

ASCP PRESS: ONLINE BOOKS CATALOG

*Books, eBooks, and Study Guides from the leaders
in pathology and laboratory medicine*

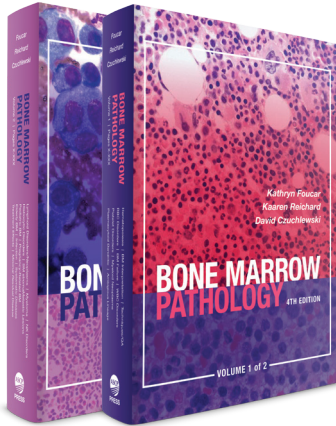

Welcome to the ASCP Online Books catalog. Here you'll find a wealth of books relevant to the pathology and laboratory science fields. You'll discover new titles, leading bestsellers, and valuable reference texts in print and eBook format.

To order any book, just click on its image and you will be redirected to its store page. Please explore!

TABLE OF CONTENTS

Bone Marrow Pathology, 4th Edition	3	Quick Compendium Companion for Cytopathology: Challenge Questions for Cytopathology	18
Human Parasitic Diseases A Diagnostic Atlas	4	Histotechnology: A Self Instructional Text	19
Practical Surgical Pathology: Morphology and Molecular Pathology, 2nd Edition	5	Histotechnology: A Self Assessment Workbook	20
Practical Clinical Pathology, 2nd Edition	6	The Art & Science of Cytopathology	21
Quick Compendium of Surgical Pathology, 2nd Edition	7	Blood Cells: Morphology and Clinical Relevance	22
Quick Compendium of Clinical Pathology, 4th Edition	8	Business/Legal Handbook for Pathology Providers	23
Practical Laboratory Diagnosis of Disease: Clinical Chemistry	9	The Book of Cells: A Breviary of Cytopathology	24
Blood Cell Morphology: Grading Guide, 2nd Edition	10	Cytopathology Review Guide, 4th Edition	25
Digital Pathology	11	Kjeldsberg's Body Fluid Analysis	26
Laboratory Safety	12	Body Fluids: Morphology Bench Guide	27
BOC Study Guide: Clinical Laboratory Certification Examinations, 6th Edition	13	Hemostasis Casebook: Lab Diagnosis and Management	28
BOC Study Guide: Phlebotomy Certification Examinations, 2nd Edition	14	An Atlas of Forensic Pathology	29
BOC Study Guide: Histotechnology Certification Examinations, 2nd Edition	15	Efficient Tumor Immunohistochemistry	30
Integrated Hematopathology: Morphology & FCI with IHC	16	Practical Principles of Cytopathology, Revised Edition	31
Quick Compendium of Cytopathology	17	Case Studies in Hematology and Coagulation, 2nd Edition	32

Bone Marrow Pathology, 4th Edition

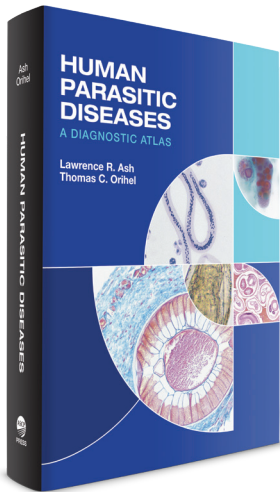

Kathryn Foucar, MD, FASCP; Kaaren Reichard, MD, FASCP; and David Czuchlewski, MD

Member Price: \$239²⁹ | List Price: \$299²⁹

The NEW 4th Edition of Kathryn Foucar's *Bone Marrow Pathology* is a major achievement, integrating classic morphologic diagnosis, and the latest advances in flow cytometric immunophenotyping and immunohistochemistry with the most advanced molecular diagnostic techniques. The best of both worlds – this comprehensive two volume atlas features over 2,000 high-quality diagnostic images of neoplastic and non-neoplastic disease and illustrations of genetic results combined with practical advice from three masters of hematopathology, flow cytometry, and molecular genetic pathology.

