

Dear Administrator,

As an art teacher, I am constantly in search of materials and training that will enable me to teach rigorous, standards-based lessons that will tap into my students' creativity, as well as their critical thinking and reasoning skills. I've found an excellent collection of materials and inspiration in *The Resource Library for Art Teachers* from Art Class Curator.

*The Resource Library for Art Teachers* is full of engaging lessons for everything from art history and appreciation to the elements and principles of art. In addition to art bundles, worksheets, PowerPoints, and assessments, the library also includes several online professional development workshops.

The teaching strategies we use make lasting impacts, and students carry what they learn for the rest of their lives. Art Class Curator is known for developing "minds-on" art curriculum that goes beyond cookie-cutter projects. The activities in the Resource Library will help me provide my students with powerful, meaningful art experiences.

A yearly membership to *The Resource Library for Art Teachers* will grant me access to 300+ downloadable resources, 24+ hours of online professional development workshops and videos, the *Art Appreciation Master Class*, an archive of weekly art emails, monthly art bundles, a private online community of art teachers, and new resources that are added to the library each month.

Membership to the Resource Library is \$299 per year and can be paid via credit card, PayPal, or a purchase order. You can learn more by visiting [artclasscurator.com/schools](http://artclasscurator.com/schools).

Thank you for considering my proposal.

Best,

Teacher
