Practical Surgical Pathology: Morphology and Molecular Pathology, 2nd Edition
Kirk Heriot, MD, PhD

Member Price: $169  |  List Price: $209

To the practicing pathologist and those studying to be pathologists, the new Practical Surgical Pathology, 2nd Edition will become their go-to guide as the most practical and heavily illustrated single-volume reference available for surgical pathology.

- An accessible single volume that quickly addresses 95% of the difficult situations that are commonly encountered in the daily practice of surgical pathology
- The only book to offer integration of traditional morphologic pathology with newer molecular concepts
- Covers the most recent developments in molecular techniques and diagnosis
- More than 1,300 high-resolution photomicrographs
- Also practical as a stand-alone introduction to molecular pathology
- Second edition features larger, more extensively annotated images

Practical Clinical Pathology, 2nd Edition
Daniel D. Mais, MD

Member Price: $199  |  List Price: $259

Newly updated and expanded, Dr. Daniel D. Mais' Practical Clinical Pathology, 2nd Edition is a comprehensive and up-to-date working review of clinical pathology featuring:

- A concise and highly readable format that makes abstract aspects of clinical pathology easier to comprehend and absorb
- Expert contributors bring an added depth of expertise to the sub-disciplines
- Includes a comprehensive chapter on Medical Directorship
- Hundreds of high-resolution images illustrating microbiology, hematology, immunology, chemistry and microbiology
Clinical Chemistry focuses on the laboratory diagnosis of the most common diseases by organ system and relates diagnostic testing to the pathophysiology of the diseases in development of the differential diagnosis. The material in this book should also help students to be well-prepared for their respective licensing examinations and clinical rotations and assist residents preparing for board examinations.

Gene Gulati, PhD, SH(ASCP)

Gulati’s updated, comprehensively illustrated guide makes the process of grading blood cell morphology more immediately practical for laboratory professionals—and more meaningful for patient management. Entirely new features of the second edition include:

- Summary tables of grading criteria for abnormalities of red cells, white cells and platelets
- A self-assessment test
- 25% more images than the first edition
Digital Pathology

*Editors: Liron Pantanowitz, MD and Anil V Parwani, MD*

Member Price: $159  |  List Price: $199

An extraordinarily comprehensive and complete book for individuals with anything from minimal knowledge to deep, accomplished experience in digital pathology. Easy to read and plainly written, *Digital Pathology* examines the history and technological evolution of digital pathology, from the birth of scanning technology and telepathology to three-dimensional imaging on large multi-touch displays and computer aided diagnosis. It can also be a useful reference for anyone, medical or non-medical, who has an interest in learning more about the field. *Digital Pathology* is truly a game changer, and this book is a crucial tool for anyone wishing to know more and work in this exciting and critical information environment.

Laboratory Safety

*Diane L Davis, PhD, MLS (ASCP)CM, SCCM, SLSCM*

Member Price: $109  |  List Price: $139

The new edition of *Laboratory Safety* is updated for current regulations and evolving standards of practice. It is written at a level for both undergraduate students and practicing laboratory professionals seeking to perfect their facility safety programs.

- Offers guided reading to help understanding and information retention
- Summary tables and self-assessment questions at the end of each chapter
- Comprehensive post-test at the end of the book
- New chapter: “A Culture of Safety”
- New/updated color figures
- Expanded histology and anatomic pathology laboratory sections
The fifth edition of the Board of Certification Study Guide—the authoritative study tool for preparing for the ASCP Board of Certification (BOC) Medical Laboratory Scientist (MLS) and Medical Laboratory Technician (MLT) certification examinations—is updated and expanded to include new sections on molecular pathology, lab information, safety, answers and explanations for each question, and much more.

Order the bundle and practice for the exam in a whole new way. Get 2,500 practice questions anytime and anywhere on any device browser with internet access. Updated and expanded, this edition includes new sections on molecular pathology, lab information, safety and much more.

This title can also be purchased separately in paperback or app format.
BOC Study Guide: Histotechnology Certification Examinations, 2nd Edition

Freida L Carson, PhD, HT(ASCP)
and Glenda F Hood, MEd

Member Price: $64 | List Price: $89

Covers all areas encountered on the Board of Certification HT and HTL exams, including fixation, processing, microtomy, staining, and laboratory operations. This book features:

- Over 1,100 multiple choice questions, arranged in chapters that correspond to the major content areas on the exam
- Practice questions, presented in a format and style similar to those included on the BOC certification examinations
- Valuable information included about the development, content, structure and scoring of the test

Integrated Hematopathology: Morphology & FCI with IHC

Cherie Dunphy, MD, FASCP

Member Price: $129 | List Price: $169

Dr. Cherie Dunphy’s revised Integrated Hematopathology is a comprehensive resource focusing on the applications of flow cytometric immunophenotyping (FCI) in combination with morphology for diagnostic hematopathology. In-depth coverage includes:

- The technical aspects of FCI with thorough coverage of the phenotypic markers, as well as the advantages and disadvantages of FCI
- Detailed description of the phenotypic findings of normal peripheral blood, body fluids, bone marrow and lymphoid tissue elements
- Over 1,000 images
This book offers a wealth of self-review questions, including hundreds of image-based questions that are so necessary when studying for the boards or the Maintenance of Certification exam.