- Over 400 quick reference tables, diagnosis algorithms and much more
- Over 2,400 images and figures
- 45 chapters—all revised and expanded with foci on morphologic clues, differential diagnosis and complete integration of pertinent molecular genetic findings

BUY NOW

Human Parasitic Diseases A Diagnostic Atlas

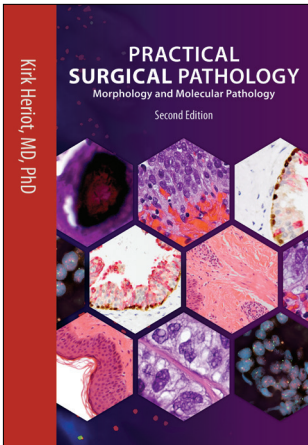

*Lawrence R. Ash, PhD and
Thomas C. Orihel, PhD*

Member Price: \$199²⁹ | List Price: \$249²⁹

In this era of increased parasitic threat, *Human Parasitic Diseases – A Diagnostic Atlas* is a must-have for parasite identification. This complete expansion of the classic *Atlas of Human Parasitology* is the perfect reference to have at hand when you need to view the unknown and assimilate your findings into a clinical context.

- Number of plates has nearly doubled from 110 (in 5th Edition Atlas) to 213 in the new book
- 1,500 images, including clinical and gross photos
- Comprehensive information on over 100 parasites of humans
- Illustrates parasites in feces, blood and lab preps, and also parasites in tissue sections where morphology can be the most challenging

BUY NOW

Practical Surgical Pathology: Morphology and Molecular Pathology, 2nd Edition

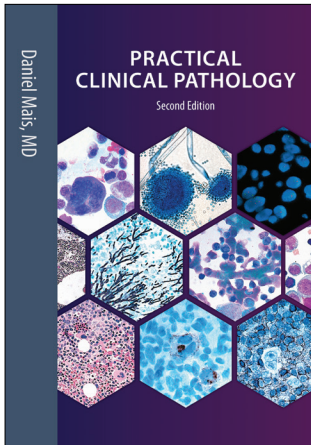

Kirk Heriot, MD, PhD

Member Price: \$169 | List Price: \$209

To the practicing pathologist and those studying to be pathologists, the new *Practical Surgical Pathology, 2nd Edition* will become their go-to guide as the most practical and heavily illustrated single-volume reference available for surgical pathology.

- An accessible single volume that quickly addresses 95% of the difficult situations that are commonly encountered in the daily practice of surgical pathology
- The only book to offer integration of traditional morphologic pathology with newer molecular concepts
- Covers the most recent developments in molecular techniques and diagnosis
- More than 1,300 high-resolution photomicrographs
- Also practical as a stand-alone introduction to molecular pathology
- Second edition features larger, more extensively annotated images

BUY NOW

Practical Clinical Pathology, 2nd Edition

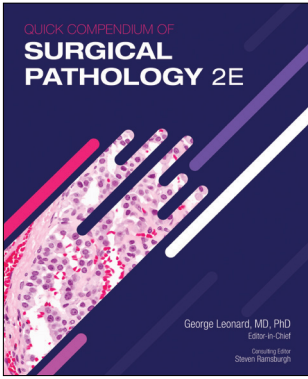

Daniel D. Mais, MD

Member Price: \$199 | List Price: \$259

Newly updated and expanded, Dr. Daniel D. Mais' *Practical Clinical Pathology, 2nd Edition* is a comprehensive and up-to-date working review of clinical pathology featuring:

- A concise and highly readable format that makes abstract aspects of clinical pathology easier to comprehend and absorb
- Expert contributors bring an added depth of expertise to the sub-disciplines
- Includes a comprehensive chapter on Medical Directorship
- Hundreds of high-resolution images illustrating microbiology, hematology, immunology, chemistry and microbiology

BUY NOW

Quick Compendium of Surgical Pathology, 2nd Edition

George Leonard, MD, PhD

Member Price: \$149 | List Price: \$189

The new second edition of the *Quick Compendium of Surgical Pathology* is lavishly illustrated for the first time! Over 500 full color images compliment precise morphologic descriptions at the core of this new Quick Compendium. The new edition proves it is again the most concise and comprehensive quick access study tool for those studying for Board Exams in surgical pathology.

