shelter.

Williams said the proposed, centrally located shelter will be used to serve the inincorporated areas between Palm Springs and Indio.

THE FUND DRIVE announcement followed failure of a proposed merger between the Coachella Valley group and the Animal Protective League of Palm Springs.

Williams explained that his organization had suggested a merger with the Village League, but the plan fell through because of the League's plans to build a shelter in Palm Springs, he said.

Williams said the Palm Springs shelter would be of little benefit for communities east of the resort. Plans for construction of a Desert Humane Society shelter were then launched.

"THE DESERT HUMANE Society and the county sees a need for a centrally located shelter to benefit the communities east of Palm Springs," Williams stated. "We will start our drive for funds at once."

The shelter, he said, would care for "thousands of lost and abandoned animals which need refuge."

Williams asked all desert area residents and visitors "interested in animal welfare" to send donations to Desert Humane Society, Post Office Box 453, Palm Desert.

New Desert Highways Committee Plans Told

DESERT HOT SPRINGS — A new organization — the Desert Highways Committee — will be formed here in the wake of denial by the California Highways Commission of a rehearing on the Dry Morongo - Little Morongo highway controversy, it was announced this week.

Dr. James H. Compton, chairman of the Desert Hot Springs Chamber of Commerce highway committee, said yesterday that he would seek further local action and would institute a campaign to form such a committee with representatives from both high and low desert areas.

DR. COMPTON was quoted as having said that the committee should not only push for establishment of a Little Morongo highway but also become active "in other matters concerning highways in this section of the desert.

The DHS Chamber had violently opposed the selection of the Dry Morongo Canyon routing for the new link between major arteries. The Chamber, through Dr. Compton, had charged that opinions of desert residents had not been sought on location of the route.

DR. COMPTON declared that County Supervisor George Berkey had "disenfranchised" the desert communities by waiving hearing on the matter. The action by Berkey touched off a new cry for creation of a desert county.

The new California Highway Commission, seated only last week, voted to back the recommendation of Chief Engineer Clyde V. Kane, of the San Bernardino office of the California Department of Highways.

THE NEWLY - SEATED commission, in a letter directed to Dr. Compton, said that it had decided to follow Kanes recommendation and utilize the Dry Morongo route, taking the route of the present Twentynine Palms thoroughfare as a pattern.

The Desert Hot Springs Chamber had been joined by many other organizations in advocating the Little Morongo route north from Indian Avenue.

Dr. Compton did not indicate when he intends to launch a formation move for the Desert Highways Committee.

'Won in Crap Game'

'Bogus Money Orders' Charged

A 36-year-old cook who allegedly tried to parlay his crap game winnings into a $2,000 string of bogus money orders wound up in jail on forgery charges here today.

An alert liquor store clerk was today credited with halting the Village progress of George W. Faison, of Los Angeles, who was booked on suspicion of forging stolen money orders.

DETECTIVE RICHARD Harries said Faison admitted passing at least 10 forged money orders for about $140 each in the Los Angeles area. He was arrested after cashing two orders for the same amount here.

Police were alerted by store clerk Bob Milton, who said Faison "acted suspiciously" when he attempted to cash a money order at Young's Liquor Store.

Faison and a companion, William James, 49, of Los Angeles, were arrested on a Village street a few minutes later by Officers Bob Sandheffer and Herb Shallies.

JAMES WAS released after questioning by Detectives Harries and Dick Larson, but Faison was held when officers found three money orders, each made out for $140, in his possession.

Investigation revealed that the money orders were taken in a Jan. 8 burglary of offices of the Ziedes Food Centers in Phoenix, Ariz.

But Faison claimed he had no part in the burglary.

"I won the checks in a crap game in Los Angeles," he told Harries, adding that "the man I won them from had more than $100,000 worth of them."

Second Cuban War Criminal Sentenced to Death Today

HAVANA (UPI) — Maj. Pedro Morejon Valdes, second "war criminal" to be tried here, was sentenced to death early today after an all-night trial.

A three-man revolutionary tribunal found Morejon guilty of assassination, theft and other crimes despite the fact that only about a third of the 55 witnesses called against him were able to offer first - hand testimony about his alleged crimes or to identify him as their prepetrator.

THE DEFENDANT, wearing prison blues, was seated between two similarly - clad men of approximately his height and build. Witnesses after witness failed in attempts to pick out the prisoner.

