## Clinical Chemistry

Practical Laboratory Diagnosis of Disease  
David N Bailey, MD;  
and Robert L Fitzgerald, PhD, DABCC

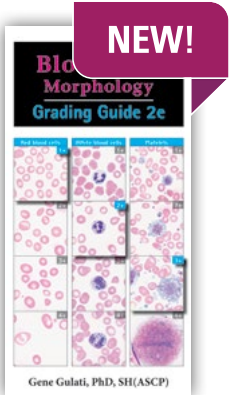

The product of an introductory course in clinical chemistry for medical students at the University of California-San Diego, *Clinical Chemistry* contains all the core material needed for teaching pathology residents and medical technology students during required rotations in clinical chemistry. This comprehensive new book helps students be well-prepared for their respective licensing examinations and clinical rotations, and to assist residents preparing for board examinations. A complete package—the book and a comprehensive slide presentation companion study tool (632 slides)—it can be used as an individual study guide or as a companion presentation for an instructor teaching a course on clinical chemistry.