- Over 750 study questions, including hundreds of updated study questions
- Over 400 high-resolution images
- Questions are specifically tied to content in the associated Quick Compendium of Cytopathology

Quick Compendium Companion for Cytopathology: Challenge Questions for Cytopathology

Editor: George Leonard, MD, PhD

Member Price: $119  |  List Price: $149

This book includes:

- The latest release from the highly acclaimed ASCP Quick Compendium Series, now upgraded with hundreds of high-quality images.
- Now with over 900 full color images illustrating key cytomorphologic features, results of ancillary studies and diagnostic pitfalls
- Each chapter is organized around a detailed outline covering key details and illustrations of common and less common entities likely to be encountered in the daily practice of cytopathology
- An ideal study tool for residents preparing for their boards and cytology students
- Extensive coverage presented in a concise, easy to read format
Quick Compendium Companion for Clinical Pathology: Challenge Questions for Clinical and Molecular Pathology

George Leonard, MD, PhD

Member Price: $109  |  List Price: $139

For residents and established pathologists looking for a concise, comprehensive self-study tool that complements our newly-revised third edition of the incredibly popular Quick Compendium of Clinical Pathology. Topics covered include: Chemistry, Blood Banking/Transfusion Medicine, Microbiology, Hematopathology, Coagulation, Immunology, Molecular Pathology and Medical Directorship.

- Over 900 study questions
- Hundreds of new and updated study questions
- High-yield information useful for board study and MOC exam preparation

Quick Compendium of Clinical Pathology

Daniel D Mais, MD

Member Price: $129  |  List Price: $174

Considered by many in the pathology field as the essential quick reference guide, the Quick Compendium of Clinical Pathology has long been the preferred clinical pathology board exam study guide for thousands of pathology residents and program directors.

- Thoroughly revised third edition
- Suited for those needing a guidebook for board preparation purposes or a "just the facts" practical quick reference
- Topics are organized according to traditional clinical pathology sections with tight focus and consistency of presentation within each topic
- Over 300 high-resolution images
Clinical and Laboratory Evaluation of Human Autoimmune Diseases

Robert M Nakamura, MD, FASCP; David F Keren, MD, FASCP; and David J Bylund, MD, FASCP

Member Price: $59 | List Price: $79

- Explores the limitations and usefulness of various clinical laboratory tests for the diagnosis and evaluation of human autoimmune diseases

Quick Compendium Companion for Surgical Pathology: Challenge Questions in Surgical Pathology

Editor: Michael W. Cruise, MD, PhD

Member Price: $179 | List Price: $249

A comprehensive review of critical surgical pathology topics that serves as a powerful study tool for board and Maintenance of Certification exams. In addition to new, high-quality images that demonstrate most of the diagnostic and morphologic characteristics of the lesions, the Companion volume includes:

- Over 1,500 questions and explanations about important areas within surgical pathology
- 563 image questions that highlight common presentations, patient characteristics, IHC and other findings
Histotechnology: A Self Instructional Text
Freida L Carson, PhD, HT(ASCP) and Christa Hladik Cappellano, BS, HT(ASCP)CM, QIHC
Member Price: $139  |  List Price: $179

This revised and expanded forth edition is an indispensable teaching tool and reference guide and a must for histotechnologists preparing for the ASCP HTL certifying examination. Completely updated with:

- Large-scale updating of immunohistochemistry, enzyme histochemistry and laboratory safety content
- Information on fixatives for electron microscopy
- Additional updated chapters, new images and a newly added glossary
- Over 350 images

Histotechnology: A Self Assessment Workbook
Freida L Carson, PhD, HT(ASCP)
Member Price: $79  |  List Price: $99

Updated and expanded with more than 1,100 questions to test your understanding of histotechnology concepts, presented in a variety of formats to better assess understanding.