- Expanded practice ready IHC and ancillary studies information
- Complete, current molecular alterations and modalities information
- Clinical manifestations
- Gross pathology
- Treatment and Prognosis, and Associations
- Support for interpreting microscopic descriptions in pathology reports

BUY NOW

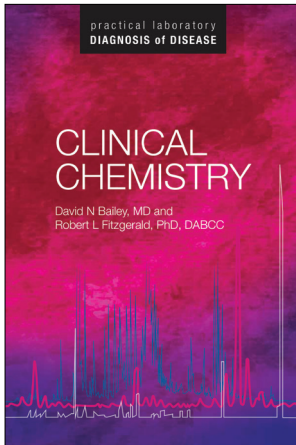

Quick Compendium of Clinical Pathology, 4th Edition

Daniel D. Mais, MD

Member Price: \$149 | List Price: \$189

Considered by many in the pathology field as the essential quick reference guide, the Quick Compendium of Clinical Pathology has long been the preferred clinical pathology Board exam study guide for many residency program directors and pathology residents.

- All sections incorporate current molecular and serologic tumor markers, techniques and findings
- Hundreds of brilliant images—especially in hematopathology, immunology and microbiology
- Still suited for those needing a guidebook for board preparation purposes or a “just the facts” practical quick reference
- Each chapter begins with concise approach discussions, followed by an overview of laboratory evaluation methods and application of techniques

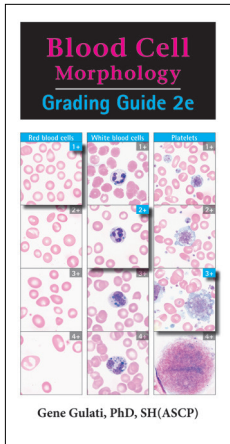

Practical Laboratory Diagnosis of Disease: Clinical Chemistry

*David N Bailey, MD and
Robert L Fitzgerald, PhD, DABCC*

Member Price: \$99 | List Price: \$129

Clinical Chemistry focuses on the laboratory diagnosis of the most common diseases by organ system and relates diagnostic testing to the pathophysiology of the diseases in development of the differential diagnosis. The material in this book should also help students to be well-prepared for their respective licensing examinations and clinical rotations and assist residents preparing for board examinations.

BUY NOW

Blood Cell Morphology: Grading Guide, 2nd Edition

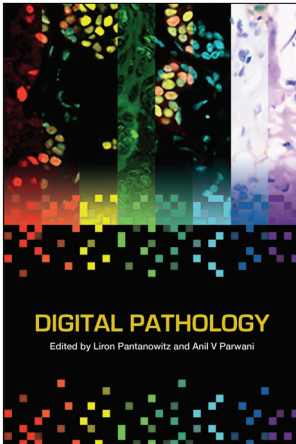

Gene Gulati, PhD, SH(ASCP)

Member Price: \$64 | List Price: \$87

Gulati's updated, comprehensively illustrated guide makes the process of grading blood cell morphology more immediately practical for laboratory professionals—and more meaningful for patient management. Entirely new features of the second edition include:

- Summary tables of grading criteria for abnormalities of red cells, white cells and platelets
- A self-assessment test
- 25% more images than the first edition

BUY NOW

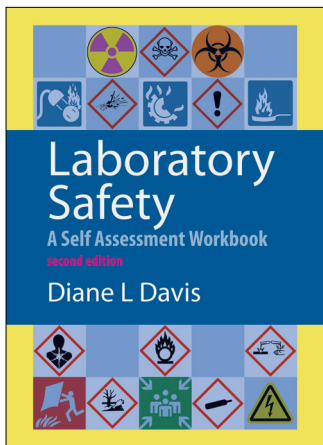

Digital Pathology

*Editors: Liron Pantanowitz, MD
and Anil V Parwani, MD*

Member Price: \$159 | List Price: \$199

An extraordinarily comprehensive and complete book for individuals with anything from minimal knowledge to deep, accomplished experience in digital pathology. Easy to read and plainly written, *Digital Pathology* examines the history and technological evolution of digital pathology, from the birth of scanning technology and telepathology to three-dimensional imaging on large multi-touch displays and computer aided diagnosis. It can also be a useful reference for anyone, medical or non-medical, who has an interest in learning more about the field. *Digital Pathology* is truly a game changer, and this book is a crucial tool for anyone wishing to know more and work in this exciting and critical information environment.