The defense argued also that there may have been confusion between the accused and two other Pedro Morejons in the army—one a major, the other a lieutenant. The defendant did not always use the "Valdes"—his mother's family name—which distinguishes him from the other Morejons.

THE CRIME MOST often mentioned in the testimony against Morejon was the killing of 13 farm hands, one of them a 6-year-old boy.

An unexpected sensation was provided for the spectators when Reina Cespedes, a girl from Oriente Province brought here to testify against Morejon, identified a spectator as having been one of his men.

Miss Cespedes said Sgt. Adolfo Perez, now assigned to the judge advocate general's office of the revolutionary army, bashed her brother's brains out with a rock after knocking him down.

Perez was promptly jailed pending investigation of her charges.

The play will run through Tuesday, Feb. 17.

Gambling Arrests

Tourists Await Judge's Verdict

TIJUANA — (UPI) — Scores of American tourists, caught in a raid on a gambling casino at nearby Rosarito Beach, today awaited disposition of their cases by Mexico authorities.

About 60 Americans were detained Monday when 100 Mexican soldiers, led by federal agents, crashed into the casino of the Rosarito Beach Hotel, 17 miles south of this border town.

THE SPENT Monday night in jail here awaiting a review of their cases by federal District Judge Eduardo Lange Martinez. Gambling is Mexico is a misdemeanor.

Those nabbed in the casino said they thought at first that it was a holdup when plainclothes federal agents, led by Col. Manuel Suarez Dominguez, chief of Mexico's federal judicial police, crashed in.

THE AMERICANS said it was nearly a half-hour later before it became known that the men who were scooping up money, piling wallets on tables and carrying everything away in satchels were officials.

The agents said they collected a total of $11,568 in cash, $18,690 in checks and $99 in silver

However, one of the Americans —John Nealis—said he alone lost $14,000 in racetrack winnings from his pockets.

Nealis and his brother, Tony, were identified by police as assistant cashiers at the casino. The two, residents of Hollywood, are brothers of Eddy Nealis, former manager of Agua Caliente racetrack and reported part owner of the raided casino.

Sales of component high fidelity equipment for home use will rise to a record 300 million dollars in 1959, the Institute of High Fidelity Manufacturers predicts.

Best-Seller Authors to Be Featured in Luncheon Panels

Arrangements to bring three panels of noted authors to Palm Springs are being completed this week with Book and Authors Guild. Each of the luncheon meetings, which will be held at the Tennis Club, will have a moderator and four authors, who will discuss their own best sellers. Dates selected are February 27, March 31, April 21.

Preliminary arrangements were made Friday, when Mrs. Eleanor Lee, west coast representative of the Book and Author's Guild, met at the Tennis Club with a small group of women, who have agreed to act as patronesses for the Palm Springs meetings. The luncheon meeting was arranged by Mrs. Austin McManus, assisted by Hildy Crawford.

Patronesses include Mmes. H. Bedford-Jones, George O. Wheeler, Herbert Burns, Frank Russell Payne, John Kenaston, Edward Banning and Mrs. McManus.

Around 100 women will be invited to subscribe to the three panel meetings.

The Guild, which was organized in New York, has two other Southern California chapters, one at Newport and one in Long Beach. The January 14th luncheon panel at the Balboa Club presented: John Bauer, as moderator; Jack O'Leary of Doubleday, Martin Dibners "Show Case;" Jim Backus (Mr. Magoo), "Rocks on the Rood;" Helen Hinckley "Reveille for a Persian Village;" Col. Gregory "Pappy" Boyington, famous Marine flyer of the Far East) "Baa-Baa Black Sheep." Because of the demand, this meeting was opened to men guests too.

The Long Beach meeting, the day before, offered the same panel, with the exception of Boyington, plus Sheilah Graham "Beloved Infidel," and Harold Lamb "Hannibal."

Programs for Palm Springs are not yet arranged but it is planned to bring Stephen Longstreet here as one of the moderators. John Clarke will also moderate a panel.

Other best seller authors appearing for the Book and Authors Guild this winter, include Bruce Cameron, "The Sins of Maria; Romain Gary "Roots of Heaven;" Louis L'Amour, "Sitka;" Millard Sheets, "Importance of Art in Daily Life;" Philip Wylie.

