FACULTY

Juliann J. Woods, PhD, CCC-SLP, is a professor in the School of Communication Science and Disorders at FSU and the director of the Communication and Early Childhood-Research to Practice Center, where she conducts research, provides professional development, and shares resources for SLPs, early intervention providers, program administrators, and interdisciplinary teams. An ASHA Fellow, Woods has more than 40 years of clinical experience, research, and teaching in early communication intervention for young children and their families with a special emphasis on early identification and intervention for toddlers with autism. Throughout her career, she has emphasized the translation of research to practice and has participated in more than 50 externally funded training and demonstration grants and contracts providing professional development nationwide, many including the use of technology to support the integration of content into work settings. She actively applies technology to professional development, including coaching within the home and classroom environments to support the implementation of recommended practices for early intervention programs. Woods has published extensively and presents regularly on early communication and intervention for young children and their families and the use of technology for coaching and professional development.