BUY NOW

Laboratory Safety

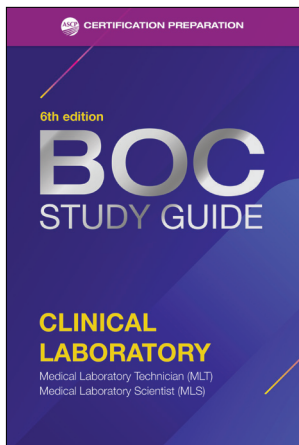

Diane L. Davis, PhD, MLS (ASCP)^{CM}, SC^{CM}, SLS^{CM}

Member Price: \$109 | List Price: \$139

The new edition of *Laboratory Safety* is updated for current regulations and evolving standards of practice. It is written at a level for both undergraduate students and practicing laboratory professionals seeking to perfect their facility safety programs.

- Offers guided reading to help understanding and information retention
- Summary tables and self-assessment questions at the end of each chapter
- Comprehensive post-test at the end of the book
- New chapter: “A Culture of Safety”
- New/updated color figures
- Expanded histology and anatomic pathology laboratory sections

BUY NOW

BOC Study Guide: Clinical Laboratory Certification Examinations, 6th Edition

*Patricia A Tanabe, MPA, MLS(ASCP)^{CM};
E Blair Holladay, PhD, SCT(ASCP)^{CM};
and ASCP Board of Certification Staff*

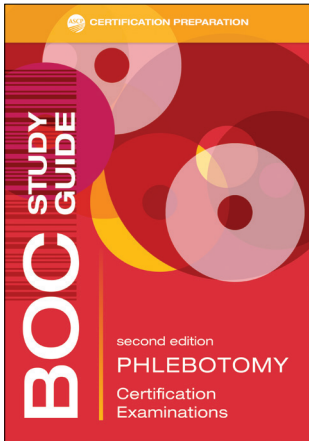

Member Price: \$69 | List Price: \$89

The sixth edition of the Board of Certification Study Guide—the authoritative study tool for preparing for the ASCP Board of Certification (BOC) Medical Laboratory Scientist (MLS) and Medical Laboratory Technician (MLT) certification examinations—is all new, with every section updated and expanded.

The new *BOC Study Guide, 6th Edition*, is available as a book, and will be available in an electronic version and as a book/electronic version bundle, making it easy to practice for the exam in a whole new way.

Get 2,500 practice questions anytime and anywhere on any device with internet access.

BUY NOW

BOC Study Guide: Phlebotomy Certification Examinations, 2nd Edition

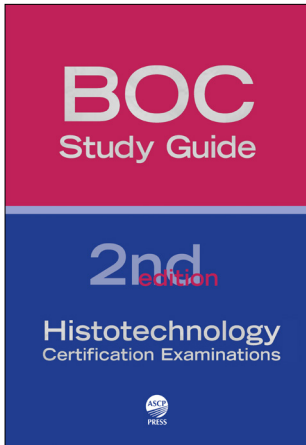

Susan Phelan, PhD, MT(ASCP)

Member Price: \$59 | List Price: \$79

This new book features:

- Over 1,300 study questions in the same format as the Board of Certification Phlebotomy Certification Exam
- All curriculum areas required by the BOC
- Content evaluated by BOC-selected reviewers
- Information on the BOC exam, plus sample study workflows and exam preparation tips

BUY NOW

BOC Study Guide: Histotechnology Certification Examinations, 2nd Edition

*Freida L Carson, PhD, HT(ASCP)
and Glenda F Hood, MEd*

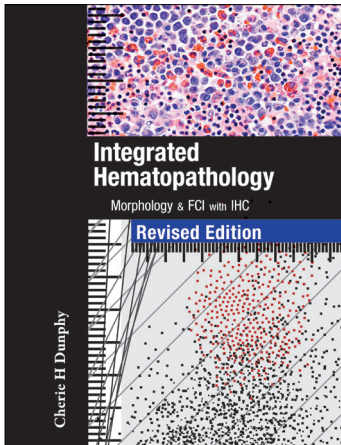

Member Price: \$64 | List Price: \$89

Covers all areas encountered on the Board of Certification HT and HTL exams, including fixation, processing, microtomy, staining, and laboratory operations.

