FACULTY

Elizabeth Crais, PhD, CCC-SLP, is a professor and coordinator of PhD studies in the Division of Speech and Hearing Sciences of the Department of Allied Health Sciences in the UNC-Chapel Hill School of Medicine. She has more than 40 years of experience working with children with disabilities. Her research interests include early identification and intervention for autism spectrum disorder (ASD), personnel preparation, and implementation of family-centered practices. She has been a part of a number of research projects focused on ASD and has been the project director or co-director on several Department of Education personnel preparation projects at both the MS and PhD levels.

Financial Disclosures
- Received financial compensation from ASHA for this presentation

Nonfinancial Disclosures
- Member of the research team that developed the First Year Inventory screening tool, discussed in the presentation

Linda R. Watson, EdD, CCC-SLP, is a professor in the Division of Speech and Hearing Sciences at the University of North Carolina at Chapel Hill. For approximately 17 years, Watson was primarily involved in educational or clinical services for children with ASD and their families. These experiences served as the foundation for her research studying early development, screening, and intervention for children with ASD, a primary professional focus in the past 15 years. She has published more than 50 peer reviewed articles and given more than 75 continuing education presentations related to children with ASD.

Financial Disclosures
- Received grant funds from Autism Speaks Institute for Education Sciences, National Institutes of Health - NICHD, National Institutes of Health - NIDCD, and Ireland Family Foundation
- Received speaking fees from Vermont Autism Institute, University of North Texas, Northern Speech Services, and Communities of Practice in Autism (part of the State of Virginia EI program)

Nonfinancial Disclosures
- Co-author on The First Year Inventory research tool
- Principal investigator of the research team for the Adapted Responsive Teaching intervention
- Principal investigator/co-principal investigator of the research team and lead author of the Advancing Social-Communication and Play intervention