- Questions covering new and expanded content, including molecular techniques, immunohistochemistry, enzyme histochemistry, laboratory safety and laboratory informatics
- Includes more than 400 image-based questions
- The perfect self-study tool and teaching aid
Dr. DeMay’s *Art and Science of Cytopathology* has been significantly expanded and updated to reflect the many and dramatic new advances in the field. Four beautiful volumes include:

- Nearly 7,000 unique high-resolution color images
- Thousands of quick reference tables and feature lists
- Detailed discussions of common and rare conditions

The fifth edition provides crucial diagnostic information to help solve zoonotic and other “opportunistic” parasites that puzzle today’s laboratory personnel. In addition, it brings fresh commentary on how newer modalities for molecular diagnosis work best in concert with morphology. It includes:

- 1,021 high-quality images
- Quick morphologic keys
- Important diagnostic procedures
- Expanded treatment of parasite-like artifacts and pseudoparasites
Practical Diagnosis of Hematologic Disorders, 5th Edition

Editors: Carl R Kjeldsberg, MD and Sherrie L Perkins, MD, PhD

Member Price: $229 | List Price: $289

Practical Diagnosis of Hematologic Disorders successfully delivers the voluminous literature of hematopathology into a concise source of guidelines that features liberal use of quick lookup tables and detailed diagnostic algorithms. Separate volumes for benign and malignant disorders. This edition features:

- A practical, modular format in each chapter for easily finding specific information
- Each significant entity is well illustrated with fresh imaging
- 723 images
- 289 tables and 70 figures

Business/Legal Handbook for Pathology Providers

Richard Cooper, Esq. and Jane Wood, Esq.

Member Price: $127 | List Price: $159

Covering an abundant mix of common legal issues that a pathologist or lab professional may encounter in the course of running a practice or a facility, the Business/Legal Handbook for Pathology Providers delivers readily accessible guidance, in an easy-to-read format, regarding common legal issues affecting pathology providers. Written by two of the top healthcare attorneys in America, areas covered in the handbook include medical and laboratory licensure issues; in-office technical subjects; account billing; employment contracts; HIPAA & breach response; payor audits and many other complex legal and contractual subjects. The handbook will be of high value to pathologists and pathology practice administrators from a variety of backgrounds, with or without a familiarity with law. Offered as a book and eBook bundle.
The Book of Cells: A Breviary of Cytopathology

Richard Mac DeMay, MD

Member Price: $159  |  List Price: $199

Beautifully illustrated and highly practical, the Book of Cells is an ideal companion for the everyday diagnostic practice of pathologists and medical lab professionals. Dr. DeMay’s books are highly respected and renowned for their illuminating text and brilliant images, and the Book of Cells is no exception, making it the perfect handy reference guidebook for every lab.

- More than 2,600 high resolution photomicrographs
- 1,000+ lists of quick reference data and key diagnostic findings
- Condensed format is less than 600 pages
- Heavily annotated images for faster comprehension of crucial features
- A beautiful and highly practical book for everyday diagnostic practice

E. Blair Holladay, PhD, SCT(ASCP)CM

Member Price: $164  |  List Price: $194

The field of cytopathology is rapidly advancing. Dr. Holladay’s new fourth edition keeps you up-to-date and fully prepared with:

- A significantly expanded diagnostic cytopathology section
- New and enhanced, committee-vetted study questions and images
- A cutting-edge chapter on molecular tumor markers, molecular diagnostics and theranostics
- Answers include explanations and references to Dr. Richard Mac DeMay’s Art and Science of Cytopathology, 2nd Edition

With over 1,400 questions and 500 high-resolution images, the forth edition volume is sure to serve as an invaluable and comprehensive self-study reference for pathologists, pathology residents, cytotechnologists and cytopathologists in training.
Blood Cells: Morphology and Clinical Relevance

Gene Gulati, PhD and Jaime Caro, MD

Member Price: $149  |  List Price: $184

The new second edition incorporates more discussions, images, entities, artifacts, and mimics in the blood. It brilliantly illustrates an even broader spectrum of morphologic variation in red and white blood cells. Blood Cells, 2nd Edition gives you more on every page—everything that made the first edition a perennial bestseller plus new additions that make it invaluable for the lab, including:

• The latest WHO classification of tumors of hematopoietic and lymphoid tissues
• Expanded range of morphologic variation depicted and adding cell types and entities
• Treatment of hereditary Heinz body hemolytic anemia and reactive plasmacytosis
• Microorganisms that may be seen in peripheral blood smears, particularly of the malarial and microfilarial parasites

Pathology Informatics: Theory & Practice

Liron Pantanowitz, MD; J Mark Tuthill, MD; and Ulysses GJ Balis, MD

Member Price: $79  |  List Price: $129

Pathology Informatics: Theory & Practice is the first multi-authored, current and comprehensive compendium of the diverse and rapidly expanding field of pathology informatics. It includes all of the critical and practical advice for management, operations, budgeting, and project planning and will serve as a comprehensive review of the field for students, pathologists, and laboratory professionals.