This book features:

- Over 1,100 multiple choice questions, arranged in chapters that correspond to the major content areas on the exam
- Practice questions, presented in a format and style similar to those included on the BOC certification examinations
- Valuable information included about the development, content, structure and scoring of the test

BUY NOW

Integrated Hematopathology: Morphology & FCI with IHC

Cherie Dunphy, MD, FASCP

Member Price: \$129 | List Price: \$169

Dr. Cherie Dunphy's revised *Integrated Hematopathology* is a comprehensive resource focusing on the applications of flow cytometric immunophenotyping (FCI) in combination with morphology for diagnostic hematopathology. In-depth coverage includes:

- The technical aspects of FCI with thorough coverage of the phenotypic markers, as well as the advantages and disadvantages of FCI
- Detailed description of the phenotypic findings of normal peripheral blood, body fluids, bone marrow and lymphoid tissue elements
- Over 1,000 images

BUY NOW

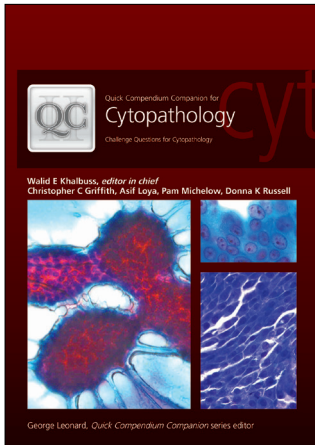

Quick Compendium of Cytopathology

*Walid E Khalbuss, MD, PhD, FASCP;
Sara E Monaco, MD;
and Liron Pantanowitz, MD*

Member Price: \$179 | List Price: \$249

- The latest release from the highly acclaimed ASCP Quick Compendium Series, now upgraded with hundreds of high-quality images.
- Now with over 900 full color images illustrating key cytomorphologic features, results of ancillary studies and diagnostic pitfalls
- Each chapter is organized around a detailed outline covering key details and illustrations of common and less common entities likely to be encountered in the daily practice of cytopathology
- An ideal study tool for residents preparing for their boards and cytology students
- Extensive coverage presented in a concise, easy to read format

BUY NOW

Quick Compendium Companion for Cytopathology: Challenge Questions for Cytopathology

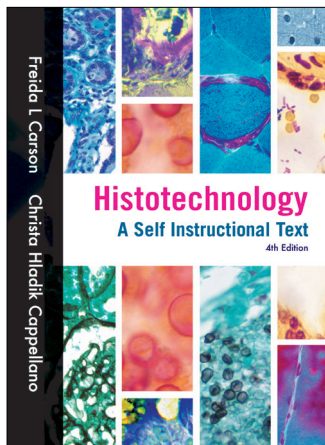

Editor: George Leonard, MD, PhD

Member Price: \$119 | List Price: \$149

This book offers a wealth of self-review questions, including hundreds of image-based questions that are so necessary when studying for the boards or the Maintenance of Certification exam.

- Over 750 study questions, including hundreds of updated study questions
- Over 400 high-resolution images
- Questions are specifically tied to content in the associated *Quick Compendium of Cytopathology*

BUY NOW

Histotechnology: A Self Instructional Text

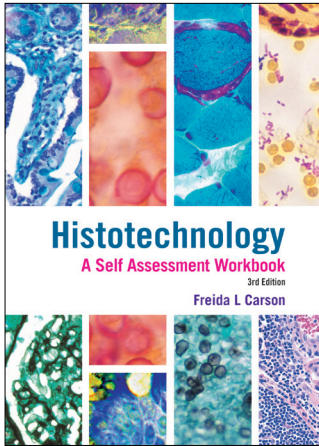

*Freida L Carson, PhD, HT(ASCP) and
Christa Hladik Cappellano, BS, HT(ASCP)^{CM}, QIHC*

Member Price: \$139 | List Price: \$179

This revised and expanded fourth edition is an indispensable teaching tool and reference guide and a must for histotechnologists preparing for the ASCP HTL certifying examination. Completely updated with:

- Large-scale updating of immunohistochemistry, enzyme histochemistry and laboratory safety content
- Information on fixatives for electron microscopy
- Additional updated chapters, new images and a newly added glossary
- Over 350 images

BUY NOW

Histotechnology: A Self Assessment Workbook

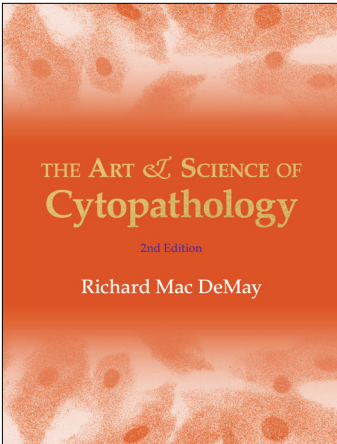

Freida L. Carson, PhD, HT(ASCP)

Member Price: \$79 | List Price: \$99

Updated and expanded with more than 1,100 questions to test your understanding of histotechnology concepts, presented in a variety of formats to better assess understanding.

