RCA – EAST AFRICA PARTNERSHIP

Mission Statement

The EAP was founded to help the people of East Africa in a holistic and sustainable way.

A True Partnership

All projects are selected and led by our partners in Kenya and throughout East Africa. More than 70 leaders are on the ground, making decisions about what projects to invest in and directly overseeing the work of the partnership.

Volunteer Based

The EAP is an entirely volunteer organization, so 100% of your donation goes directly to the EAP Programs - sponsorships, scholarships, medical, and farming.

Self-Sustaining

We believe strongly that everything we do should be self-sustaining and done with our local partners on the ground in East Africa. Every project must be agreed upon by both partners, and self-sustaining within two years. This allows the EAP to continue to expand our ministry, confident our projects will last.

We truly have two minds, but one heart for the people of East Africa.
