FACULTY

Michelle S. Bourgeois, PhD, CCC-SLP, is an ASHA Fellow and a professor in the Department of Communication Sciences and Disorders at the University of South Florida. She has received numerous grants from the National Institutes of Aging and the Alzheimer's Association to investigate interventions for spousal and nursing home caregivers designed to improve the quality and quantity of communicative interactions with residents with dementia, to evaluate memory aids and interventions for persons with dementia and traumatic brain injury, and to develop training programs for institutional caregivers. A clinical researcher, Bourgeois has published numerous research articles, training manuals and CDs, and books. She was the recipient of the 2007 Barry Reisberg Award for Non-Pharmacologic Research, Theory, and Clinical Practice.

Tammy Hopper, PhD, CCC-SLP, is a speech-language pathologist and professor in the Department of Communication Disorders, in the faculty of rehabilitation at the University of Alberta. She completed her PhD and post-doctoral fellowship at the University of Arizona (with Dr. Kathryn Bayles) and has been conducting grant-funded research with individuals with dementia for almost 20 years. She has more than 50 peer reviewed publications and 80 presentations on the topic of dementia, including a recent systematic review of cognitive-communication interventions for individuals with dementia (sponsored by ASHA’s National Center for Evidence-based Practice). Hopper is actively involved in continuing education initiatives with ASHA.