- Questions covering new and expanded content, including molecular techniques, immunohistochemistry, enzyme histochemistry, laboratory safety and laboratory informatics
- Includes more than 400 image-based questions
- The perfect self-study tool and teaching aid

BUY NOW

The Art & Science of Cytopathology

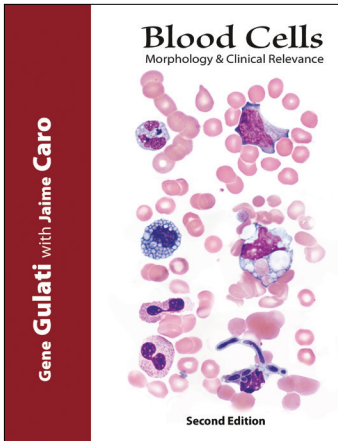

Richard Mac DeMay, MD

Member Price: \$469 | List Price: \$579

Dr. DeMay's *Art and Science of Cytopathology* has been significantly expanded and updated to reflect the many and dramatic new advances in the field. Four beautiful volumes include:

- Nearly 7,000 unique high-resolution color images
- Thousands of quick reference tables and feature lists
- Detailed discussions of common and rare conditions

BUY NOW

Blood Cells: Morphology and Clinical Relevance

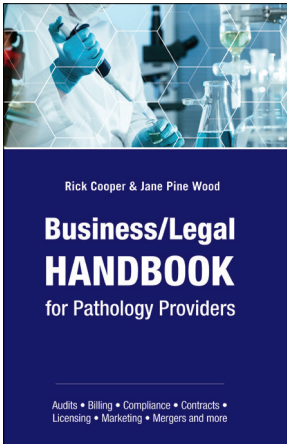

Gene Gulati, PhD and Jaime Caro, MD

Member Price: \$149 | List Price: \$184

The new second edition incorporates more discussions, images, entities, artifacts, and mimics in the blood. It brilliantly illustrates an even broader spectrum of morphologic variation in red and white blood cells. *Blood Cells, 2nd Edition* gives you more on every page—everything that made the first edition a perennial bestseller plus new additions that make it invaluable for the lab, including:

- The latest WHO classification of tumors of hematopoietic and lymphoid tissues
- Expanded range of morphologic variation depicted and adding cell types and entities
- Treatment of hereditary Heinz body hemolytic anemia and reactive plasmacytosis
- Microorganisms that may be seen in peripheral blood smears, particularly of the malarial and microfilarial parasites

BUY NOW

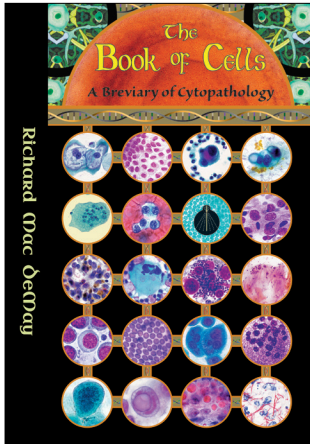

Business/Legal Handbook for Pathology Providers

Richard Cooper, Esq. and Jane Wood, Esq.

Member Price: \$127 | List Price: \$159

Covering an abundant mix of common legal issues that a pathologist or lab professional may encounter in the course of running a practice or a facility, the *Business/Legal Handbook for Pathology Providers* delivers readily accessible guidance, in an easy-to-read format, regarding common legal issues affecting pathology providers. Written by two of the top healthcare attorneys in America, areas covered in the handbook include medical and laboratory licensure issues; in-office technical subjects; account billing; employment contracts; HIPAA & breach response; payor audits and many other complex legal and contractual subjects. The handbook will be of high value to pathologists and pathology practice administrators from a variety of backgrounds, with or without a familiarity with law. Offered as a book and eBook bundle.