Among the moderators are: Bill Henry, James Doolittle, Harold Grieve, Ray Bradbury, Conrad Hilton, Don Loper, Abigail Van Buren ("Dear Abby").

The Book and Authors Guild was formed in New York in 1933, as the outgrowth of an interest in current best-sellers and how they attained their status by sales and sponsorship by major publishers. Started by Mrs. Warren Van Renselor Brown, the group originally Arthur Marx, "Not As a Crocodile;" Courtney Anderson, "To the Golden Shore: The Life of Adoniram Judson;" Stephen Longstreet, "The Burning Man;" Merle Armitage, "George Gershwin: Man and Legend;" Consul General numbered 100 but grew to 1000, and is now limited to that number, with a long waiting list.

Author appearance has been the key drawing point . . . because of the interest in origin of books . . . its writer, his background and objectives in publishing his story.

Names make the news . . . as everyone knows . . . but there are just three kinds of people who want to read about . . . their own names . . . names of celebrities they know about and are interested in . . . or names of someone who has done something shocking, spectacular or different . . . In Palm Springs there are other names that are well read . . . and even men tell me they read the names of new arrivals . . . particularly early in the fall . . . when golf foursomes are short . . . And just as it's true that names make the news . . . news makes the names . . . so that it's the people who are doing things that you read about . . . So let's drop a few names . . .

United States Army's James Van Fleet was here on a return visit . . . and guesting with Col. and Mrs. Welcome Waltz . . . British producer and son of one of Hollywoods' early film greats . . . Sir Douglas Fairbanks Jr. and his wife have been here for a quiet stay . . . enjoying the desert sunshine so different from London's famous fog . . and occupying the Jack Benny house . . . Egyptian movie mogul Gaston Hakim was Saturday night dining with the Edwin Silvermans and Jacqueline McIntyre at the Racquet Club . . . Also at the Racquet Club this weekend . . . Mr. and Mrs. Fritz Loeb (he's of the team of Loeb and Lerner that wrote "My Fair Lady") . . .

Edward Everett Horton . . . who was starred in last week's Playhouse production . . . hosted a post-theatre party and late supper at Desert Air Saturday night . . . His guests included Marjorie Lord (she's Danny Thomas's TV wife) and her husband Randolph Hale . . . Horton's niece Isabella Horton Grant . . . Frank Howard . . . Dorothy Stone (Horton's co-star) and her husband Charles Collins . . . and Jim Stapleton, also in the Playhouse cast . . .

After supping . . . the party moved into the lounge . . . where they listened to the music of Ace Balkin and his Trio . . .

Veteran actor Horton . . . proved as popular as ever with Palm Springs audiences . . . in his third appearance here . . . Dorothy Stone added appeal to the bill . . . and the play was beautifully tailored to Horton . . . Closing night found a Standing Room Only audience . . .

An interesting luncheon group at the Racquet Club Saturday . . . was hostessed by Edna (Mrs. Ed) Rothbart, winter resident from Chicago . . . In the party was Lorena (Mrs. Louis B.) Mayer and Maggie Ettinger . . . who spent the weekend at Tamarisk . . . Also Irene Dunne (Mrs. Francis) Griffin, Suzanne Kaiser and son Gordon, and artist John Morris . . .

Mrs. Mayer and Miss Ettinger are leaving in a few weeks . . . for a trip abroad . . .

Golf monopolized the conversation the other night . . . when Bing Crosby and the Jimmy Demarets had dinner together . . . out at Firecliff Lodge . . .

Mimi and Preston Estep made it a flying visit to Palm Springs . . . returning to St. Louis this weekend . . . They plan to bring the children with them and come out for Easter vacation, however . . .

Evelyn and Sydney Schff will be celebrating their anniversary . . . when they host a small dinner at Romanoffs-on-the-Rocks Thursday evening . . . They returned Saturday from their San Francisco jaunt . . .

In the Sunday Brunch crowd at the Ranch Club was movie star Jane Russell and her husband Bob Waterfeld of the Rams . . . and sports announcer Bob Kelly . . .

The party which Helen and Earl Henderson are hosting at the Chi Chi . . . is the night after the Dennis Day opening . . . and should have read February 25 . . . NOT January 25 . . .