• Databases and data mining; networks and workstations; system interfaces and interoperability
• Bioinformatics, imaging informatics, clinical informatics, and public health informatics
• Automation and middleware that facilitate complex workflows
• Presented in a simple and straightforward approach and written for a diverse audience, this comprehensive book includes reworked and expanded chapters covering urine, semen, vitreous fluid, and sweat.
• Extensive ancillary methods in cytogenetics, flow cytometry, IHC, and molecular analysis
• Current and essential information on laboratory analyses and the care and treatment of patients
• Over 375 images

**Kjeldsberg’s Body Fluid Analysis**

*Editors: Jerry W Hussong, MD and Carl R Kjeldsberg, MD*

*Member Price: $159  |  List Price: $209*

This concise, easy to navigate spiral-bound quick-reference guide, with over 120 images, covers all major body fluid types as presented in the new *Kjeldsberg’s Body Fluid Analysis*.

• Each major fluid type is sorted and labeled according to disease mechanism
• Five categories of fluid images: Cerebrospinal, Pleural and Pericardial, Peritoneal, Synovial, and Urine
• The perfect quick-reference bench guide
Hemostasis Casebook: Lab Diagnosis and Management

George M Rodgers, MD, PhD
and Angela E Alday, MD

Member Price: $49 | List Price: $69

Fully updated and expanded with new problems and topic areas, Alday and Rodgers’ *Hemostasis Casebook* presents a comprehensive collection of case studies in hemostasis, thrombosis and coagulation.

- Complete with detailed explanations, this collection serves as a valuable teaching or self-study tool. Topics include laboratory evaluation of platelet, vascular, coagulation and thrombotic disorders.
- 64 case studies in hemostasis and thrombosis with detailed explanations
- Overview section covers the fundamentals of laboratory evaluation and management of coagulation disorders

Practical Surgical Pathology: Integrating Molecular Pathology into Your Morphologic Practice

Kirk Heriot, MD, PhD

Member Price: $129 | List Price: $179

To the practicing pathologist and those studying to be pathologists, *Practical Surgical Pathology* will become their go-to guide and the most practical and heavily illustrated single-volume reference available for surgical pathology.

- An accessible single volume that quickly addresses 95% of the difficult situations that are commonly encountered in the daily practice of surgical pathology
- Up-to-date in molecular techniques, it provides a thorough integration of morphologic and molecular diagnosis
- More than 1,700 photomicrographs
Prostate Pathology
Peter A Humphrey, MD, PhD

- 800 brilliant color images
- Comprehensive and heavily referenced, including practical morphologic diagnostic expertise, with emphasis on the Gleason grading system

Member Price: $89 | List Price: $109

The Pap Test
Richard Mac DeMay, MD

- Presented in a clear and precise style that offers practical insights, with over 4,000 international literature references
- Hundreds of liquid-based preparations alongside conventional smears, molecular biology and images of proven HPV, status cases

Member Price: $79 | List Price: $109
Wet Urinalysis

G Berry Schumann, MD; and Sheryl K Friedman, MT(ASCP)

- Over 200 high quality photomicrographs of important urine microscopic findings
- Provides information on dipstick testing, chemical and microscopic analysis, and urine sediment

Member Price: $79 | List Price: $99

An Atlas of Forensic Pathology

Charles V Wetli, MD; Roger E Mittleman, MD; and Valerije J Rao, MD

- Breakthrough guide to forensic autopsy, addressing all major fatality categories
- Comprehensive information on unnatural deaths and forensic pathologic investigation

Member Price: $99 | List Price: $139
Efficient Tumor Immunohistochemistry

Mehrdad Nadji, MD; Mehdi Nassiri, MD; and Azorides Morales, MD

- Simple, vivid guidelines to resolving diagnostic problems
- Differential diagnosis approach to tissue biopsies outlined in this unique reference

Member Price: $99 | List Price: $129

Practical Principles of Cytopathology, Revised Edition

Richard Mac DeMay, MD

- "Baby Mac" includes encyclopedic coverage of material that diagnosticians need, with over 1,300 images
- The most accessible single-volume resource for help with cytologic diagnoses

Member Price: $79 | List Price: $109
Bone Marrow Immunohistochemistry

Emina Torlakovic, MD, PhD; Kikkeri Naresh, MBBS, CCP, MD, FRCPat; and Richard D Brunning, MD

Member Price: $99 | List Price: $129

- 600 high-quality images with descriptions that demonstrate the diagnostic features of antibodies applicable to bone marrow tissue
- Critical review of most of the IHC tests in use today

Flow Cytometry in Clinical Diagnosis, 4th Edition

Editors: John L Carey, MD; J Philip McCoy, PhD; and David F Keren, MD

Member Price: $89 | List Price: $109

- Encompasses applications that include organ transplant recipients and donors and stem cell quantitation
- Valuable contributions from ten internationally renowned experts