BUY NOW

The Book of Cells: A Breviary of Cytopathology

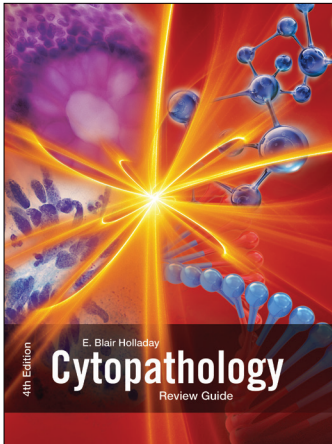

Richard Mac DeMay, MD

Member Price: \$159 | List Price: \$199

Beautifully illustrated and highly practical, the *Book of Cells* is an ideal companion for the everyday diagnostic practice of pathologists and medical lab professionals. Dr. DeMay's books are highly respected and renowned for their illuminating text and brilliant images, and the *Book of Cells* is no exception, making it the perfect handy reference guidebook for every lab.

- More than 2,600 high resolution photomicrographs
- 1,000+ lists of quick reference data and key diagnostic findings
- Condensed format is less than 600 pages
- Heavily annotated images for faster comprehension of crucial features
- A beautiful and highly practical book for everyday diagnostic practice

BUY NOW

Cytopathology Review Guide, 4th Edition

E. Blair Holladay, PhD, SCT(ASCP)^{CM}

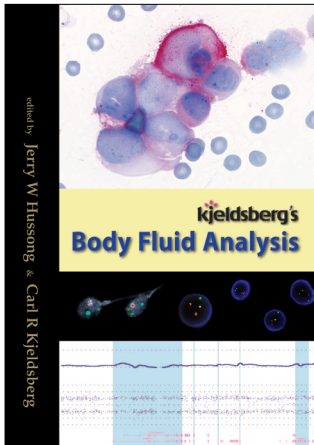

Member Price: \$164 | List Price: \$194

The field of cytopathology is rapidly advancing. Dr. Holladay's new fourth edition keeps you up-to-date and fully prepared with:

- A significantly expanded diagnostic cytopathology section
- New and enhanced, committee-vetted study questions and images
- A cutting-edge chapter on molecular tumor markers, molecular diagnostics and theranostics
- Answers include explanations and references to Dr. Richard Mac DeMay's *Art and Science of Cytopathology, 2nd Edition*

With over 1,400 questions and 500 high-resolution images, the fourth edition volume is sure to serve as an invaluable and comprehensive self-study reference for pathologists, pathology residents, cytotechnologists and cytopathologists in training.

BUY NOW

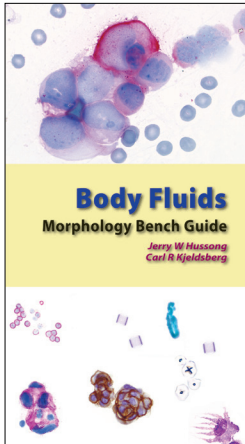

Kjeldsberg's Body Fluid Analysis

*Editors: Jerry W Hussong, MD
and Carl R Kjeldsberg, MD*

Member Price: \$159 | List Price: \$209

- Presented in a simple and straightforward approach and written for a diverse audience, this comprehensive book includes reworked and expanded chapters covering urine, semen, vitreous fluid, and sweat.
- Extensive ancillary methods in cytogenetics, flow cytometry, IHC, and molecular analysis
- Current and essential information on laboratory analyses and the care and treatment of patients
- Over 375 images

BUY NOW

Body Fluids: Morphology Bench Guide

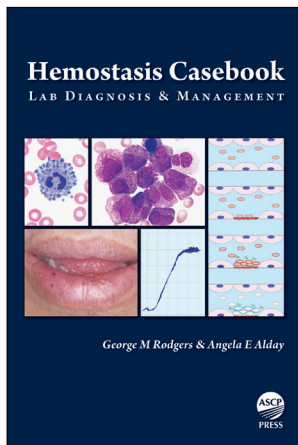

Jerry W Hussong, MD and Carl R Kjeldsberg, MD

Member Price: \$79 | List Price: \$99

This concise, easy to navigate spiral-bound quick-reference guide, with over 120 images, covers all major body fluid types as presented in the new *Kjeldsberg's Body Fluid Analysis*.