School Lunch Good Guide for Home Lunches

Milk is so important in the diet of growing children that federal and state authorities cooperate in programs that provided California's children with 293 million half-pint equivalents of milk during the 1957-1958 school year.

If your youngster(s) come home to lunch or do not participate in the National School Lunch Program, you'll be wise to review the specifications of the Type A lunch planned by nutritionists as a guide to your luncheon planning to insure ample protein and other nutrients vital to child growth and body repair. Milk comes first.

One-half pint of whole milk as a beverage.

Two ounces of lean meat, poultry, fish or cheese, or one egg, or a half cup of cooked dry beans or peas or four tablespoons of peanut butter.

Three-fourths cup of vegetables or fruit or both.

One or more portions of bread, muffins or other bread of whole grain cereal or enriched flour.

Two tablespoons of butter or fortified margarine.

Plastic foam makes a good base for dried floral arrangements. Stems are easy to tuck in and can be arranged in many designs.

NOEL CLARKES cut the enormous cake which celebrated their fourth anniversary as owners of the Ranch Club and which occasioned Friday night's western party at the Club. (Gayle Studio Photo)

Lecture-Forum Group Gathers for Brunch at Ranch Home

Situated in a grove of date palms, with the mid-day sunshine shafting down through the interwoven palm fronds, the ranch house and gardens of Mrs. H. Bedford-Jones' home in Palm Valley, was the delightful setting for a Sunday brunch, which preceded a John Clarke lecture-forum.

A bus-load of San Diegeans were among the eighty-some guests, that had a chuckwagon brunch out-of-doors in the gardens, and then moved indoors for the lecture.

Clarke, who majored in literature at Stanford and Harvard, has appeared before nearly a 100 club groups in California, and is giving a series of lectures here, starting on February 26. The lectures, which will be held at the Desert Inn, every Thursday at 8 p. m., terminate with coffee and a circle discussion.

Clarke lives aboard his 55-foot teakwood sailing ship "Panacea" anchored at Point Loma, and it was members of his San Diego discussion group that journeyed to Palm Springs Sunday.

The opening lecture here, on February 26, will be "Why to Read a Book." Tickets for the entire series are being sold at the door or at the Desert Book Shop. It is presented by the Adventures in Living Association, a non-profit educational corporation.

As usual, Sunday's lecture ended in a discussion circle that moved back out-of-doors under the towering date palms.

Among Palm Springs guests in attendance were: Mr. and Mrs. Culver Nichols, Mrs. Austin McManus, Col. and Mrs. Edward Banning, Mr. and Mrs. Herbert Burns, Mr. and Mrs. Jack Luccareni, Mr. and Mrs. Homer Hilton.

The chuckwagon brunch was prepared and served by Johnny Boyle and his crew.

Chamber Installs Tonight

Several new members of the Board of Directors also will be installed at the affair, including Robert Blashek, Sam Bork, Wilbur L. Brubaker, Sanford Cooper, Dr. William Elliott, Jr., Donald Fry, James Hammond and Richard Vander Veer.

Among preliminary events planned that evening, the Everett Balls are hosting a small cocktail party at their home on Avenida Caballeros, to introduce her aunt and uncle, Mr. and Mrs. Holman D. Pettibone, and their daughter, Barbara, who have taken a house here for the month of February.

MOUNTED POLICE TO MARK TENTH ANNIVERSARY IN 1959

By FRED C. WEIGEL

Credited with the saving of more than 30 lives, and the recovery of three bodies from the rugged terrain of the Mt. San Jacinto foothills, the Palm Springs Mounted Police celebrates its tenth anniversary on Nov. 25, 1959.

One of the finest, best-organized emergency rescue units in the United States today, the Mounted Police have taken their place in both the history and future of the desert area.

ORGANIZED NOVEMBER 19, 1949, after four school boys were rescued from Tahquitz Canyon where they were trapped for three days, the organization has served basically as a public service organization. How it got its start and the accomplishments it has recorded since that beginning, make for a story that proves again that truth "is stranger, and a great deal more interesting, than fiction."

On Nov. 15, 1949, word was received in Palm Springs by the Police Department that four students were lost in Tahquitz Canyon. Sgt. Jim Maynard called Lt. Leslie Lear at March Air Force Base, who brought down a helicopter and with Sgt. Maynard in the chopper, the two combed the Tahquitz peaks from the air. A ground posse, made up of local businessmen, started the hike into the canyon and by nightfall the four boys were safe in Palm Springs.

