TRUSTIFI CORE PRODUCTS

Inbound Shield

- AI-powered protection that blocks threats before they reach the inbox.

Outbound Shield™

- Easily enable DLP to mitigate human error and sensitive data leakage.

Account Takeover Protection

- Identifies suspicious behavior and blocks compromised accounts in real time.

Email Security Awareness Training

- Proactively combat threats with phishing simulations and assessments.

Archiving

- Securely preserve, retrieve, search, and share all email communications.

Email Managed Detection & Response (EMDR)

- Experts monitor, detect, and respond to email threats 24/7.