- Each major fluid type is sorted and labeled according to disease mechanism
- Five categories of fluid images: Cerebrospinal, Pleural and Pericardial, Peritoneal, Synovial, and Urine
- The perfect quick-reference bench guide

BUY NOW

Hemostasis Casebook: Lab Diagnosis and Management

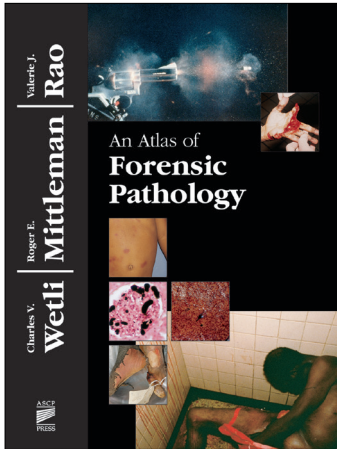

*George M Rodgers, MD, PhD
and Angela E Alday, MD*

Member Price: \$49 | List Price: \$69

Fully updated and expanded with new problems and topic areas, Alday and Rodgers' *Hemostasis Casebook* presents a comprehensive collection of case studies in hemostasis, thrombosis and coagulation.

- Complete with detailed explanations, this collection serves as a valuable teaching or self-study tool. Topics include laboratory evaluation of platelet, vascular, coagulation and thrombotic disorders.
- 64 case studies in hemostasis and thrombosis with detailed explanations
- Overview section covers the fundamentals of laboratory evaluation and management of coagulation disorders

BUY NOW

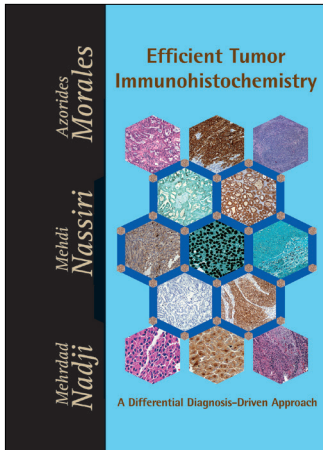

An Atlas of Forensic Pathology

*Charles V Wetli, MD; Roger E Mittleman, MD;
and Valerie J Rao, MD*

Member Price: \$99 | List Price: \$139

- Breakthrough guide to forensic autopsy, addressing all major fatality categories
- Comprehensive information on unnatural deaths and forensic pathologic investigation

BUY NOW

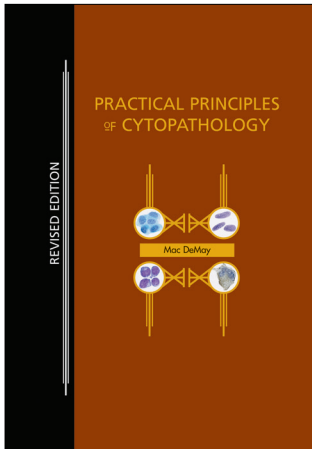

Efficient Tumor Immunohistochemistry

*Mehrdad Nadji, MD; Mehdi Nassiri, MD;
and Azorides Morales, MD*

Member Price: \$99 | List Price: \$129

- Simple, vivid guidelines to resolving diagnostic problems
- Differential diagnosis approach to tissue biopsies outlined in this unique reference

BUY NOW

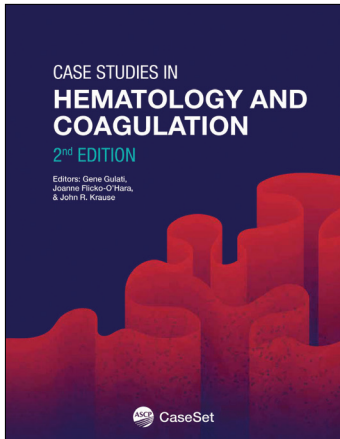

Practical Principles of Cytopathology, Revised Edition

Richard Mac DeMay, MD

Member Price: \$79 | List Price: \$109

- “Baby Mac” includes encyclopedic coverage of material that diagnosticians need, with over 1,300 images
- The most accessible single-volume resource for help with cytologic diagnoses

BUY NOW

Case Studies in Hematology and Coagulation, 2nd Edition,

*Gene Gulati, PhD;
Joanne Fillicko-O'Hara, MD;
and John R. Krause, MD*

Member Price: \$149 | List Price: \$186

- An invaluable collection of cases covering common and rare entities—from anemias through lymphoma to plasma cell, platelet and coagulation disorders
- Cases are presented in an easy-to-follow format, grouped by related conditions
- Data is followed by questions about differential diagnosis, additional workup, most likely diagnosis, course of management and salient features of the case. Corresponding answers/discussions are provided by the authors of each case
- Final two sections present 40 self-study challenge cases that provide basic history presentation information with initial workup data images