THE MAN WHO headed the ground posse was Russell Combs, a man rescued just two years before by Jim Maynard when he was lost in the same canyon.

Within just a couple of days, on November 19, 1949, a group of men met with Police Chief August G. Kettmann and drew up organizational by-laws, forming the Mounted Police. Jim Maynard was elected captain of the group. Other officers included Joe Butler, lieutenant; John Hollinger (a principal organizer), lieutenant; and Cliff Campbell, George Rasmussen and Hutch Moseley, board of directors.

THE ORGANIZATION totaled 27 men, with Kettmann as honorary chief of the group. The balance of the charter group included Elmo Purnell, Trav Rogers, Del Smith, George Beebe, Dr. William Aikin, Bob Bennett, Warren Coble, Swede Davis Bud Hillerman, Homer Jenkins, Don Maher, Rolly Proebstal, Ed Sargent, Brud Delano, Dave Henderson, Jim Chandler, Joe Heffernan, Charlie Thomas, Perry Sanders and Jimmy Hume.

The organization started gathering equipment to use in rescue operations, equipment that could be used regardless of the terrain. Each member of the organization was required to provide his own horse and trailer, saddle and riding equipment, uniform and gun. The age requirement was 21 or over, and fingerprinting and thorough character investigation was a strict requirement, too.

WITHIN SIX MONTHS of its start, Mounted Police were called upon to bring a fisherman, 21-year-old Charles Lewis, out of Andreas Canyon. He had broken a leg while hiking.

But of all of the 30 rescues in its nearly 10 years of being, the unit has tackled no task more challenging than its all-day, all-night search for a small child who was lost in downtown Palm Springs in March, 1956. It happened like this:

In the early part of a Spring evening, a frantic mother called the Police Department and reported her 2½-year-old daughter missing.

THE MOUNTED POLICE were called out, and started an immediate search of Section 14. The search went on through the night, into the open desert, into the openings of nearby canyons, and around the heavily - populated residential district.

Even nature took a turn in hampering the search. Early in the morning, Palm Springs was hit by a blinding 65-mile-an-hour wind, which whipped sand into the eyes of the searchers, obscuring their vision. Still the search continued. At the same time other emergencies were pressing police and police reserves. Windows had been blown out of downtown businesses and dangerous high power electrical lines and telephone wire were blown from the poles.

At 10 a.m. in the morning, the tot was found. She was under the front porch of a home in Section 14, and, although scared, was unhurt.

WHEN AN EMERGENCY is sounded by telephone, members of the Mounted Police gather their gear, and assemble at the area nearest to the alert.

A fully-equipped house trailer is ready for all emergencies. The trailer contains supplies such as ropes, pulleys, tennis shoes (for hiking in rocky foothills), stretchers, medical supplies, and foot supplies.

Rescues are not the only services rendered by the Mounted Police.

In February, 1954, they served as honor guard for President Eisenhower during his Palm Springs visit. They have also marched in some 75 parades, served as guards during many of the Palm Springs Road Races at the airport, and became a vital cog in the Village CD unit. When a Western Airline plane crashed in the desert off the end of the north - south runway here last year, the unit provided 20 men to patrol and protect the area.

FOUR YEARS AGO the Mounted Police were called on to rescue a young woman who had fallen from a cliff and broken her leg. She was found high in Palm Canyon, in almost inaccessible terrain, and the Mounted Police had to call for the help of a helicopter to bring her out. After this mission, the Mounted Police set up a complete campsite, known as Little Paradise, located near the 2,000 level above Palm Canyon. It is a dry camp stocked with first aid equipment and emergency rations.

This year, the Mounted Police were called on to bring the body of a man out of Tahquitz Canyon. The body had been found by hikers—laying face down in a pool at the bottom of the second falls of Tahquitz River.

Again the Mounted Police, unable to carry the heavy body over the rugged landscape of the canyon, called for a military helicopter. After the body had been located by a posse, the whirly-bird went in and brought it out.

IN 1951, FOR THE 11th annual Palm Springs Rodeo, the Mounted Police took over sponsorship of the event. It was one year after the dedication of the new Palm Springs polo and rodeo grounds, and Ernie Andrade was chairman of the event.

