Counseling and Support for Students With Hearing Loss

FACULTY

Samuel R. Atcherson, PhD, CCC-A, received his bachelor's and master's degrees at the University of Georgia and his doctorate at the University of Memphis. He is currently associate professor and interim director of audiology at the University of Arkansas at Little Rock in consortium with the University of Arkansas for Medical Sciences. He is author or co-author of more than 95 publications, including three books, 10 book chapters, and 31 peer reviewed articles, and he has given more than 160 presentations around the U.S. and Canada. His research and clinical areas of interest include hearing assistive technologies, auditory electrophysiology, auditory processing disorders, audioligic rehabilitation, and health literacy. Atcherson is active in his state organization as former ArkSHA Treasurer and current Vice-President of Audiology and Hearing Services. He is a recipient of the 2011 ArkSHA Research Award, 2014 ArkSHA Audiology Award, and 2015 ArkSHA Adult Ambassador Award, and is a 2014–2015 participant of the ASHA Leadership Development Program. He is a bilateral cochlear implant user and a long-time user of hearing aids and hearing assistive and access technologies.

Ivette Cejas, PhD, is the director of the Barton G. Kids Hear Now Cochlear Implant Family Resource Center and an assistant professor at the University of Miami Ear Institute. Cejas received her PhD in clinical psychology from Nova Southeastern University and is a licensed psychologist in the state of Florida. She completed her clinical internship at the Mailman Center for Child Development, where she specialized in pediatric psychology. Cejas is a well-known researcher in the area of pediatric cochlear implantation, having published more than 20 articles/chapters and having presented at numerous conferences. Since 2004, she has been providing therapeutic services to children and families coping with a hearing loss diagnosis or co-morbid disorders. As part of the cochlear implant team she is involved with pre-implantation evaluations, assessment of cognitive functioning, and supportive therapy for families of children with hearing loss. She is an advocate for all children with hearing loss and organizes a mentoring program at UHealth to help prepare children and families for the journey of listening through cochlear implantation. She is on the AG Bell Board of Directors and is a member of the American Cochlear Implant Alliance.
