

NEW LIFE
COMMUNITY CHURCH

GLOBAL OUTREACH INDONESIA

New Life Indonesia supports mission work in Sentani-Papua, Medan, Bogor, and Pulau Guntung. An orphanage was built in Medan to care for 40 children and an orphanage was also built in Sentani, Papua to care for 27 children. Once a year we hold an event to raise money to help build the house of a missionary/pastor in remote areas of Indonesia. We also support Rev. Titus Dima, an Indonesian missionary in Guinea Bissau, by sending him much needed vitamins/medications and Elevate ministry lead by Ado and Clair who develop indigenous leaders and serve marginalized youth in Indonesia through social, education, recreation and vocational development.

We feel deeply motivated to continue raising funds for these mission projects, since there are many more children who have been waiting to be part of this orphanage but cannot be accepted due to lack of funds.

ABOUT HELP INDONESIA

HELP stands for Hope, Equality, Love and Prayer. The focus is to help Indonesian children who have lost their parents and are unable to get education. It focuses on poverty and education, sharing Christ's love in providing orphaned and less fortunate children with food, shelter, medical treatment and education in a safe and loving environment. The vision is to bring healing to hurting communities in Indonesia by providing assistance in health, education, social and economic development to rebuild these communities into self-sustaining entities.

HELP Indonesia is dedicated to develop a partnership between Indonesia and the global community, share the knowledge and skills of citizens from developed

nations to the struggling Indonesian community, and to promote the social and economic welfare of the unprivileged and poor Indonesian people by developing a capacity for higher learning, skills to improve their living conditions, and bring about global awareness of their needs in sustainable development.

HELP Indonesia was birthed from a common burden to assist poor Indonesian children, who lost their parents and are unable to get an education. The ministry's focus is on developing orphanages in Sulawesi, Sumatra, Riau Island, Papua, Nusa Tenggara Timur and the Maluku. We fully realize that to reach its goals, HELP Indonesia needs all your support.

WHY INDONESIA?

1. Because Indonesia is the largest Muslim country in the world with a population of more than 250 million. Approximately 75 million live in remote villages and in extreme poverty that have yet to hear the message of Jesus in a life-changing way.
2. Because several members of New Life have gone on mission trips to Indonesia and witnessed firsthand the needs of the people and how their lives have been affected by tsunamis, earthquakes, poverty, and corruption by the government, and many other factors. We would like to give them hope and help through education, food, better resources and faith in Christ.
3. Because we have built close relationships with missionaries, mission organizations and churches in several islands of Indonesia who need our prayers and support so that they can continue introducing Jesus and help build their faith.