It was in this yaer that the Mounted Police thought new life should be put into the Rodeo. They inaugurated a cattle drive down Palm Canyon Drive, instead of the traditional parade.

New life is exactly what Palm Springs received on that Saturday morning. A hundred-and-four head of yearling calves were taken out of trucks at the north end of town, and in turn the town was turned into utter pandemonium. Several smart, sophisticated hotels along Palm Canyon Drive discovered a true Western favor roaming their lobbies instead of the open range, and many of the spectators who had gathered on the street to watch the "cattle drive" were seen scurrying into local stores or climbing Palm Canyon palm trees.

No law suits or injuries resulted, but the Mounted Police filed the experience under "things we should never do again."

THIS YEAR THE Mounted Police plan the greatest, most spectacular show ever. Robert Horton, star of TV's "Wagon Train," will be Grand Marshal; Barbara Stanwyck will be Queen of the Rodeo; Paul Coates has been chosen as Rodeo Sheriff, and former Los Angeles County Sheriff Eugene Biscailuz will be honored as "Mr. Rodeo of 1959."

Proceeds from the annual rodeo are used by the Mounted Police to purchase rescue equipment and medical supplies and to keep the organization going year after year.

The Palm Springs Mounted Police are led by Captain Fred Ross this year. Rodeo Chairman is ex-captain Joe Butler.

The improvement will reflect higher operating rates for the steel, auto, synthetic textile and synthetic rubber industries, all major uses of chemicl products.

South Palm Canyon

Golden Mile Group Set

Organization of the "Golden Mile Association" to promote the south end of Palm Canyon Drive as a tourist mecca, was announced yesterday by George E. Cameron, Jr., and Russell Wade.

Cameron and Wade have labeled it "Golden Mile" because of the tremendous surge southward of the downtown business district, including Cameron's $5,000,000 shopping center, the new Saks Fifth Ave. store, two new banks and the year-old J. W. Robinson Co. store.

CAMERON AND Wade feel that Palm Springs has another Wilshire Blvd. Miracle Mile in its new Golden Mile.

The pair plan special rites, highlighted by personal appearances of movie and TV personalities, to launch their Golden Mile campaign.

ONE OF THE attractions will be the putting green that Cameron is building in Cameron Center. Designed to make shopping more pleasant, it's the nation's first shopping center golf lay-out.

The unique facility is in keeping with Palm Springs' fame as the home of more golf courses per capita than any other place in the world. The latest count was 11 links or one course for every 1,000 residents.

Dear Abby...

...by Abigail VanBuren

DEAR ABBY: I'll admit I'm no gorgeous looking movie star but I think I've got the same trouble. I'll do anything to get a man to fall in love with me, but as soon as I get him I don't want him any more. Then I go after somebody else and the same thing happens. I come from a good family and have had good bringing up. I am 24 and never married. Believe me, my parents aren't grayheaded for nothing. I'm so ashamed of myself but I can't seem to change. What's the matter with me?

ASHAMED

DEAR ASHAMED: Those who go from romance to romance for the excitement of the conquest (and there are many—both men and women) are emotionally insecure. You feel the need to prove over and over again that you are desirable. A psychiatrist could remove the clinker from your thinker.

DEAR ABBY: My mother and I are having a little disagreement and hope you can help clear it up. She says it is perfectly all right for a girl to refuse a date for a certain affair and if a more desirable boy asks her to the same affair to accept. I say it would make the boy who got turned down feel very bad is the girl showed up with another boy. My mother says there is no reason for a girl to be stuck with a drip just because he asked her first. PRO AND CON

DEAR PRO: If a girl refuses a date to a specific affair with a simple, "No, thank you," she's free to go with someone else. BUT, if she says she is "unable to attend that affair" or is going "elsewhere" it would be extremely poor taste to show up with someone else.

DEAR ABBY: The man I go with was divorced six years ago and has been supporting his wife and three children so he hasn't much money. I have always worked and saved my money. He says he will marry me if he is sure the love between his ex-wife and himself is good and dead. The only way he can find out if that love is dead is to go to Mexico where she is living. He wants me to give him the money for the trip. In a way it is for me, too, because if the love is dead he will marry me. Please give me your advice.

UNDECIDED

DEAR UNDECIDED: Don't finance any trips for a man who wants to find out how "dead" his love is. If he wants to marry you, he'll find a way.
